# Step 1

Insert side panels 1 into kick plates 2 and fix them with screws A

(A)  × 4

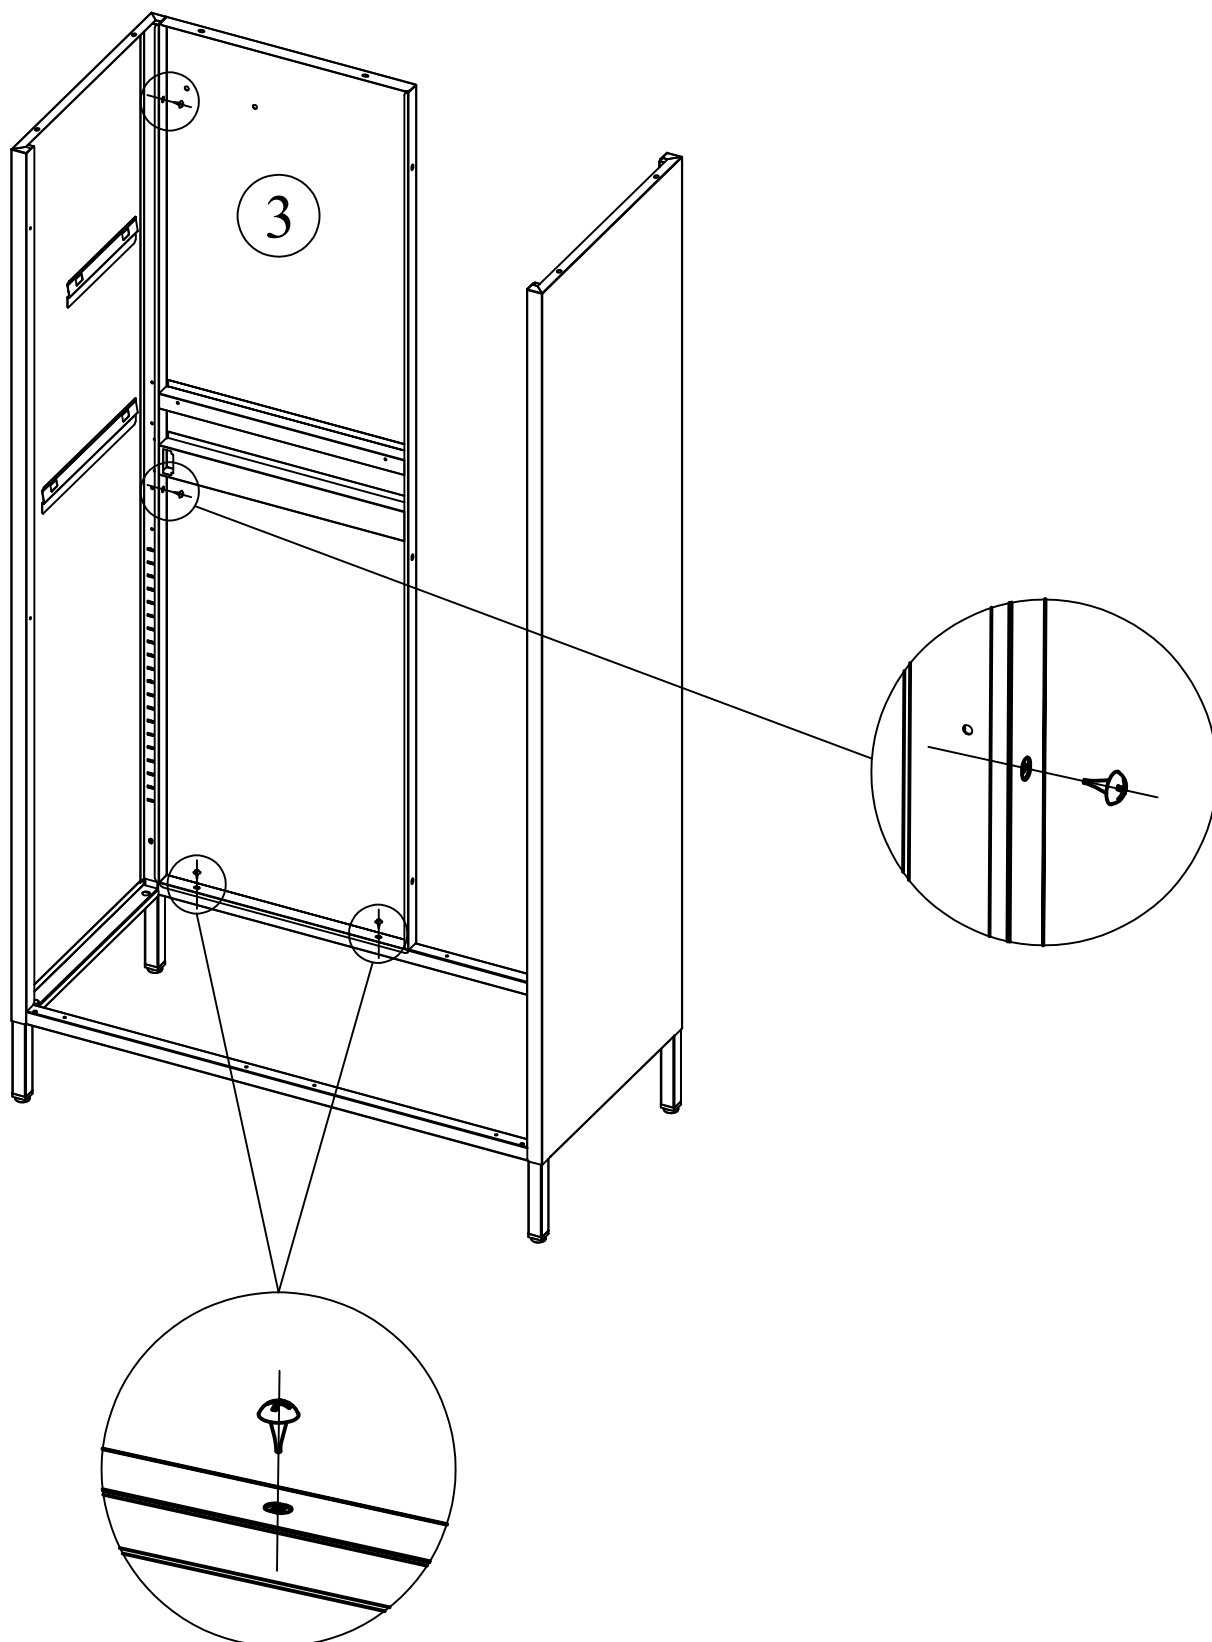

The door shaft hole is in the front

## Step 2

Connect left back panel 3 with left side panel 1L and kick plate 2 by screws A

Ⓐ  × 4

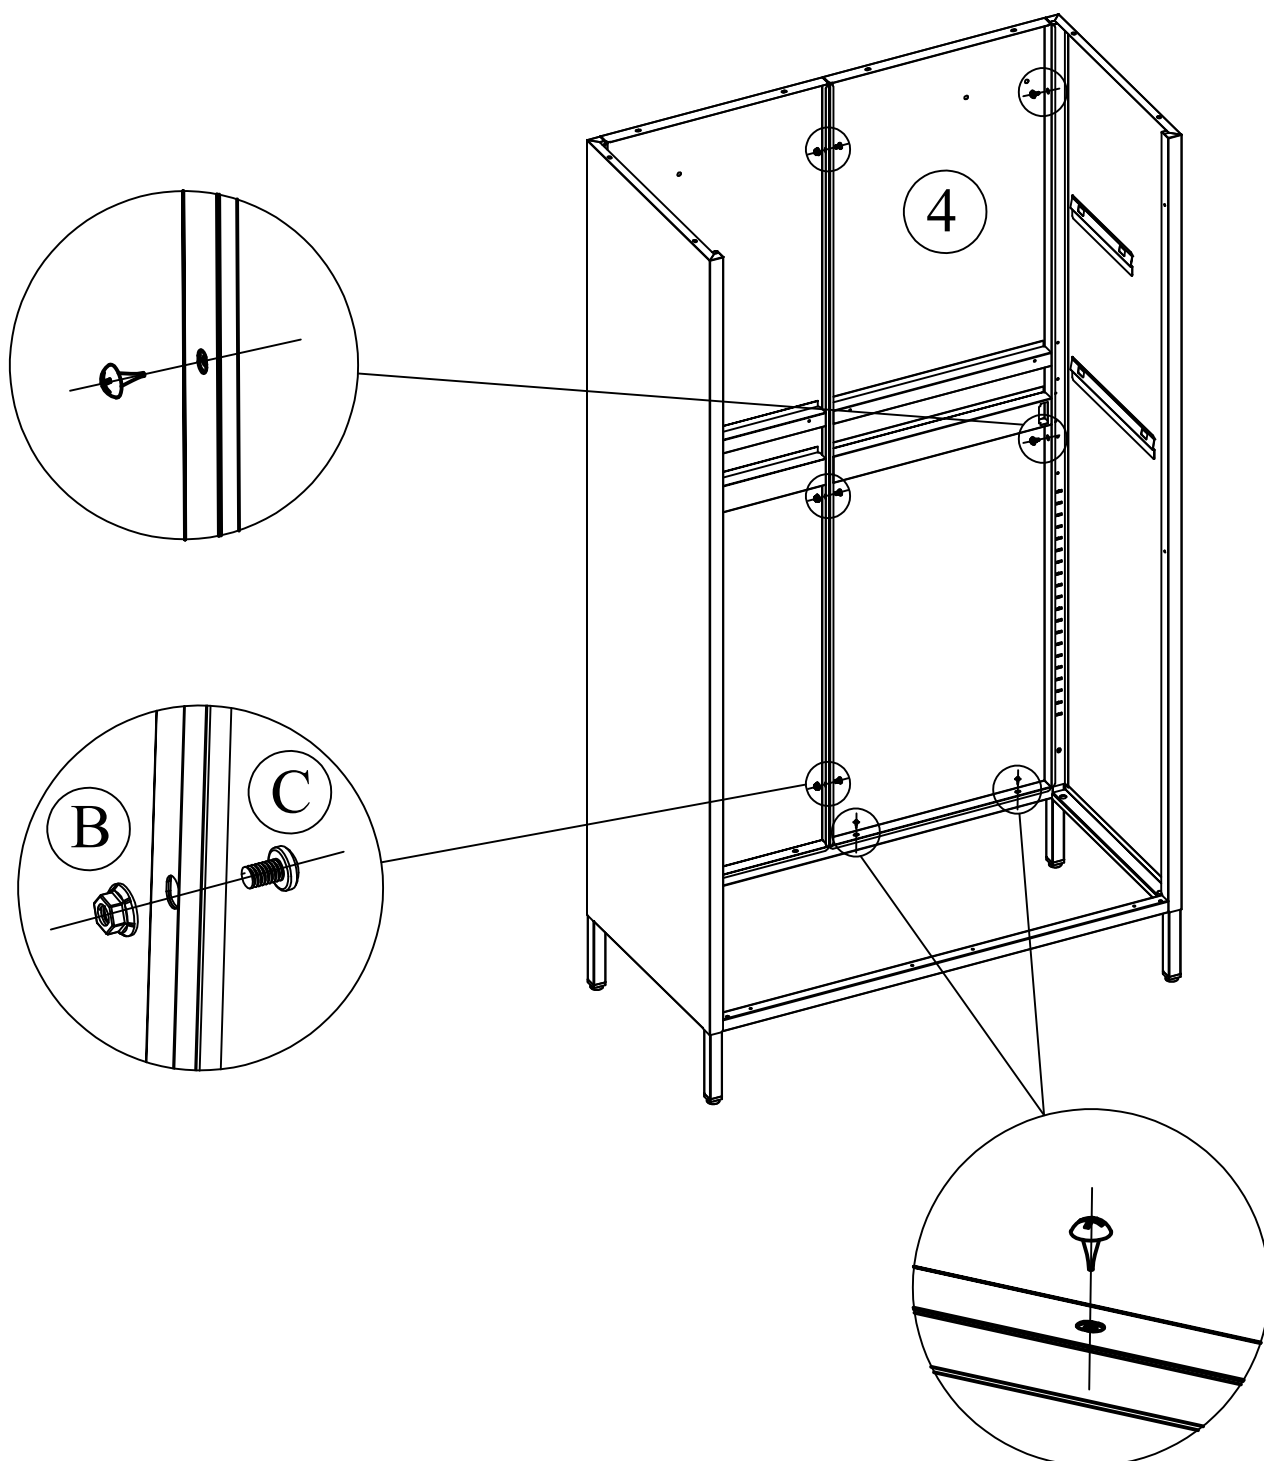

## Step 3

Connect right back panel 4 with right side panel 1R and kick plate 2 by screws A, then connect two back panels 3 and 4 with nuts B and screws C

