Step 2

Place the chair assembly upside down on a table. Insert two side stretchers into back leg holes. Make sure the ends with "L" and "R" stickers on the bottom of stretcher should be connected to back legs. Also, make sure the front leg sticker matches the sticker on the seat frame before attaching two front legs. Fasten bolts when all stretchers in place and do not tighten bolts.

Place the chair right side up on an even surface. Now tighten all bolts when all legs are properly leveled.

Step 4

Fasten the stretchers and legs with screws.
