INSTALLATION GUIDE

The operation is simple and convenient.

01

- Four pre-drilled mounting holes on tabletop underside.
- Flip tabletop to its backside.

02

- Align 4 large holes on the base with 4 large mounting holes on the tabletop.
- Insert black screws and tighten fully with the L-shaped wrench to achieve preliminary fixation.

03

- After securing black screws, insert gold screws sequentially into 4 corresponding small holes on the base and tighten with an electric screwdriver.
 - Installation finished.
- Note: Holes for gold screws are only on the table leg base.
No holes on tabletop.