(A)  × 4

(B)  × 3

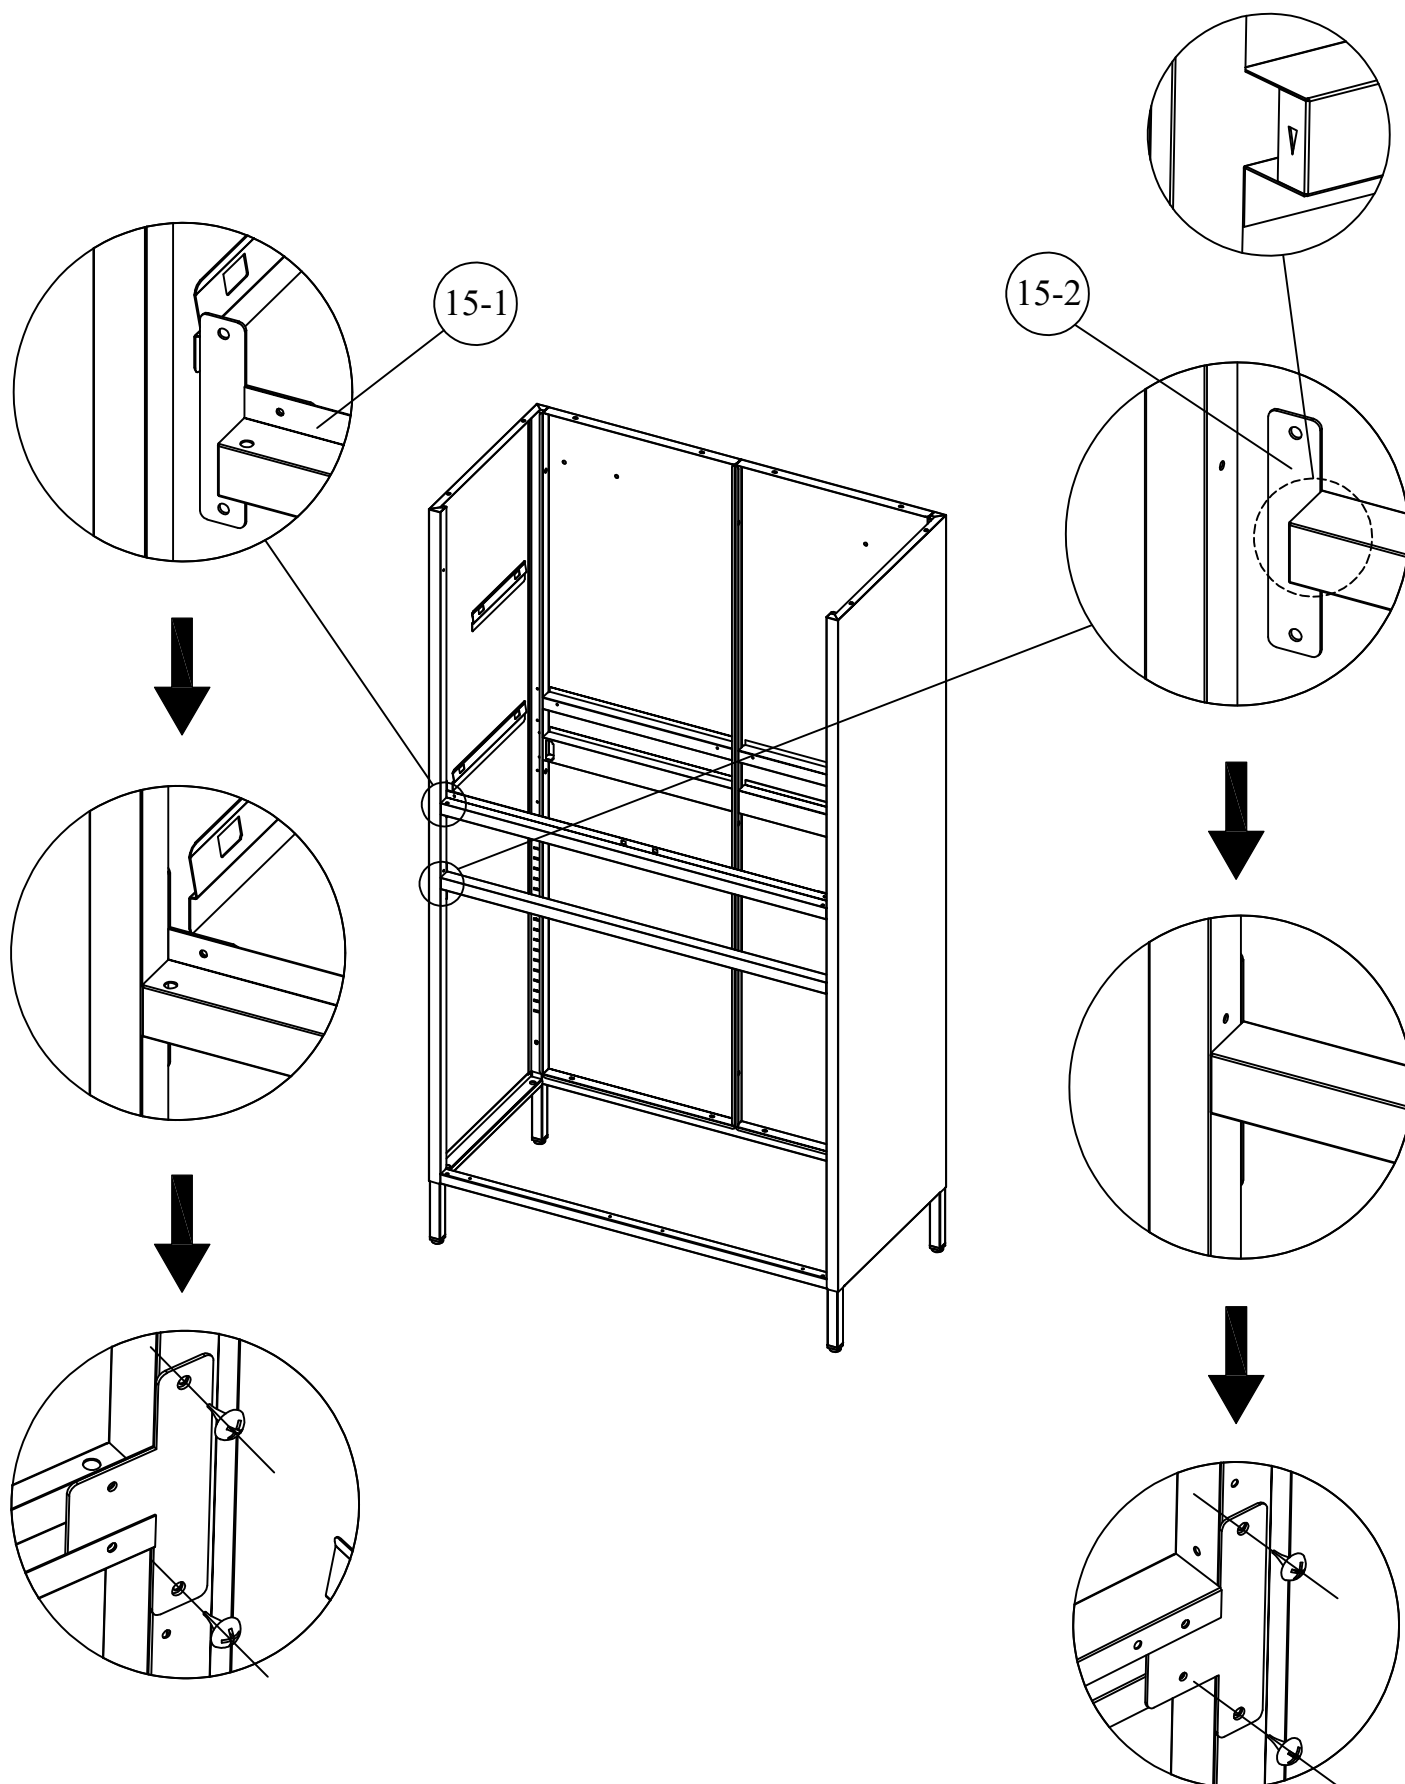

(C)  × 3

## Step 4

Install waist faces 15 on the left side panel with screws A

Ⓐ  × 4

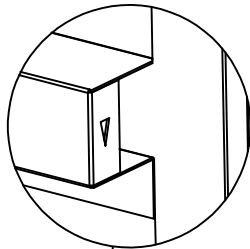

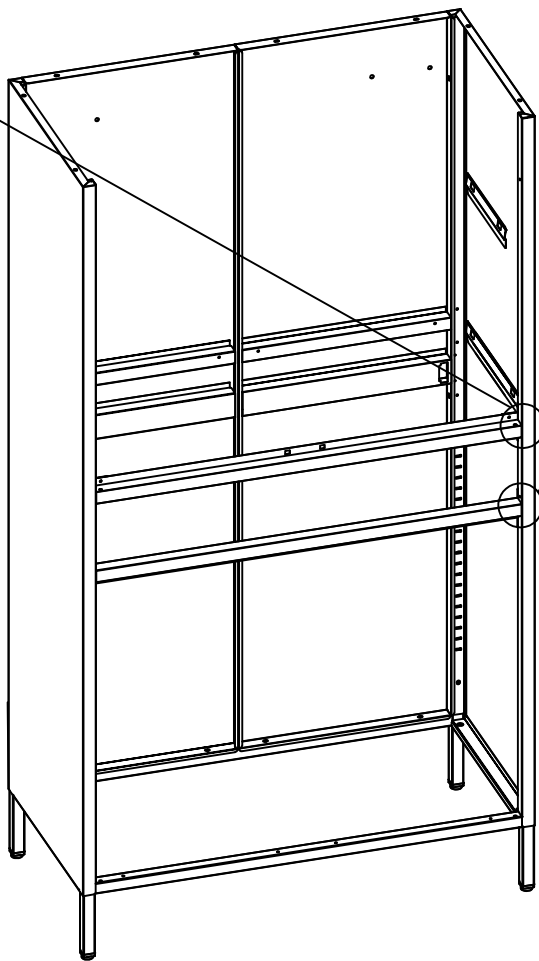

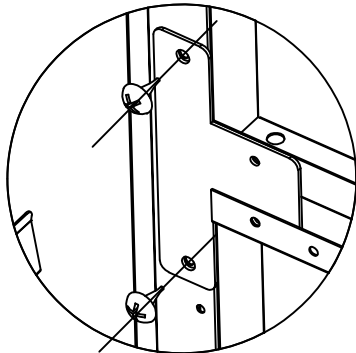

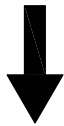

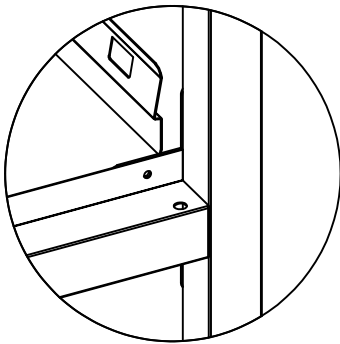

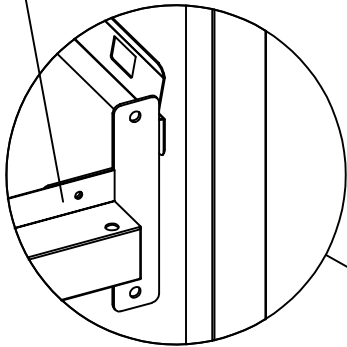

# Step 5

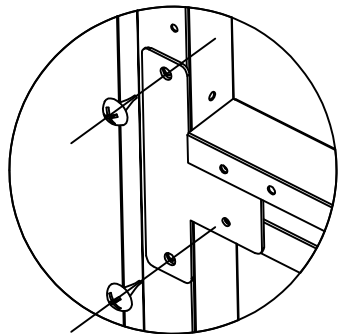

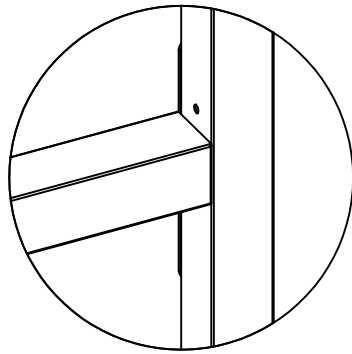

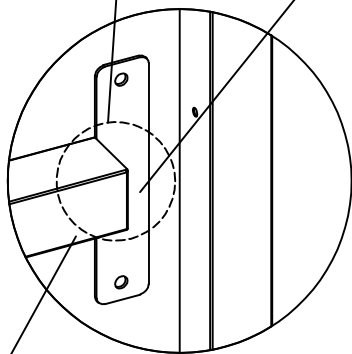

Install waist faces 15 on the right side panel with screws A

A  × 4

15-1

15-2

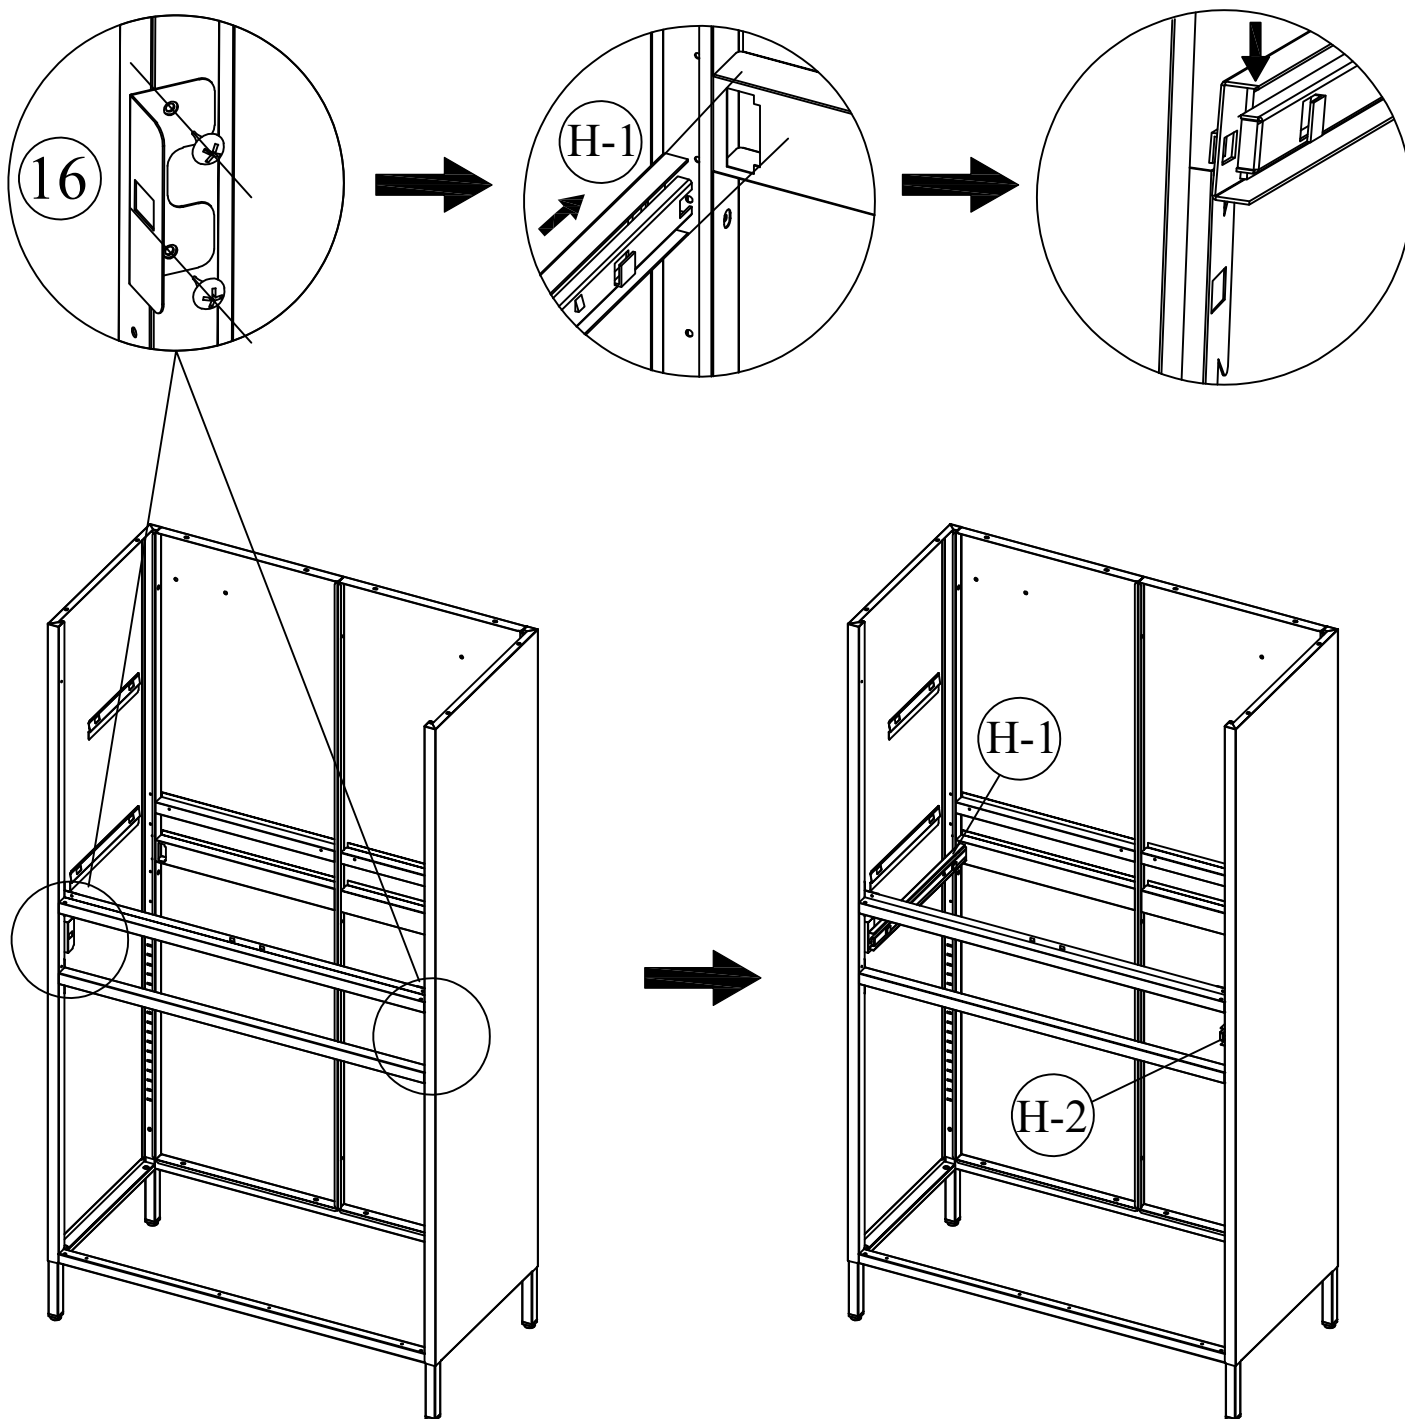

## Step 6

Install the guide rail brackets 16 on both side panels with screws A, then install the guide rails H

Attention: the direction!

