

# Installation Guide

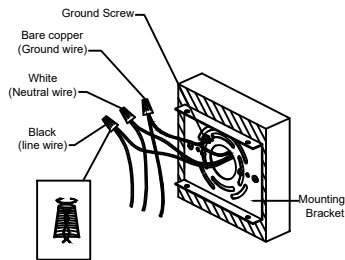

1、 Fix the Mounting plate to the wall.

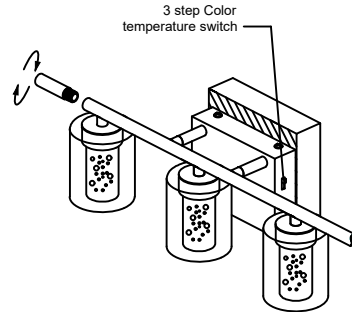

4、 Fix the glass with bubble posts.

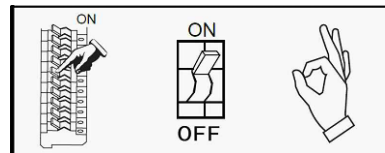

Warning: In order to prevent breakage, falling, electric shock, fire and other accidents that threaten personal safety, please follow the instructions for installation and use the light in strict accordance with the instruction manual, no need to modify the light or replace parts.

2、 Connect the power cord, black to black (L), white to white (N).

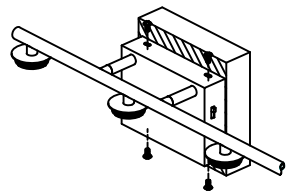

5、 Install the decorative tubes on both ends.

6、 Turn electricity "ON" at main fuse box.

Safety Precautions (Please read the following precautions carefully before installation)

1. Please be sure to disconnect the power when installing;
2. The ceiling must be able to support at least four times the weight of the lights before it can be installed, and the lights should not be installed in a thin, soft, or non-load-bearing area;
3. Do not install fixtures over hot objects or in damp locations (not over stoves, gas, vents, etc.);
4. Lamps must not be connected in series with other electrical appliances, and must not be used in parallel with dimmers;
5. When inspecting and repairing lamps, entrust the operation to professionals;
6. If this fixture is damaged on the outside by flexible cables or cords, contact us for solutions to avoid danger;
7. In the event of an abnormality in the light, quickly disconnect the power and contact us.

3、 Secure the base to the mounting plate with the set screw
