3. Find the place with sufficient sunlight, remove the protective film (according to the method shown in the figure), and install it where you want to install

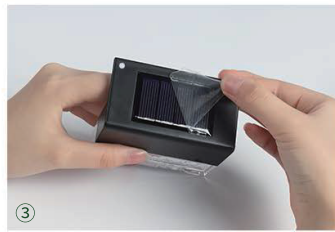

Installation Methods

Using screw to fix is recommended

Notes:

1. The lighting time is affected by weather seasons and places as the charging effect of the panel is dependent on sunlight.
2. This light is mainly for decoration, not bright enough for illumination.
3. Please place the switch in the "ON" position before charging.

3. Find the place with sufficient sunlight, remove the protective film (according to the method shown in the figure), and install it where you want to install