Insert the back of rail to the hole of the back panel, then align the front hook of another side (the slider can be pull out) to the rectangle hole of bracket 16, press down and insert into the hole.

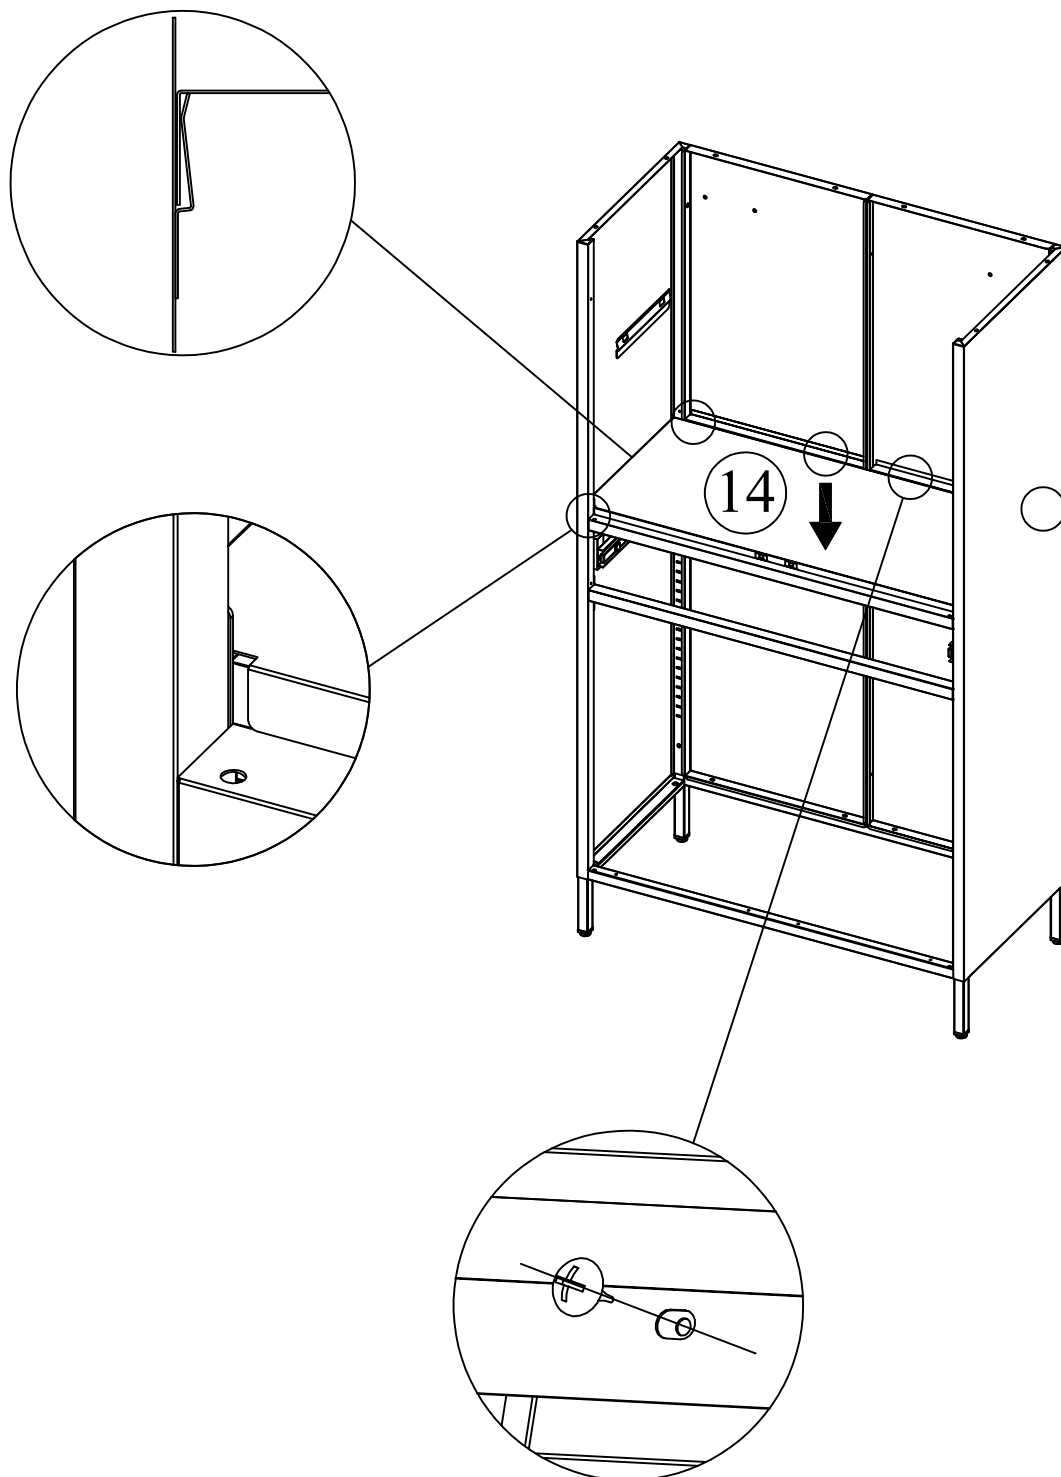

# Step 7

Install waist panel 14 and fix it with back panels by screws A

A

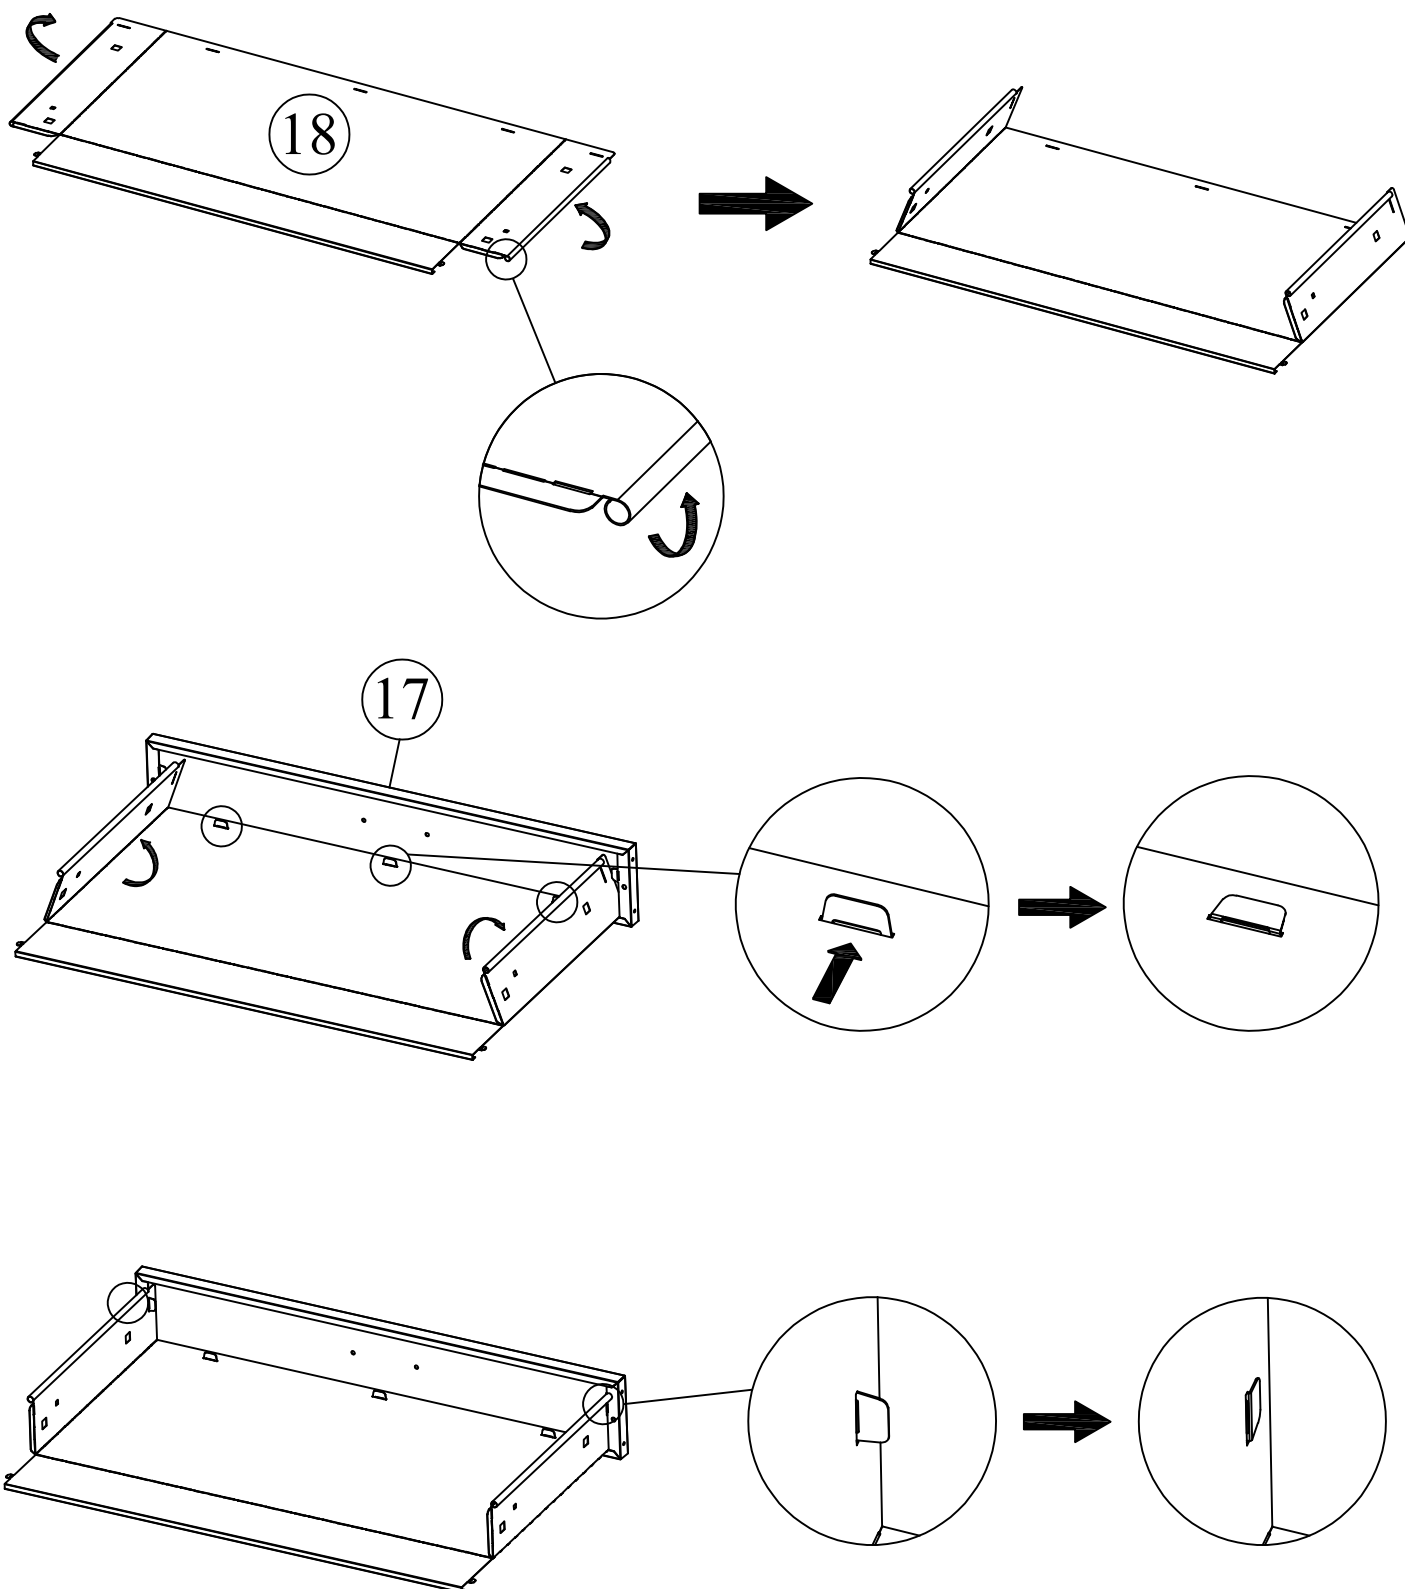

× 4

## Step 8

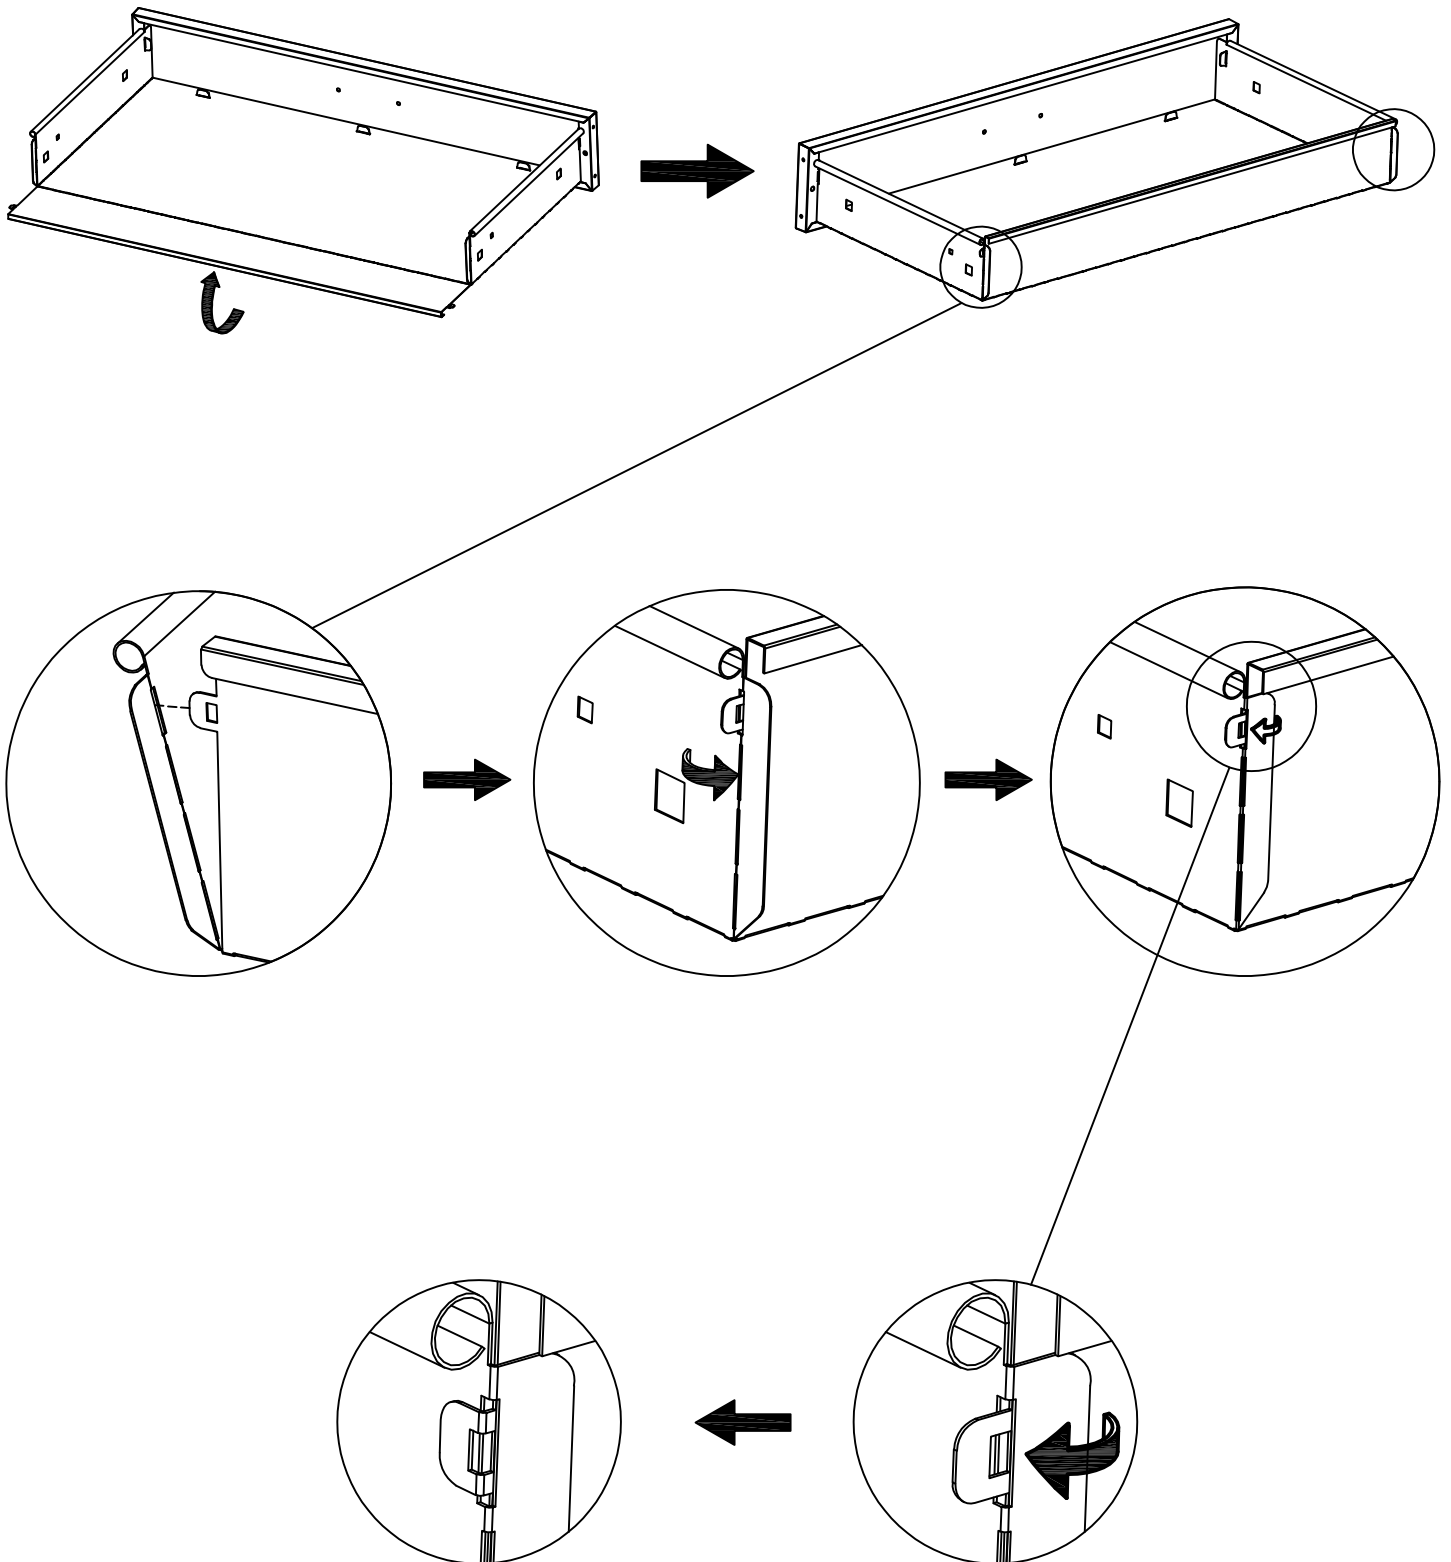

Fold drawer bucket 18

Insert the small parts on drawer bucket 18 into drawer front panel 17 and fold the small parts

## Step 9

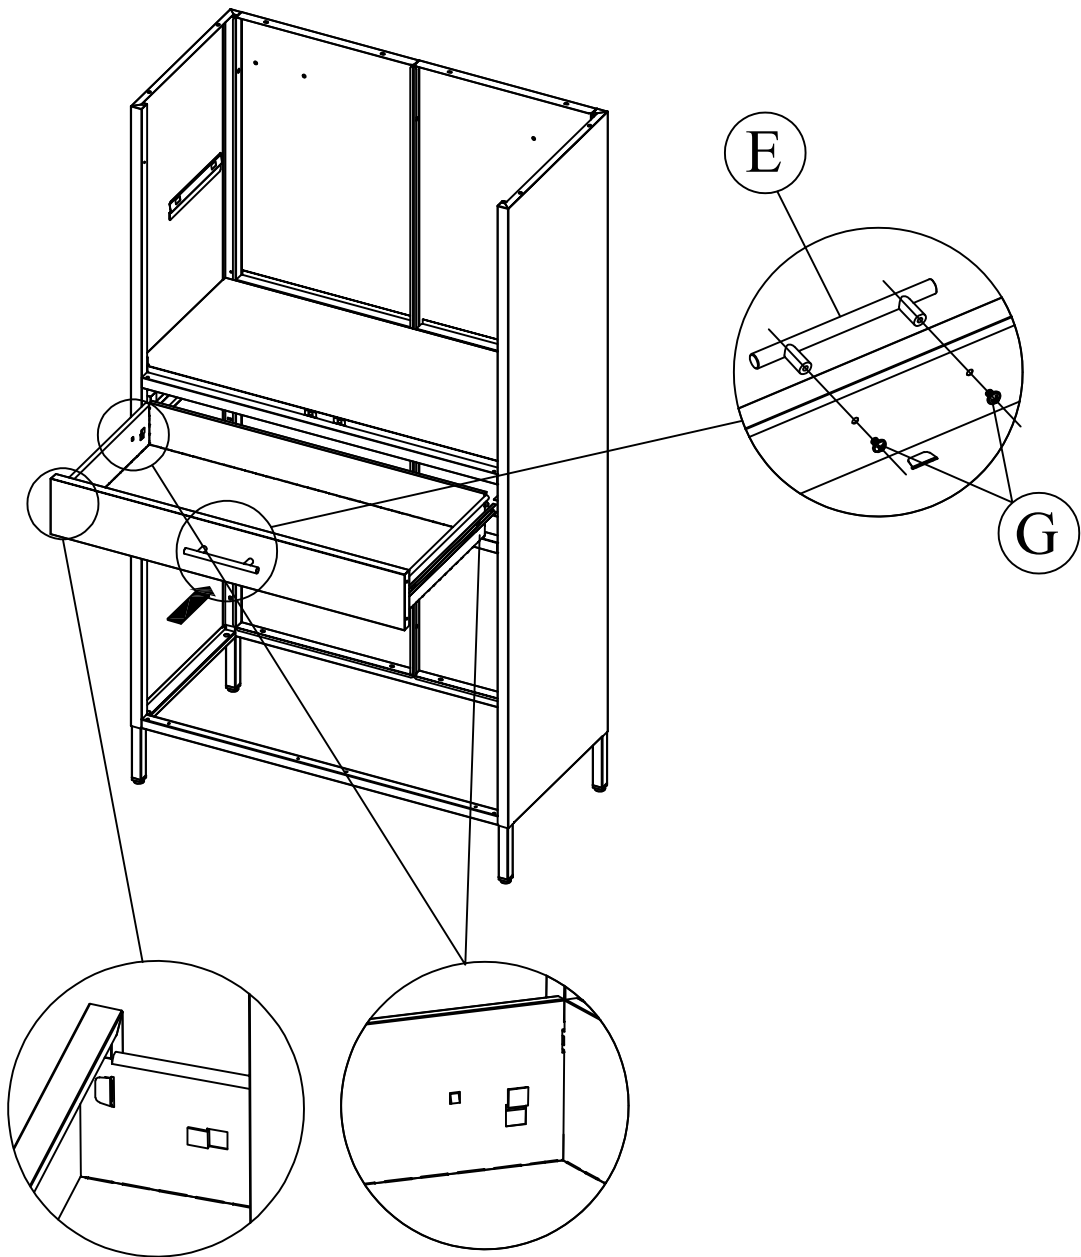

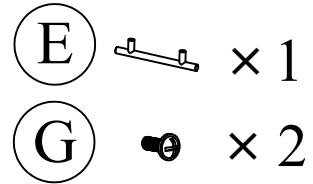

Insert the small parts on drawer back panel into the holes on both sides of drawer side panels and fold the small parts

# Step 10

Install the assembled drawer in the cabinet

