

INSTALL ACC-SG33 CHARCOAL FILTERS

STEP 1:

Remove the baffle filters under the range hood unit. Locate the motor inside of the range hood unit, loosen the screws of the air inlet grille,

STEP 2:

Replace it with the grille from the kit.

STEP 3:

Take the charcoal filter and twist and lock it on both air inlet grille.

STEP 4:

Reinstall the baffle filters back into place.

Note:

Air flow holes must be reserved in the cabinet of the exhaust port to facilitate the recirculation of filtered air.
