

ASSEMBLY INSTRUCTION

Disclaimer

To Valued Customers:

Thank you for purchasing furniture products from our store. To ensure your safety and the best user experience, please read and understand all the contents of this notice carefully before installation and use. Once you start installing or using this product, it is deemed that you have accepted all the following terms.

I. Regarding Installation

● **Professional Installation Recommendation:** For large, modular, or wall-mounted furniture, we strongly recommend that you hire qualified professionals for installation. Self-installation may involve risks.

● **Self-Installation Liability:** If you choose to install the product yourself, it means that you confirm you have the corresponding installation capability and voluntarily assume all risks and responsibilities arising from improper installation, including personal injury and property damage. Improper installation includes, but is not limited to, damage to product components due to ignoring installation instructions during the installation process, loose, missing, or wrong installation of connectors, and obvious instability such as tilting and shaking due to improper placement after installation.

● **Follow Official Instructions:** Installation must strictly follow the steps in the Installation Manual and diagrams provided with the product. Do not rely on any installation guidance from unofficial channels. Our company shall not be responsible for any problems caused by failure to follow official instructions.

● **Safe Installation Environment:** Please carry out the installation in a spacious, bright, and well-ventilated environment and use appropriate tools. During installation, please keep children and pets away from the work area to prevent accidental ingestion of small parts or accidental injuries.

II. Regarding Usage

● **Weight Capacity Limit:** Please strictly comply with the maximum weight capacity limit indicated on the product. Overloading may cause structural damage, deformation, or overturning of the furniture, leading to serious accidents. Our company shall not be responsible for any consequences arising therefrom.

●**Regular Inspection and Maintenance:** It is recommended that you regularly (especially in the early stage of installation and after moving) inspect and tighten all connectors (screws, bolts, etc.) to ensure the structural stability of the furniture (see the maintenance method in the manual for details). Problems caused by neglect of inspection and maintenance are not covered by the warranty.

●**Proper Use and Placement:**

Place the furniture on a flat and solid floor.

Do not use the furniture for purposes other than its designed use (for example, standing on drawers or shelves, using a chair as a ladder, etc.).

Do not place heavy objects such as televisions or items that attract children on the upper part of the furniture.

Avoid placing the furniture in humid, sun-exposed, or extreme temperature environments to avoid affecting the product's service life or structural stability.

III. Liability Limitation

Our company provides warranty services for product quality in compliance with platform policies and relevant regulations. However, our company shall not be legally responsible for any direct or indirect personal injury, property damage, and other incidental losses caused by the following reasons:

Failure to comply with the requirements of this notice, the official Installation Manual , or product labels;

Misuse, abuse, negligence, or unauthorized repair or modification without our company's authorization;

Improper installation (whether carried out by the user or a third party not designated by our company);

Force majeure events.

Safety first, prevention is better than cure. We wish you a pleasant use!

Electrical Safety Precautions

- **Do not** use damaged power plugs or loose power sockets.
- **Do not** move the product by pulling the power cord.
- **Do not** forcibly bend the power cord or place it under heavy objects.
- If the power socket is wet, carefully unplug the product's power plug.
- **Do not** touch the power plug with wet hands.
- Unplug the product's power plug before maintenance.
- For electrical products not in use for an extended period, ensure the power supply is disconnected.

Children should use this product only with adult supervision.

**DO NOT SHAKE OR CLIMB
ON THE HEADBOARD**

**DO NOT PLAY WITH OR
SWALLOW SMALL PARTS**

Weight Capacity:

–Do not place items exceeding the maximum weight capacity of the product. (For the product's weight capacity, please refer to the product link.)

Usage Scenarios and Maintenance Methods

- **Do not** place the product in a humid environment.
- Avoid direct exposure to high temperatures and keep it away from heat sources.
- Clean and maintain the product regularly.
- Place it on a flat surface. When moving is required, ensure that at least two people lift it together.
- Check the condition of screws regularly. If any screws are loose or fall off, reinforce them promptly.

Wooden products

Preparation before Installation

–Please read the assembly instructions carefully before installation and keep this manual for future reference. Check that all components are complete, including panels, hardware fittings, screws, plastic parts and other small components.

Ensure that **only adults** perform the installation, and keep children away from the installation area.