Fix the doorknob E on the drawer with screws G

There are 2 ways to install the drawer.

Option 1: First, completely pull out the slide rails of the left and right side panels, and place the drawer above the inner side of the slide rails. Make sure that the hanging holes in the front on both sides of the drawer are aligned with the hooks of the slide rails, connect them first, then press down the end holes to make the hooks fully enter the hanging holes.

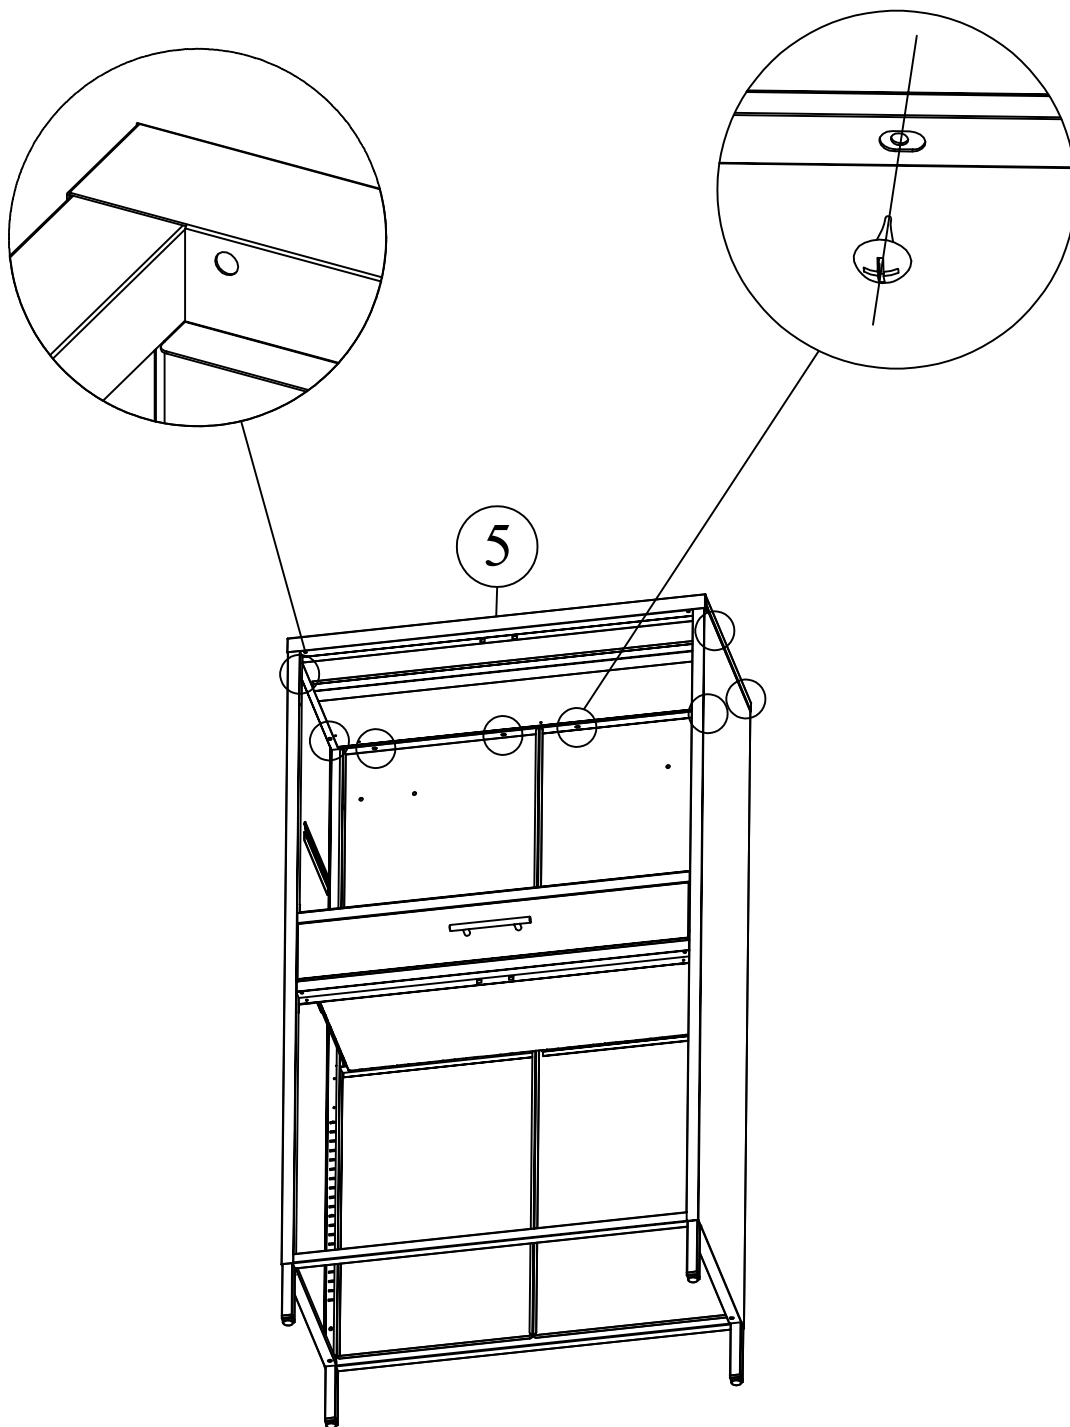

Option 2: Completely pull out the slide rail, find the small black part on the front rail, put it upward or downward to divide the rail to 2 parts. Attach the front part on the drawer side panel, so as the another side. Then align the rails on the side panels A and drawer sides and push it.

