SUMERAIN®

**MODEL: SP4368-XX**

**Version: 1.2**

# INSTALLATION GUIDE

## FILTER ELEMENT

**CUSTOMER CARE LINE : +1-866-203-0866**

# INSTALLATION STEPS

## 1. BEFORE PROCEEDING

**WARNING:** Before proceeding with any installation, please read all instructions thoroughly. If you are uncertain about installing this product, please consult a professional! This product should be installed in accordance with all local and state plumbing and building codes. It is recommended to seek professional assistance.

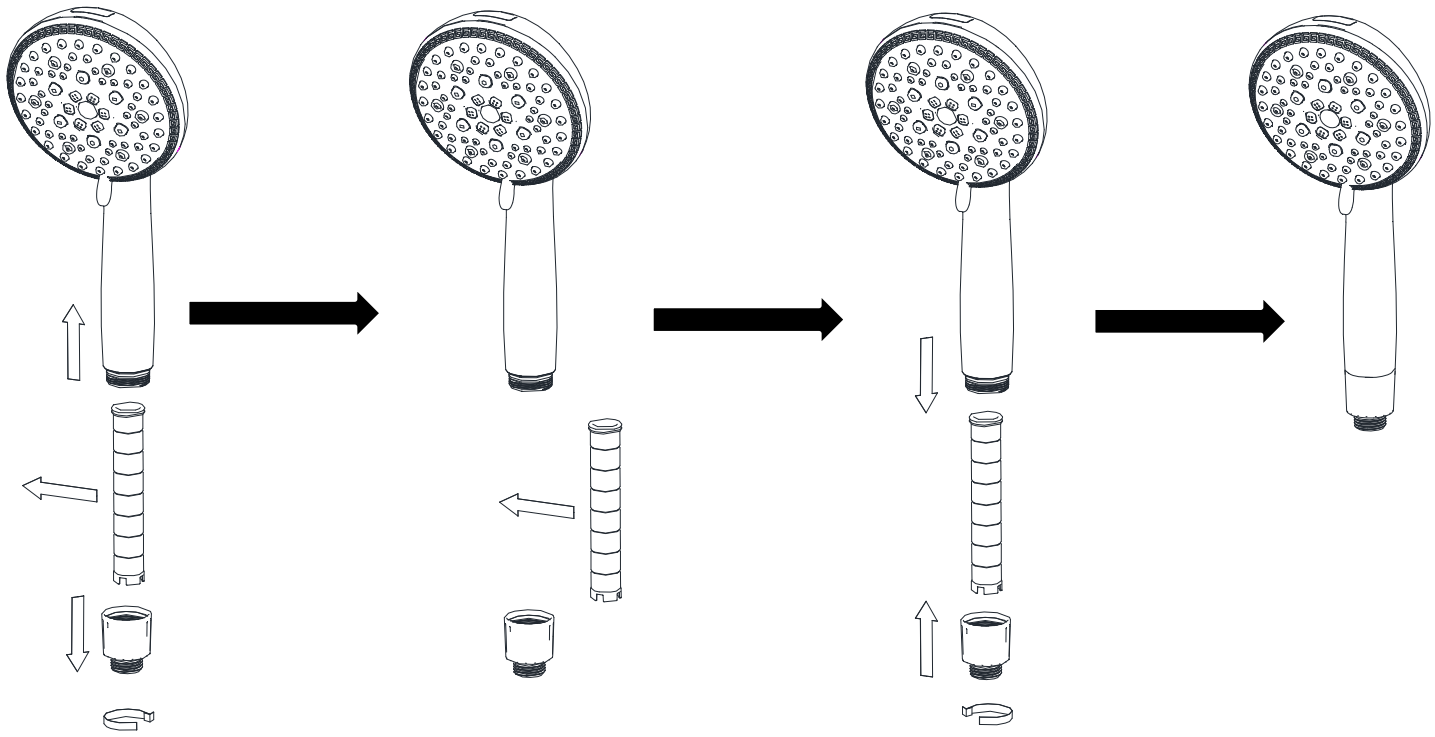

## 2. SHUT OFF WATER SUPPLY

Locate the water supply inlets and shut off the corresponding water supply valves, typically found near the water meter. If replacing an existing unit, remove the old unit and thoroughly clean the mounting surface.

## 3. CHECK THE COMPONENTS OF THE BOX

If any of these items are missing, please contact SUMERAIN consumer service by email to: support@sumerain.com

## 4. Procedure for Replacing the Filter Element of a Handheld Showerhead

1. Carefully remove the used filter element.
2. Insert a new filter element.
3. Tighten the housing securely.
4. The installation is now complete.

If the water output from the hand sprayer significantly decreases after use, or if your skin feels rough after using the hand sprayer for rinsing, it is recommended to replace the filter element.

## 5. MAINTENANCE

**5.1 FILTER MAINTENANCE AND REPLACEMENT**

Over time, users may notice a decrease in water flow after prolonged use. To resolve this, replace the filter element.

**5.2 SUGGESTION ON FILTER LIFESPAN**

Each anti-scale filter element is normally effective for three months or can treat up to 3 tons of hard water. Once either condition is met, the anti-scale filter element must be replaced to restore its functionality.

**5.3 Compatible product models for this filter element**

This accessory is compatible with Sumerain company models S3244I and S4368U.
