

A MINIMUM OF (2) INSTALLERS ARE REQUIRED FOR PROPER TABLE ASSEMBLY. BE SURE TO ASSEMBLE THE TABLE IN THE DESIRED SPACE IT WILL BE USED IN; AVOID MOVING THE TABLE ONCE THE TOP AND BASE HAVE BEEN ASSEMBLED.

1.- The table base will arrive in 2 boxes containing the base and hardware and the table top. Begin by unpacking the base carton. Using scissors, open the box and carefully remove the table base and bag of hardware, then set them aside.

2.- Place your table top flat on the floor in the location where the table will be used.

Attaching the base to the customized top

3.-Pick up the table base and carefully line up the predrilled holes on the sub top to the inserts on the underside of your table top.

4.-Using a screwdriver, screw the screws into the inserts in the top until they make contact and then tighten an additional $\frac{1}{4}$ turn.

CAUTION: OVERTIGHTENING CAN CAUSE DAMAGE; ALWAYS USE A SCREWDRIVER NOT A DRIVER OR POWER DRILL

Placement of table

5.-Carefully lift the table from opposite sides. Carefully rotate the table to be top side up and place it in the desired spot on the floor.