Pull out the drawer twice slowly and the lubricating oil inside the slide rails will come out and the drawer will work.

# Step 11

Connect top panel 5 with back panels and side panels by screws A

Ⓐ  × 8

## Step 12

Install the shelf clasps D and put the shelves 6 on them

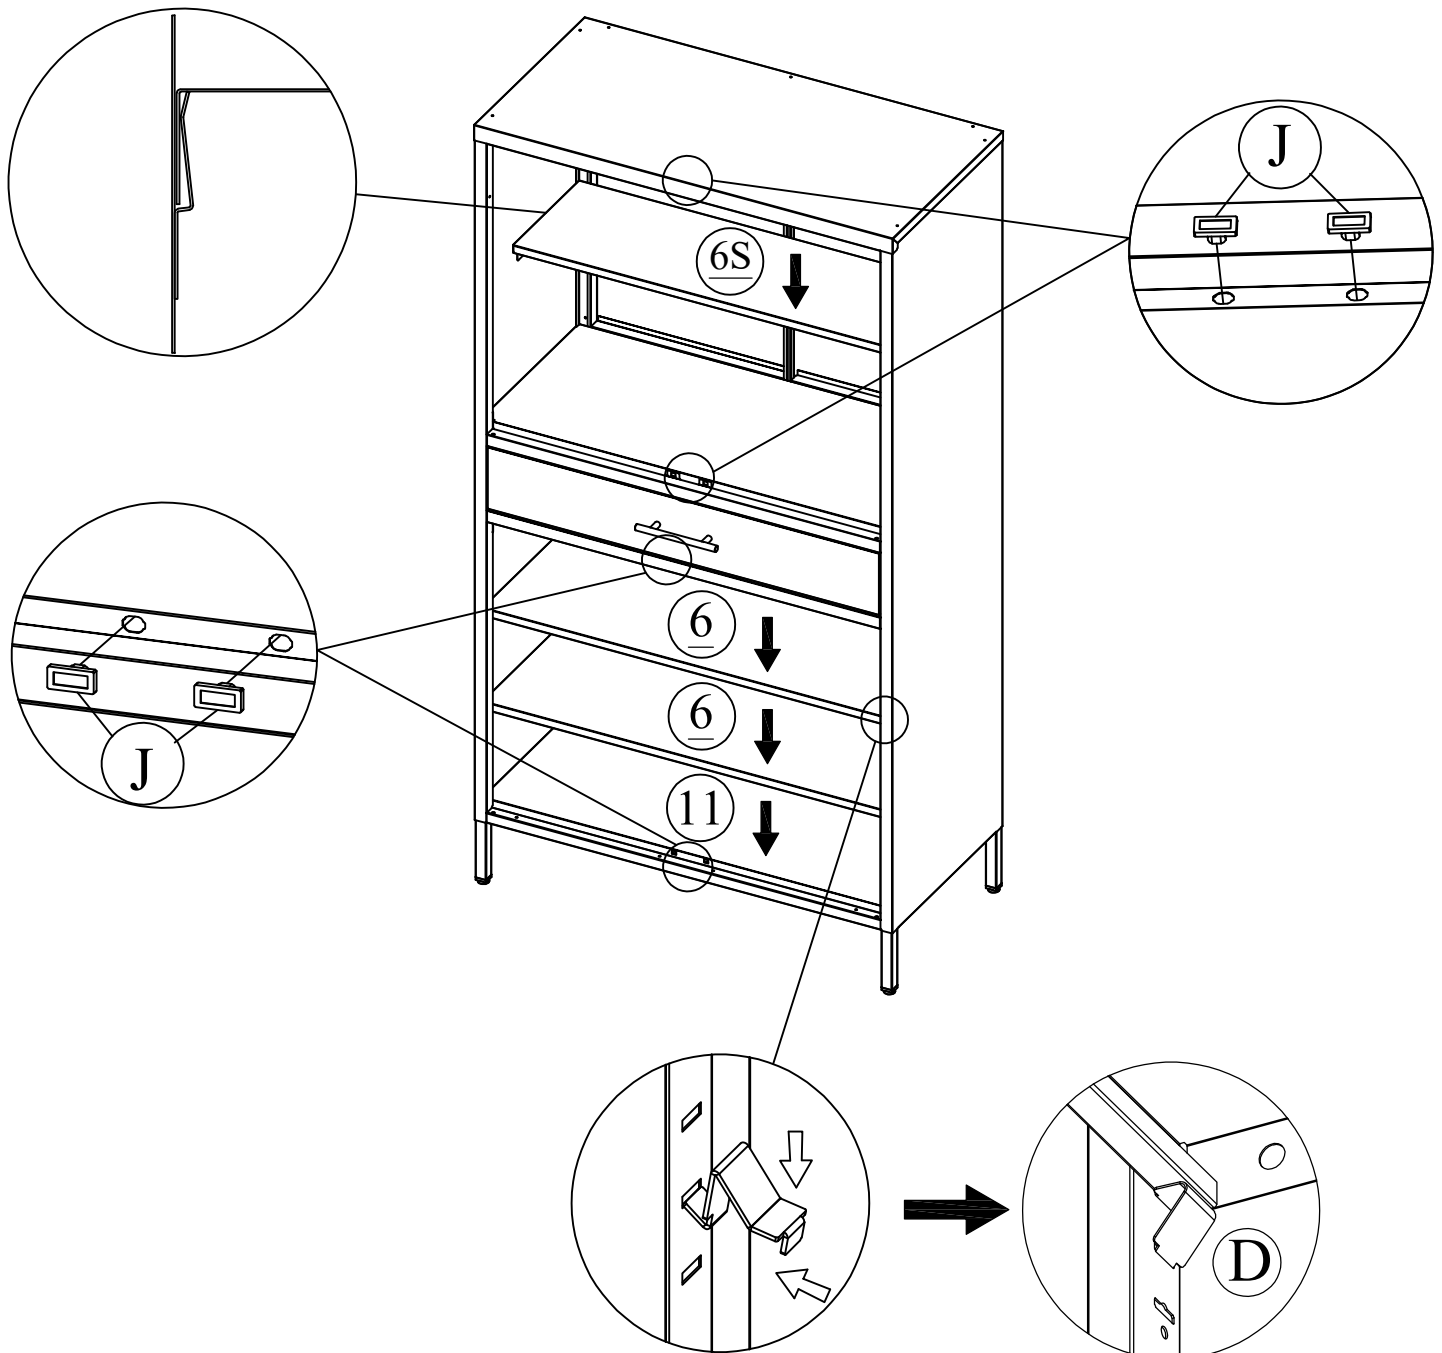

Tilt floor 11 into the cabinet and press it down to snugly fit against the kick plate (No screws are needed to fix the floor)

Install 8 magnets J on the cabinet as shown below

Insert the both side of small shelf 6s into the brackets on side panels to install it properly

