CHARACTERISTICS OF TERRAZZO TOP

Terrazzo is a composite material, It consists of various aggregate or chips of marble, granite, quartz, glass, shell or other suitable materials. Inorganic Terrazzo is also called cement or concrete terrazzo, or concrete collaborative type. Distinguish from Epoxy or Resin Terrazzo, the Inorganic type uses high grade cement as the binding adhesive. So it has the uncomparable strength & performance of the epoxy type.

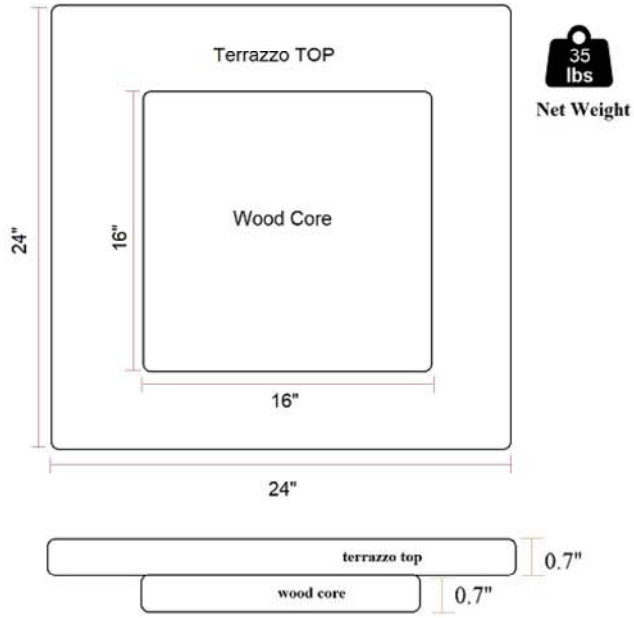

TERRAZZO TOP ADVANTAGES

Waterproof Non-smoke Toxicity Fireproof Environment Friendly

HOW TO MAINTAIN TERRAZZO TOP

1, Although our terrazzo tabletops have been sealed for water and stains at the factory, It still needs to be used with caution.
2, Wipe spills immediately to prevent stains. Protect from acidic substances and use mats to protect from ring marks.
3, Prepare a mild cleaning solution by mixing warm water with a few drops of a pH-neutral dish soap or a dedicated concrete cleaner.
4, For stubborn stains, you can try using a poultice made of baking soda and water or a specialized concrete stain remover.
5, Avoid placing sharp objects directly on the surface to prevent scratches.
6, Avoid prolonged exposure to the sun to prevent the terrazzo table top from cracking.

RESTAURANT TABLE TOP

Top Material:	Marble / Concrete Terrazzo
Top Size:	24'' W X 24'' L
Top Thickness:	0.7''
Backed with plywood Size	16'' W X 16'' L
Plywood Thickness:	0.7''
Total Weight:	**35** lbs.
Weight Capacity:	220 lbs.
