ASSEMBLY AND INSTALLATION INSTRUCTIONS

WARNING: TO AVOID RISK OF ELECTRICAL SHOCK, BE SURE TO SHUT OFF POWER BEFORE INSTALLING OR SERVICING THIS FIXTURE.

A

B

Before You Begin:

- Ensure power is turned off at the circuit breaker before installation.
- Read all instructions carefully.
- Installation should be performed by a qualified electrician if you are unfamiliar with wiring.

Step-by-Step Installation:

Step A:
1.Unscrew the socket ring from the socket and set it aside.
2.Spread the arms to the desired angle.
Step B:
1.Feed the fixture wires and ground wire through the downrod. Then tighten the downrod onto the fixture body securely. Downrods can be combined to achieve the desired length.
2.Feed the fixture wires and ground wire through the canopy swivel assembly, then thread the swivel onto the downrod. (Suitable for sloped ceilings.)
3.Secure the mounting plate to the junction box using the mounting screws.
4.Wiring Connections
·Use wire connectors to connect the fixture's positive wire (L), negative wire (N) to the corresponding wires from the junction box.
·Ensure no exposed conductors remain outside wire connectors or outside the junction box.
·Connect the ground wire to the supply ground wire, then secure the fixture ground wire and the supply ground wire to the mounting plate with the green grounding screw.
5.Place the canopy over the mounting plate and secure it with the nuts.
6.Attach the glass shade to the socket using the socket ring. Align the shade properly.
7.Install light bulbs (bulbs not included).

Safety Instructions:

To avoid fire, shock, and serious personal injury, follow all instructions carefully.
1. Do not install or use the light fixture if any part is missing or damaged.
2. To avoid possible electrical shock, be sure electricity is turned off at the main fuse or circuit breaker box before wiring.
3. Make certain no bare wires are exposed outside the wire connectors.
4. All wiring must conform to national and local electrical codes.
5. Follow the recommended instructions for the proper method of wiring your new light fixture. If you feel you do not have enough electrical wiring knowledge or experience, have your light fixture installed by a licensed electrician. Any electrical work not described in this manual should be performed by a licensed electrician.