(D)  × 8

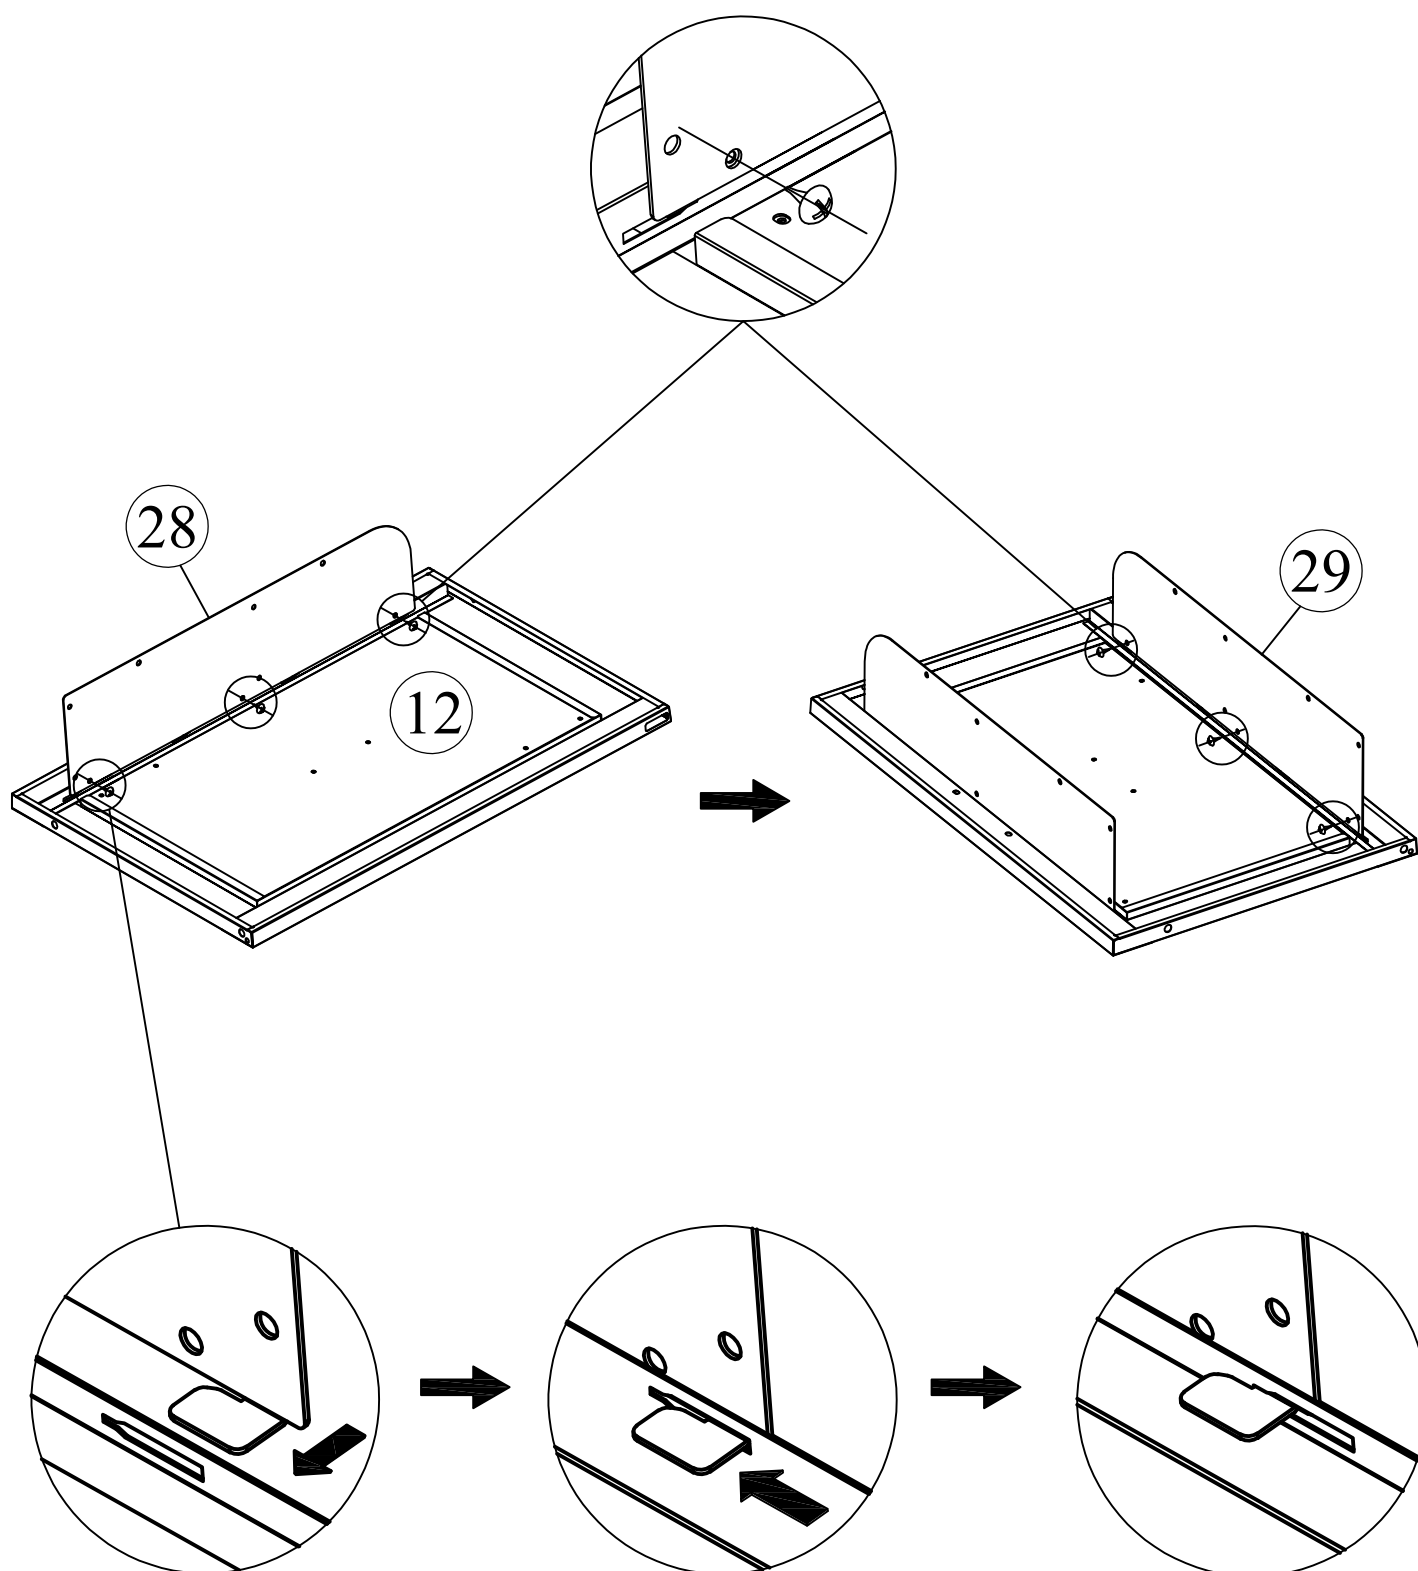

(J)  × 8

# Step 13

Fix the left flap 28 and right flap 29 on the top left steel door with screws A

Ⓐ  × 6

# Step 14

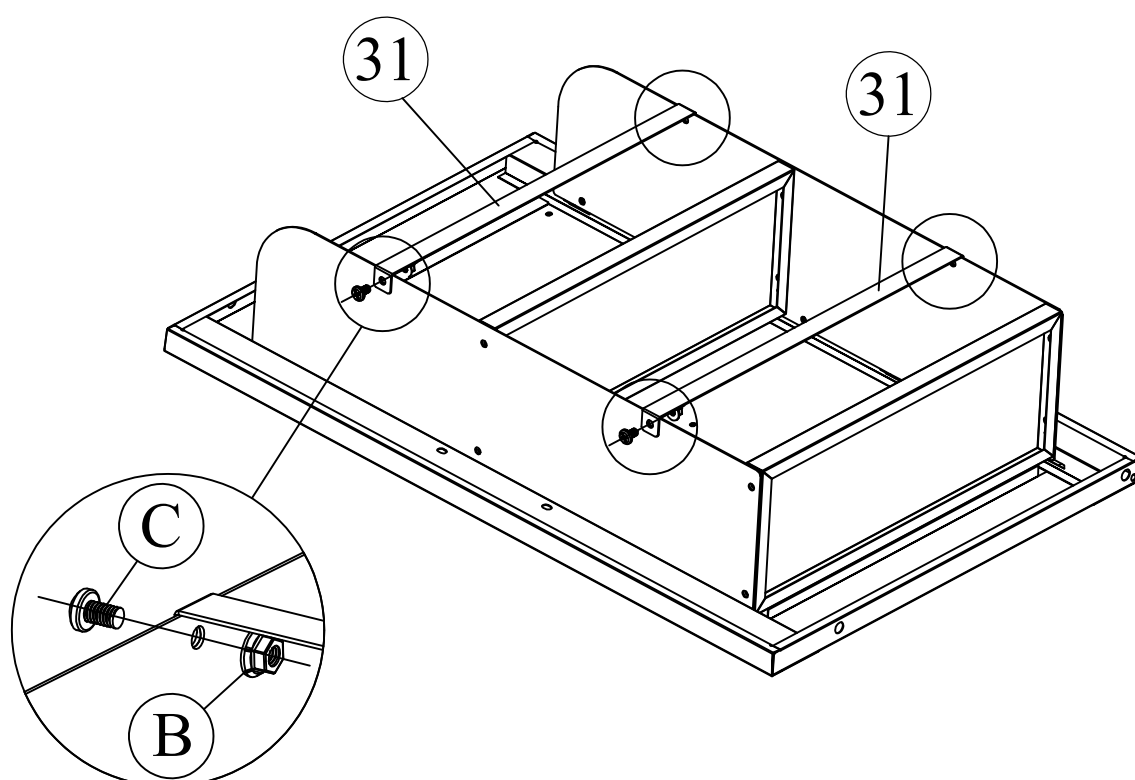

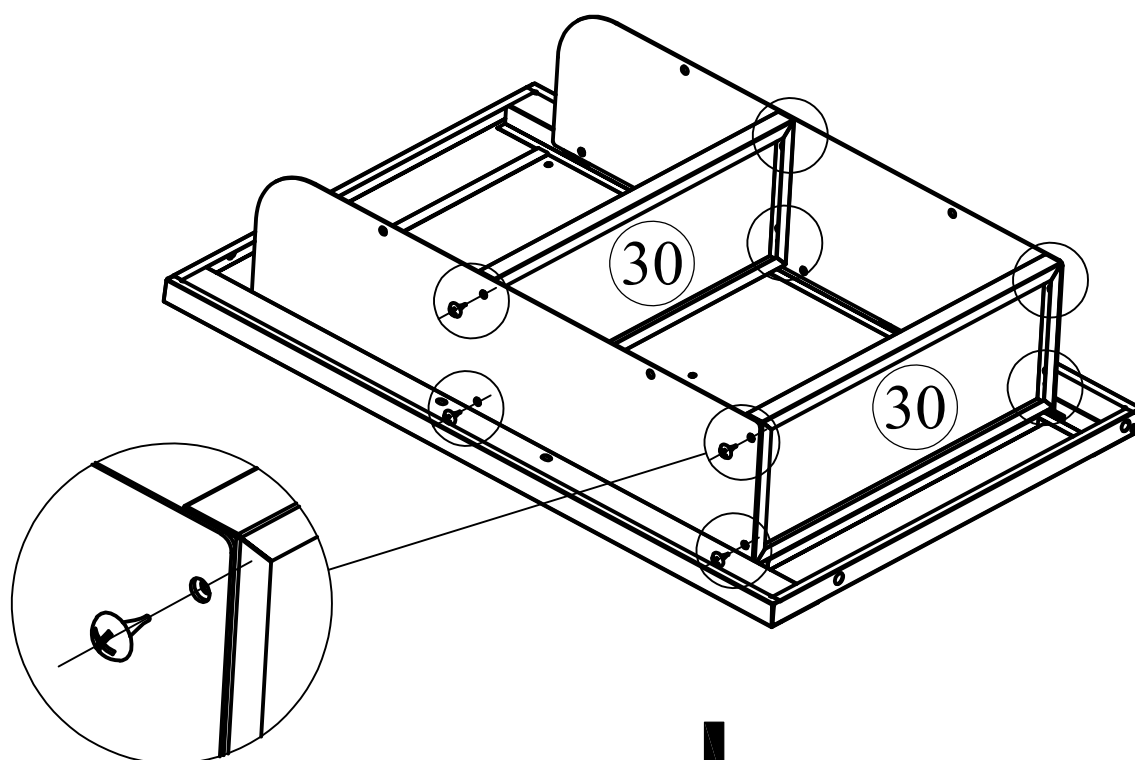

Fix 2 shallow shelves 30 on the top left steel door with screws A

(A)  × 8

Connect 2 narrow shelf baffles 31 with flaps by screws C and nuts B

(B)  × 4

(C)  × 4

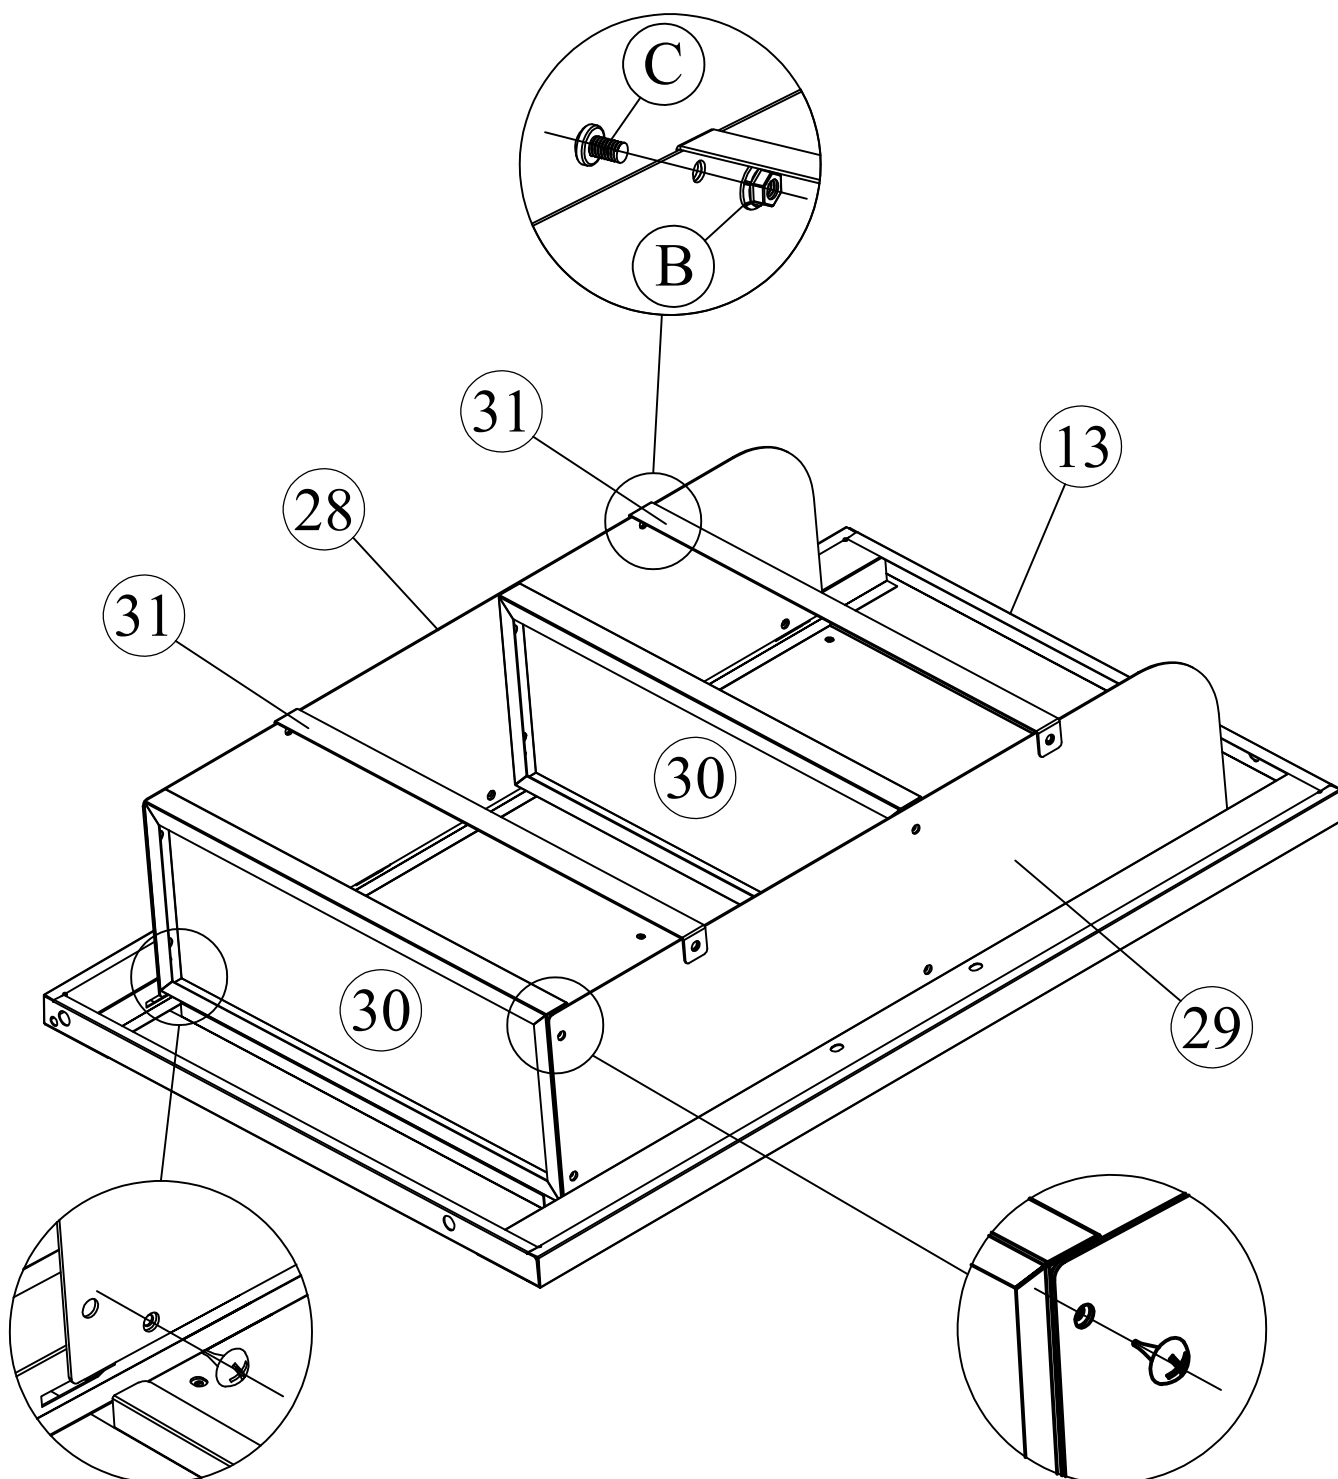

## Step 15

Install the necessary parts on the top right steel door with screws A following the previous steps

