JIM bell, cone and cylinder,
Design by Patrick Norguet

Model JIM bell

Immediate function, uncomplicated style, durable materials, modular at will.
Inspired by the abat-jours of the ateliers of the early 1900s, JIM is a system of suspension lamps with distinctive shapes and a versatile composition that suits any interiors and living environment.
JIM's versatility is further enhanced by the colour range: the two finishes for the shades can be combined with the two different suspension hook hues as desired.