Notes

- Avoid prolonged exposure of the furniture to direct sunlight or proximity to heating appliances to prevent local discoloration and fading.
- **Do not** allow easily combustible or oxidizable items to come into direct contact with the furniture surface, as this may cause chemical reactions and damage the furniture finish.
- Climbing or playing on the product is prohibited to avoid accidental injury. **Do not** use the product as a support or stand on it for high–altitude operations.
- **Do not** forcefully open or close the furniture doors and drawers. Use appropriate force during operation to prevent loose connections.
- When moving the furniture, remove all items inside the cabinet and secure movable parts such as doors and drawers to prevent the furniture from tilting or parts from falling and causing injury. Never drag or push hard during movement to avoid loose fasteners or broken parts. The product must be lifted off the ground by multiple people simultaneously; ensure safety during handling.
- When children use this product, adult supervision is required to ensure safe use.
- Strictly use anti–tip components as specified in the instruction manual.
- **Do not** slide hard objects directly on the furniture to avoid scratching the surface; prevent hard objects from colliding with the furniture to protect its surface from hard scratches.

- Avoid prolonged contact of panel edges with water or liquids, as this may cause panels to absorb moisture and swell.
- Avoid prolonged exposure to high temperatures, as it may cause surface bulging on vacuum-formed/laminated components.
- **Do not** use any acidic or corrosive cleaners for surface cleaning.
- Secondary drilling is not recommended, as it may damage the internal structural strength.

Maintenance Methods

- (1) Regularly remove dust from the furniture surface with a soft cloth or wool brush to prevent dust from scratching the paint finish.
- (2) If there are water stains on the product, wipe them dry with a dry cloth immediately. Do not allow moisture to remain on the furniture surface to avoid long-term dampness.
- (3) If the environment where the product is placed is humid, it is recommended to place dehumidifying products inside the cabinet.
- (4) Place high-temperature or frozen items on the product only after placing a heat-resistant mat underneath. For heavy or hard items, use a soft decorative tablecloth or felt pad on the surface to provide protection.
- (5) Lubricate connectors: Regularly lubricate moving parts (such as hinges and slide rails) to maintain flexibility.

WARNING

Need Two Or More People To Complete

Assemble Item On a Clean Flat Surface

- Please check you have all hardware before assembling.
- Please ensure you have the name of the item and hardware part required and quantity.
- If you have any questions, please contact us by original purchase platform.
we will reply you ASAP.

EXPLODED DRAWING:

Please check all parts and accessories according to the parts list before assembling, make sure all contents are sufficient and in good condition.

If there is any parts missing or defective, please contact us with purchase platform message immediately to get replacement parts.

PARTS A:

PARTS B:

PARTS B:

HOW TO INSTALL

STEP 1

NOTICE:

Please install the screws in the order shown in the diagram.

STEP 2

NOTICE:

Please install the screws in the order shown in the diagram.

NOTICE:

While tightening the screws, ensure that parts 21 and 24 remain flush.

STEP 3

NOTICE:

Please pay attention to the orientation of parts 13 and 14.

STEP 4

B

M8x12mm
x3

NOTICE:

While tightening the screws, ensure that parts **23** and **24** remain flush.

STEP 5

(1) Do not tighten the screws.

(2) Please note the orientation of parts 10 and 11.

STEP 6

NOTICE:

(1) Please install the screws **B** in the order shown in the diagram.

(2) Do not tighten the screws.

STEP 7

NOTICE:

1. Install the **B** screws after the **J** screws are fully installed.
2. The installation must be carried out by two people.

Install this screw **J** first

STEP 8

NOTICE:
Tighten all the screws.

STEP 9

Install this one first

NOTICE:

Please install the screws in the order shown in the diagram.

STEP 10

NOTICE:

(1) Please install the screws in the order shown in the diagram.

(2) Please pay attention to the orientation of Part 27.

STEP 11

NOTICE:

Grooved side of Part ① and Part ② faces inward; flat side of Part ③ faces inward.

STEP 12

C

M8x20mm

x4

NOTICE:
Do not tighten the screws.

HEAVY! You may need assistance with this step.

STEP 13

E

M8x40mm

x4

For Your Safety!

HEAVY! You may need assistance with this step.

STEP 22

NOTICE:

Part **A** is designed to leave a protrusion part outside in order to lock the drawer.

STEP 23

STEP 24

Warm Tips

- (1) Please place the assembled bed against the wall.
- (2) **Do not** jump or play on the bed.
- (3) For your safety, please **do not** crawl under the bed.