(A)  × 14

(B)  × 4

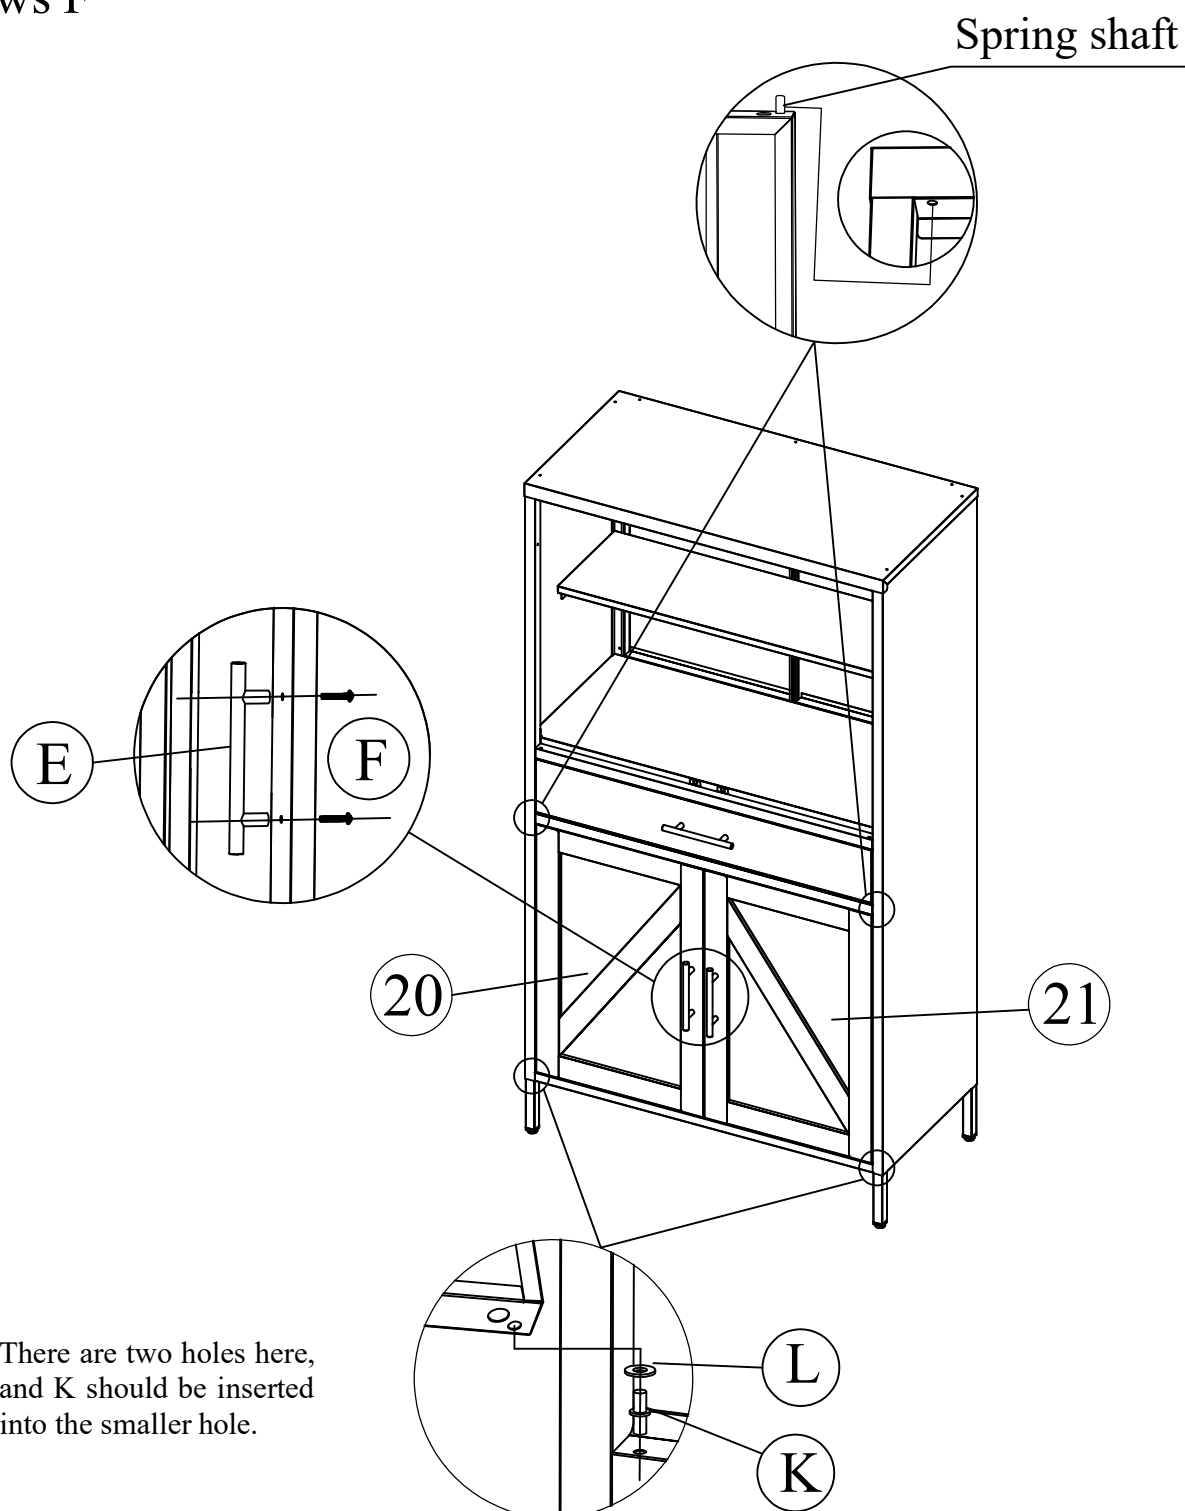

(C)  × 4

# Step 16

Insert the door pivots K into the holes of the both sides of the bottom corners(shims L can be used to adjust), then insert the doors into the door pivots on the bottom and adjust the spring shaft on the top  
Install 2 doorknobs E on the doors with screws F

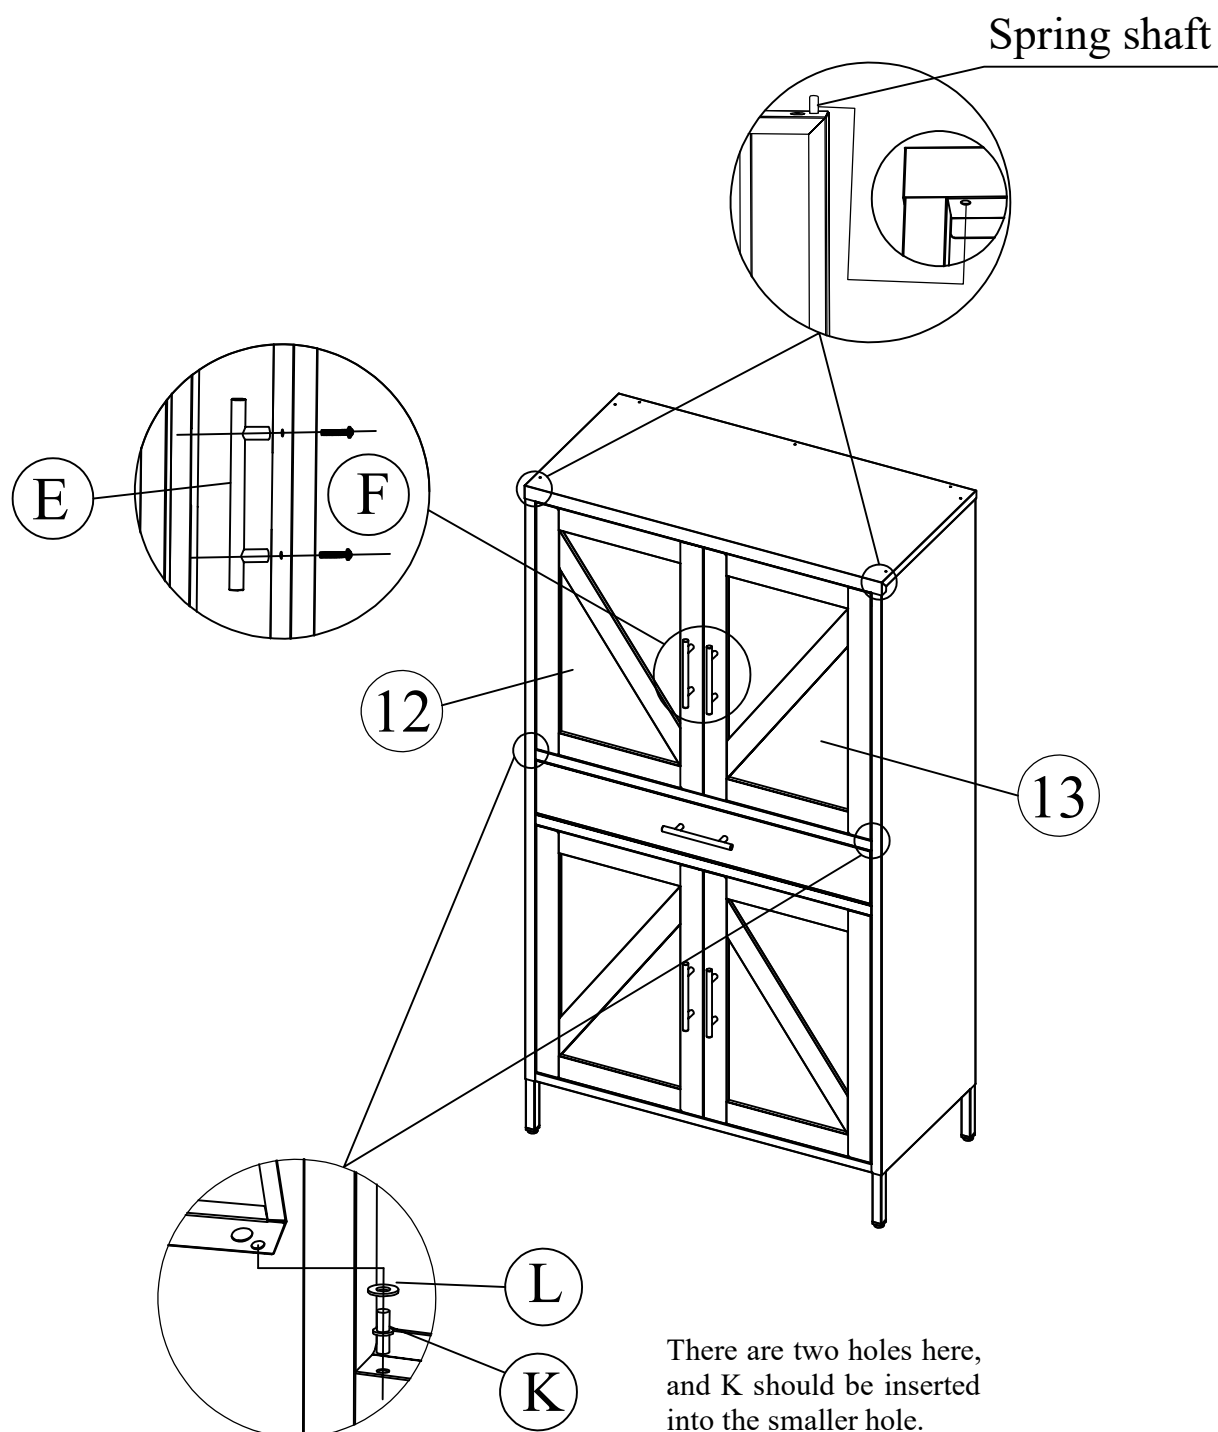

|     |                                                                                     |     |
|-----|-------------------------------------------------------------------------------------|-----|
| (K) |  | × 2 |
| (L) |  | × 4 |
| (F) |  | × 4 |
| (E) |  | × 2 |

# Step 17

Install doorknobs E and doors 12 and 13 following the previous steps

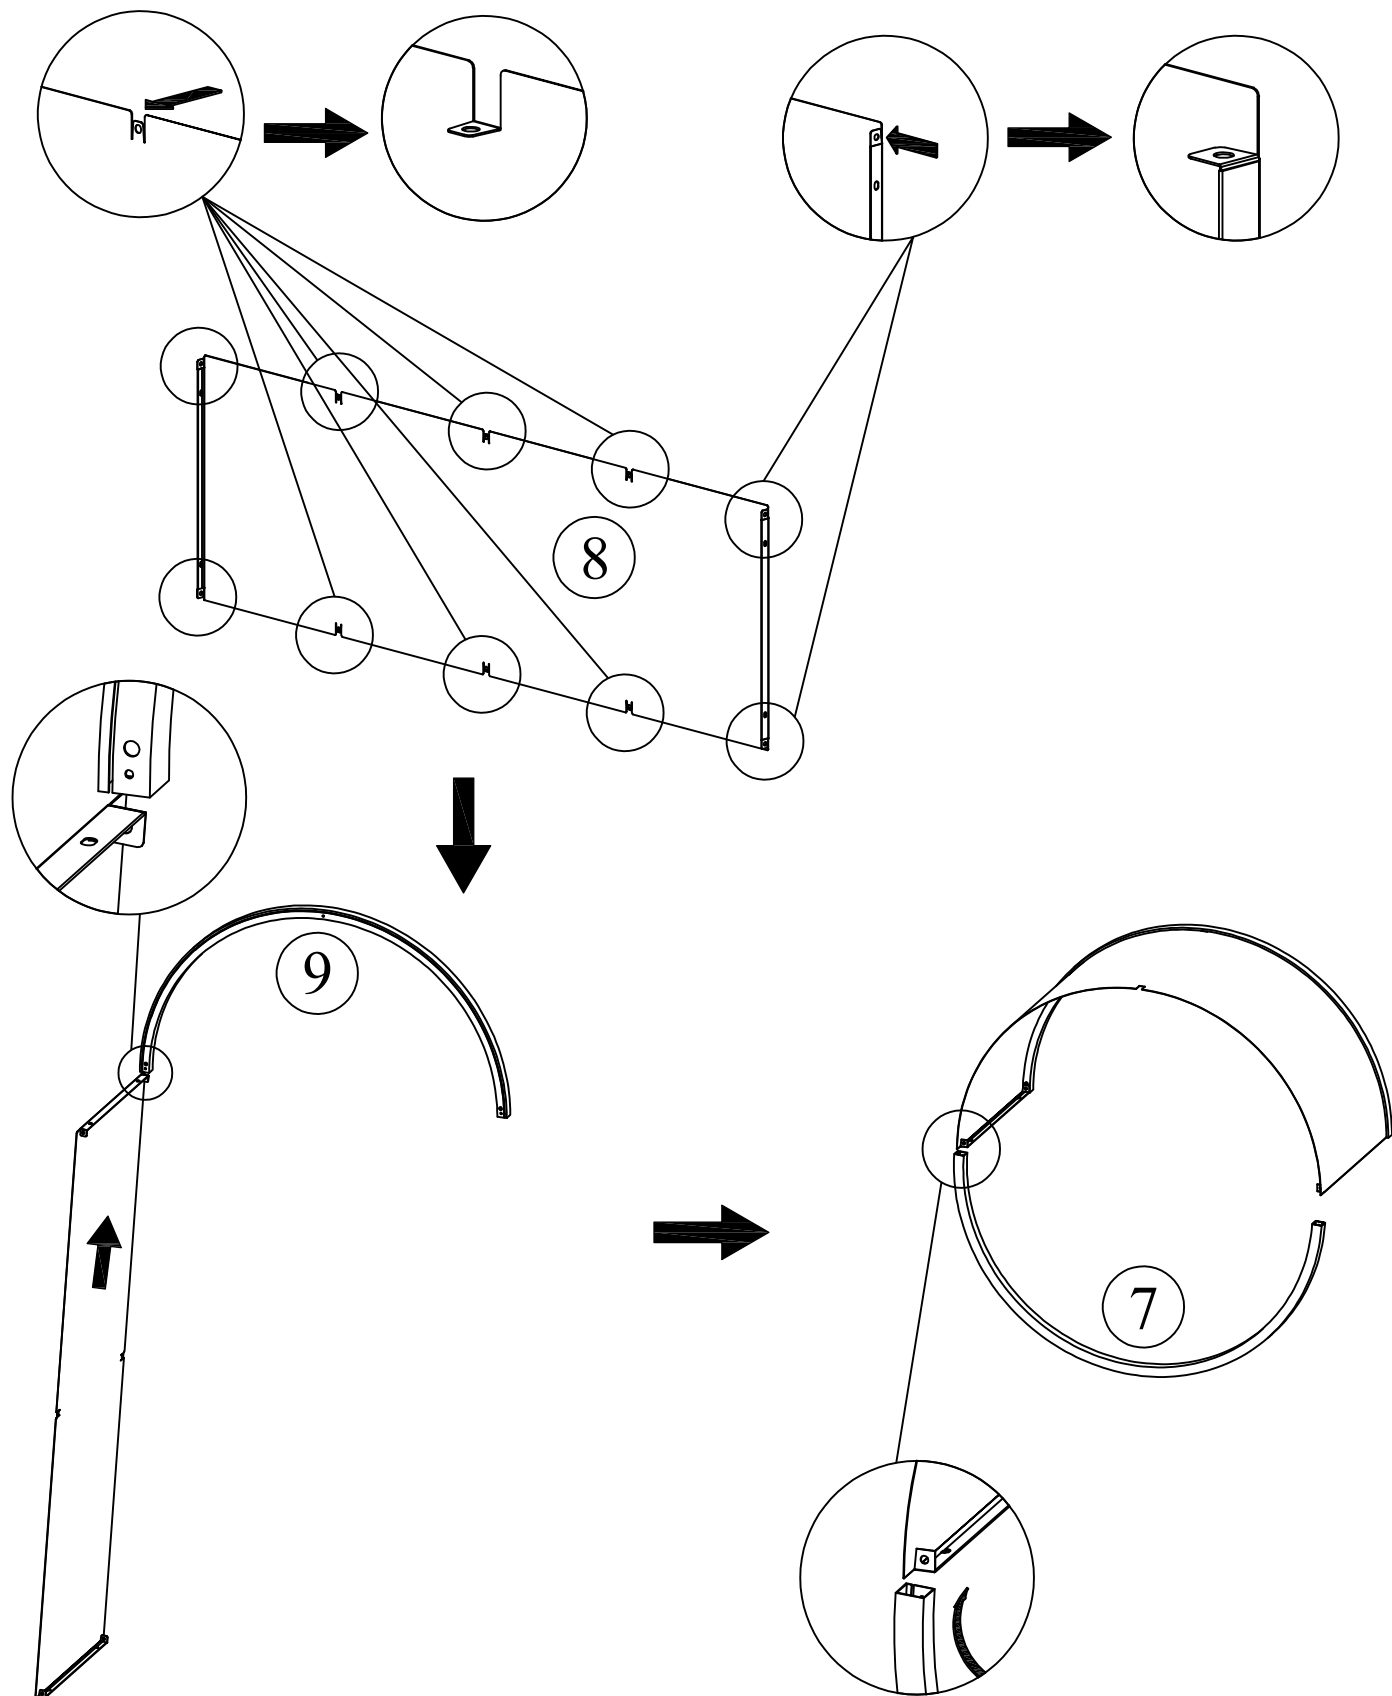

|     |                                                                                     |     |
|-----|-------------------------------------------------------------------------------------|-----|
| (K) |  | × 2 |
| (L) |  | × 4 |
| (F) |  | × 4 |
| (E) |  | × 2 |

