

INSTRUCTIONS

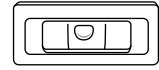

Tools needed :

Screw driver

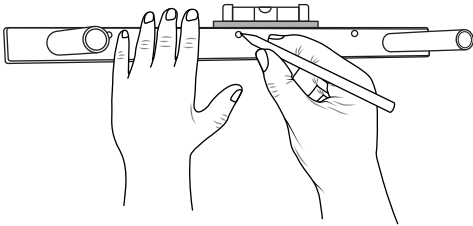

Drill (optional)

Level (Included)

1

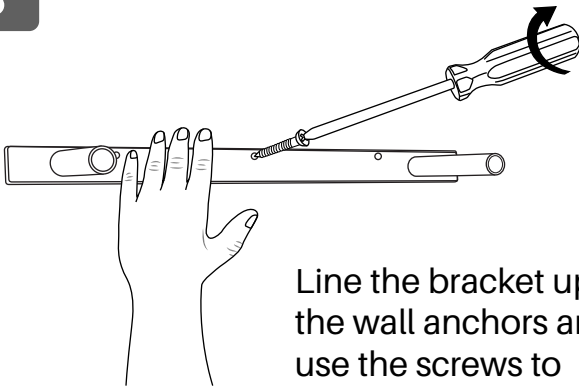

Hold bracket up to the wall where you would like to mount your shelf. Make sure it is level, then mark the holes in the bracket on the wall

2

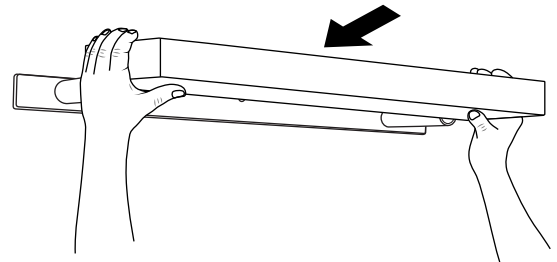

Using a screw driver or drill, screw the wall anchors into the wall where you marked in step 1.

3

Line the bracket up to the wall anchors and use the screws to secure it to the wall

4

Slide the shelf onto the wall bracket.

5

Use the smaller screws to secure the shelf onto the bracket