Wheel Category

Instructions for Use

–Deodorization: It is normal for wheels to have a rubber smell, so there is no need to be nervous. Just place the wheels in a well-ventilated area to let the smell dissipate before installation.

–Usage Method: Install them at the bottom of compatible products, ensuring that the wheels can rotate flexibly, the braking function (if any) works properly, and push at a constant and stable speed. Avoid driving quickly on uneven ground to reduce wheel wear.

Notes

- Ensure the integrity of accessories: Prevent collisions and falls that may cause wheel deformation and bearing damage, as well as hard objects from scratching the wheel surface.
- **Load-bearing limit:** Strictly use within the rated load to avoid wheel damage and product tilting due to overloading.
- **Ground protection:** Avoid long-term use on sharp, uneven ground to prevent wheel surface wear and jamming.
- **Brake usage:** For wheels with a braking function, please brake and fix them in time when the product is not in use to prevent the product from sliding.
- For the safety of you and your family, it is recommended to install the **Anti-Tip Device Kit**.

Maintenance Methods

Cleaning method: Wipe the dust and debris on the wheel surface with a damp cloth, and clean the bearing parts with a dry soft brush. Regularly check the wear of the wheels, whether the bearings rotate smoothly, and whether the brakes are sensitive, and replace severely worn wheels in time.

Power strip

Preparation before Installation

Ensure the rated voltage range marked on the power strip covers your local voltage. **Never** use it if they don't match!

Carefully check the maximum rated power (in Watts, W) or maximum current (in Amperes, A) marked on the power strip. This indicates the total load limit the strip can handle.

Instructions for Use

(1) Insert the power strip plug fully into the wall socket to ensure good contact.

(2) Plug appliances directly into the power strip's sockets. Never daisy-chain (cascade) another power strip onto this one, especially for high-power devices. This significantly increases the risk of overloading and circuit overheating.

Notes

- **Waterproof and moisture – proof:** Keep away from water sources. Do not cover the power strip (such as covering it with blankets, books, curtains). Ensure there is enough space around for heat dissipation. Stay away from heat sources and flammable materials. **Do not** let heavy objects press on the power cord or the power strip itself. **Do not** bend, pull, or step on the power cord. Do not use nails to fix the power cord.
- **Regular Touch Checks:** After using for a while (especially after using high-power devices), gently touch the power strip casing and power cord with the back of your hand. A slight warmth is normal (heat is generated when electricity passes through), but if it feels hot to the touch, stop using it immediately and unplug all devices!
- **Child Safety:** If there are children in the household, choose a power strip with safety shutters (to prevent foreign objects from being inserted into individual sockets) and educate children not to play with the power strip or power cord.

Maintenance Methods:

(1) **Regular Cleaning:** Be sure to first unplug all plugs and disconnect the power strip from the wall socket, then wipe dust off the casing and power cord with a dry, soft cloth, use a dry, soft brush to clean gaps, strictly prohibit using liquid cleaners like wet cloths, cleaning agents, alcohol, sprays, etc. as liquid seeping inside can cause short circuits and electric shock risks; if there's dust in the sockets, carefully clean them using a can of dry compressed air (keep a certain distance) or a dry, soft brush and never poke the sockets with metal objects such as paper clips or toothpicks!

(2) **Regular Inspection:** Conduct inspections once a month or once a quarter: check if the power cord has damage, hardening, cracks, indentations, or pet bite marks; check if the plug and sockets have signs of scorching, deformation, looseness, or poor contact; inspect the casing for cracks, deformation, or traces of abnormal heating; and smell for any unusual burning odor (even when not powered on, internal faults may leave residual odors). If any of the above issues are found, stop using it immediately and replace it!

(3) **Avoid Improper Operation:** **Do not** force mismatched plugs into the sockets; when plugging in or unplugging, hold the plug itself with your hand and **Do not** pull the power cord; **Do not** place the power strip in locations where it may be stepped on or cause people to trip.

After-Sale Support

Dear Customer,

Thank you for choosing to purchase our products! We attach great importance to your shopping experience and hope to ensure that you are satisfied with this purchase.

Should you have any questions, please contact us through the original purchase platform. We will reply your messages as soon as possible, please kindly wait for the response from our team.

Thank you again for your understanding and support! If you have any other questions, please feel free to contact us at any time.

Best Regards,
After sales service team
