Materials: Wood/Wrought Iron/Acrylic

Item Weight: 29 lb

Number of Lights: 3

Suggested Bulb: Integrated LED

Watts per Socket / Item: 18 / 54

Cord: 16' Black

A sophisticated arrangement of rectilinear shapes, the Tonbridge Linear Chandelier also has a rich mix of materials. The vertical rectangles are made of metal in a painted brass finish and the horizontal wood element is in a warm chestnut wood finish. Ian Thornton designed this fixture with long kitchen counters and dining tables in mind. To soften the illumination, the wood rectangle is fitted with an acrylic diffuser. A design detail of note is how the painted brass elements have a bit of antiquing on the corners.
