## OXO 28081 Details

Use this OXO 28081 Good Grips soft-handled can opener to open cans fast and keep your restaurant or catering kitchen running smoothly! With an easy, gear-operated cutting wheel, this can opener will crank open your small cans of beans, tuna, or sauce. It even includes a built-in cap remover, making it a handy all-in-one kitchen tool.

This durable, stainless steel opener features a comfortable handle for gripping thanks to the ergonomic Good Grip design. The non-slip grip ensures cans are opened quickly and easily, even when hands are wet. The oversized knob makes operation simple, and ensures comfort for the user opening multiple cans. Ideal for opening small cans in restaurants or catering kitchens, it is easy to clean or carry with you through prep and service. Food prep has never been easier than with the OXO Good Grips can opener! A must-have in any kitchen, its compact size makes it easy to store, and because the stainless steel wheel never comes into contact with food, it's easy to keep clean, making it a great investment for any establishment!