## Step 18

Fold all the small parts on dome panel 8 towards the middle for 90 degree

Insert dome panel 8 into dome back tube 9 and dome front tube 7

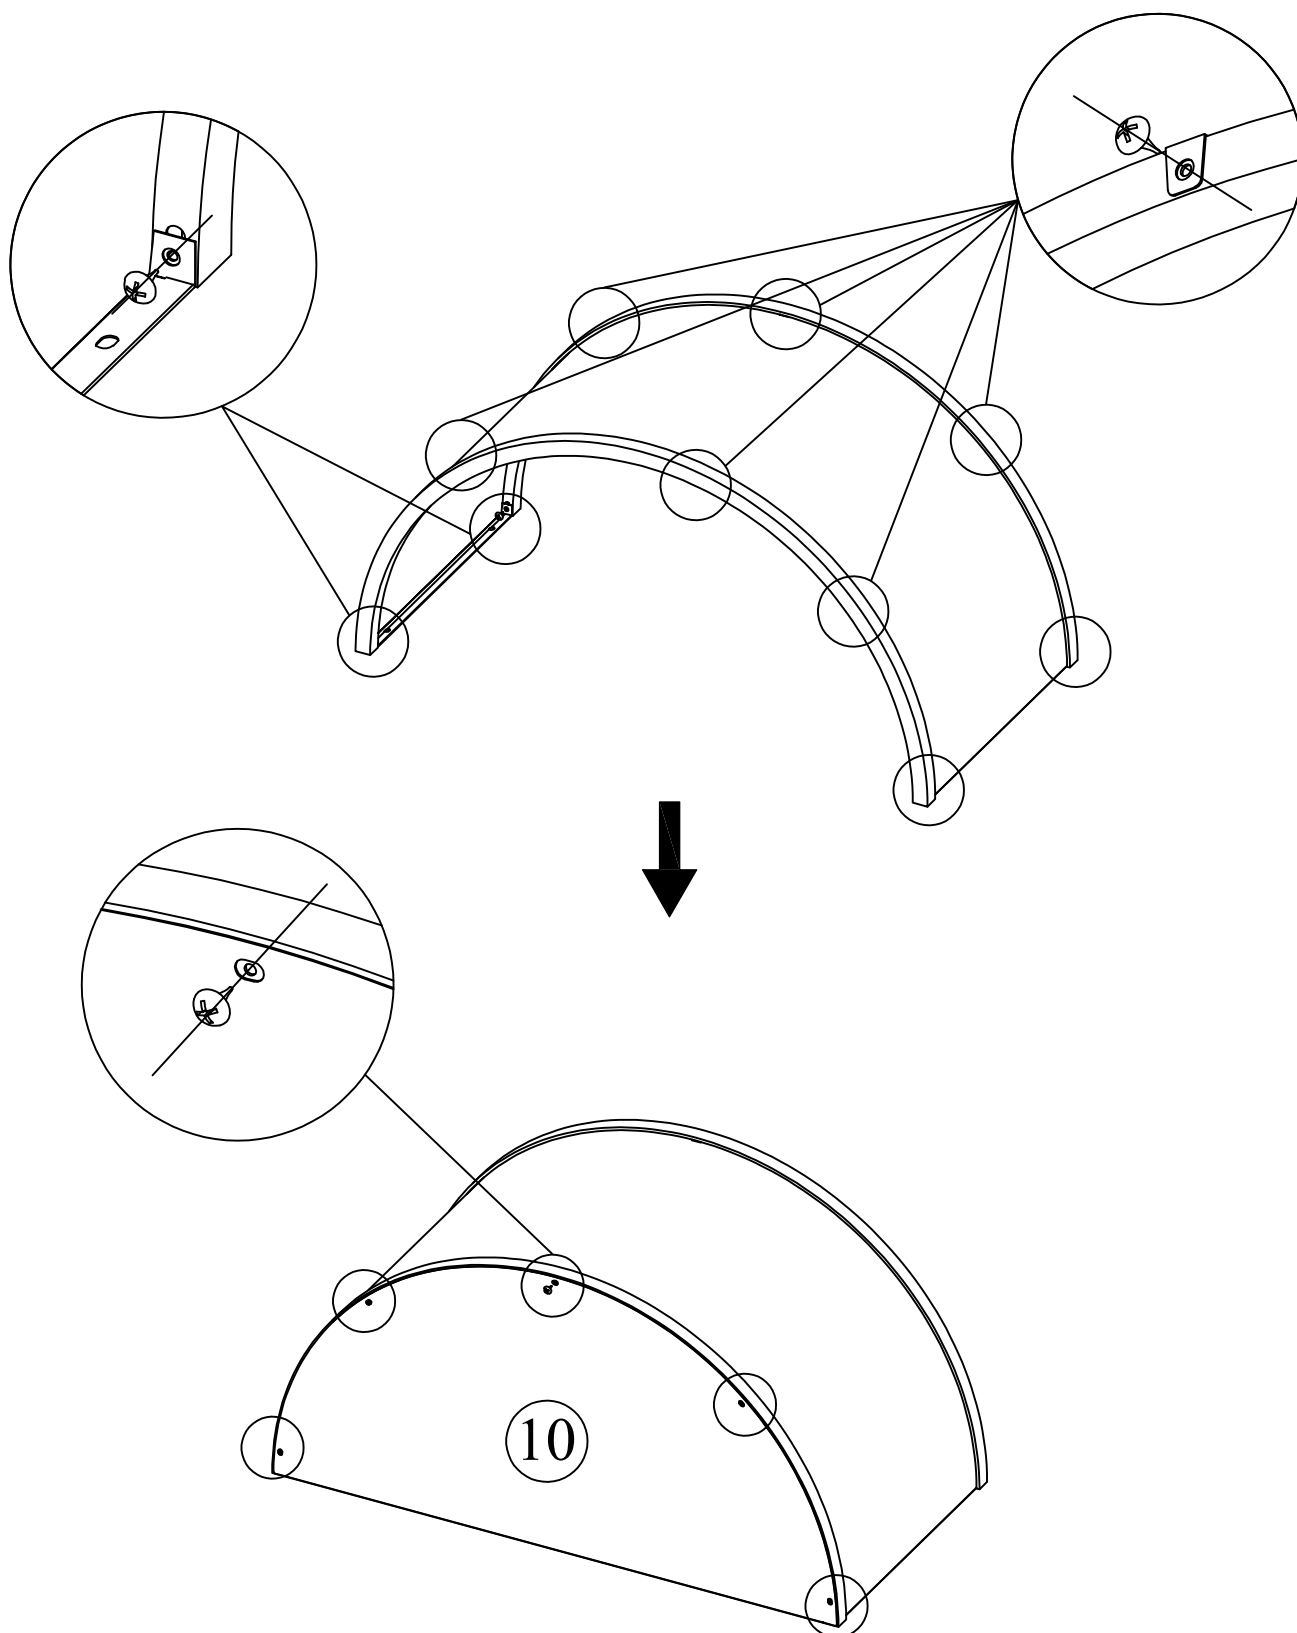

## Step 19

Fix the dome panels and tubes with 10 screws

A in the middle and ends

Fix the dome back panel 10 with 5 screws A

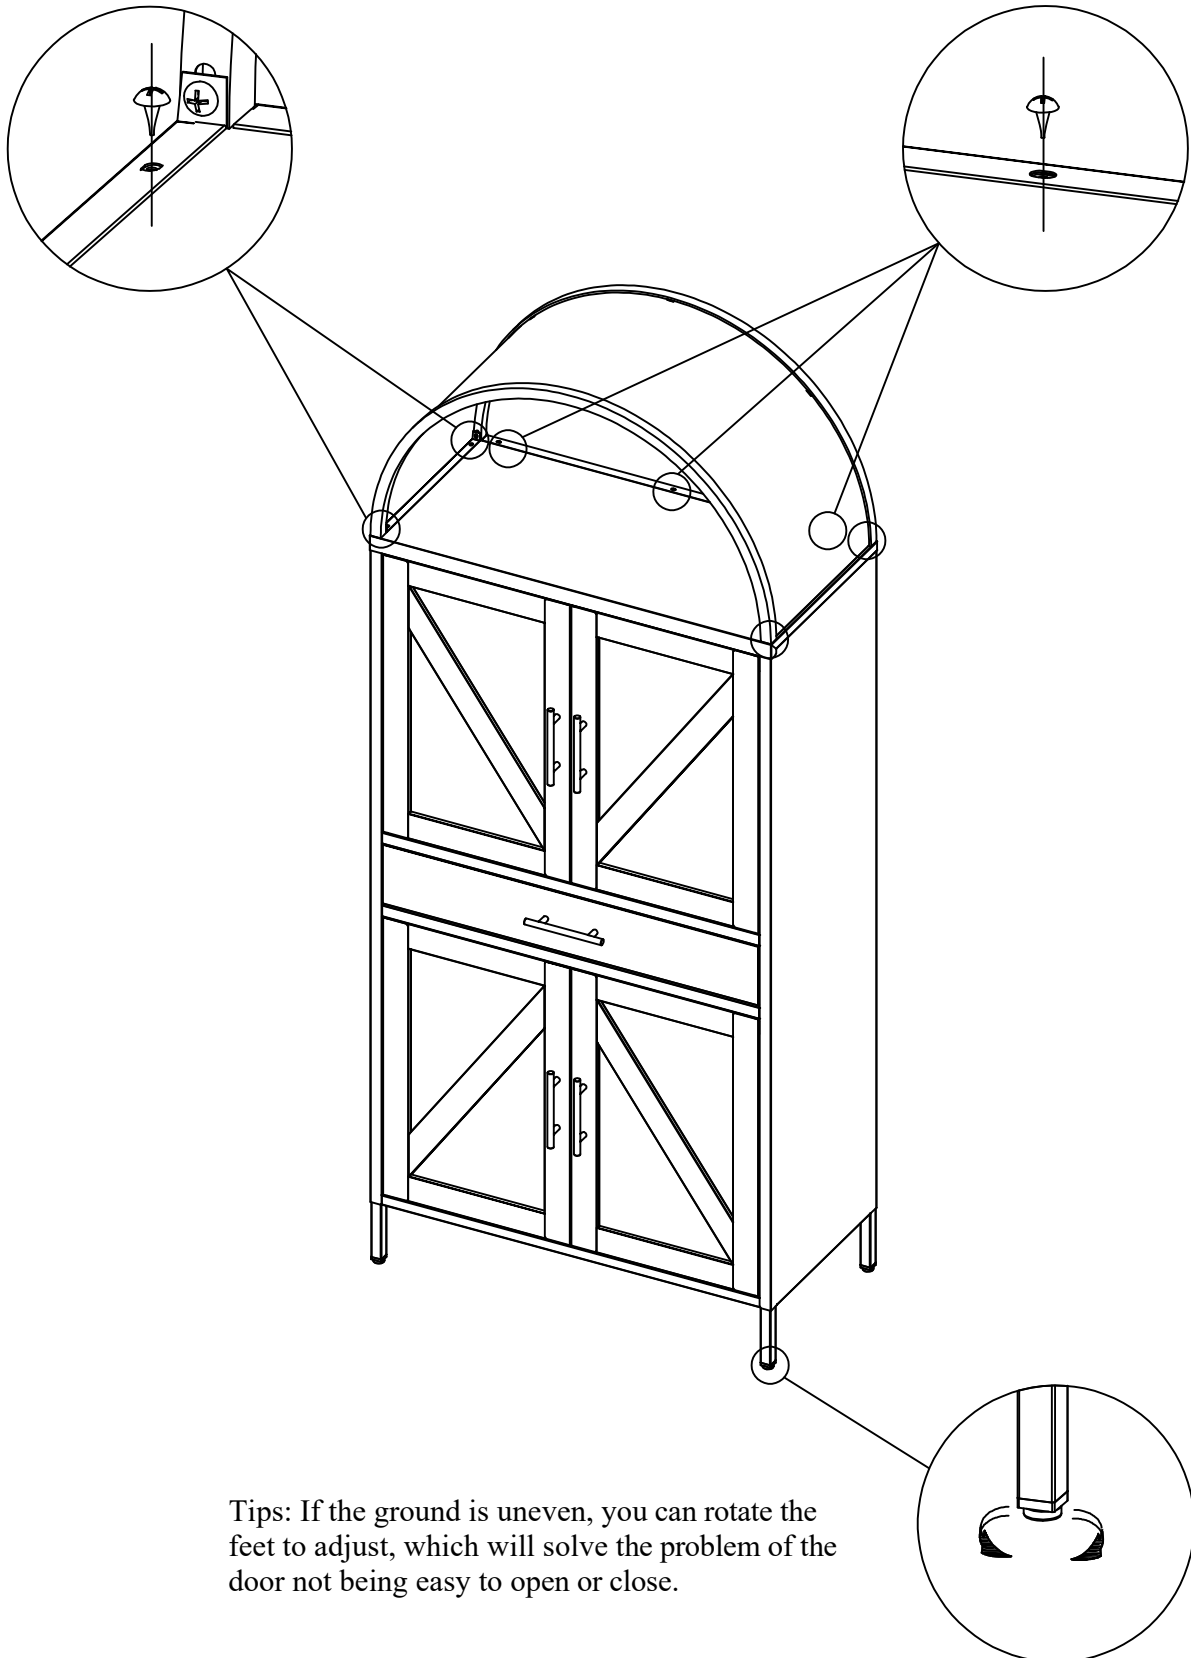

(A)  × 15

## Step 20

Fix the dome on the top of the cabinet with screws A, then adjust the feet of the cabinet as your needs

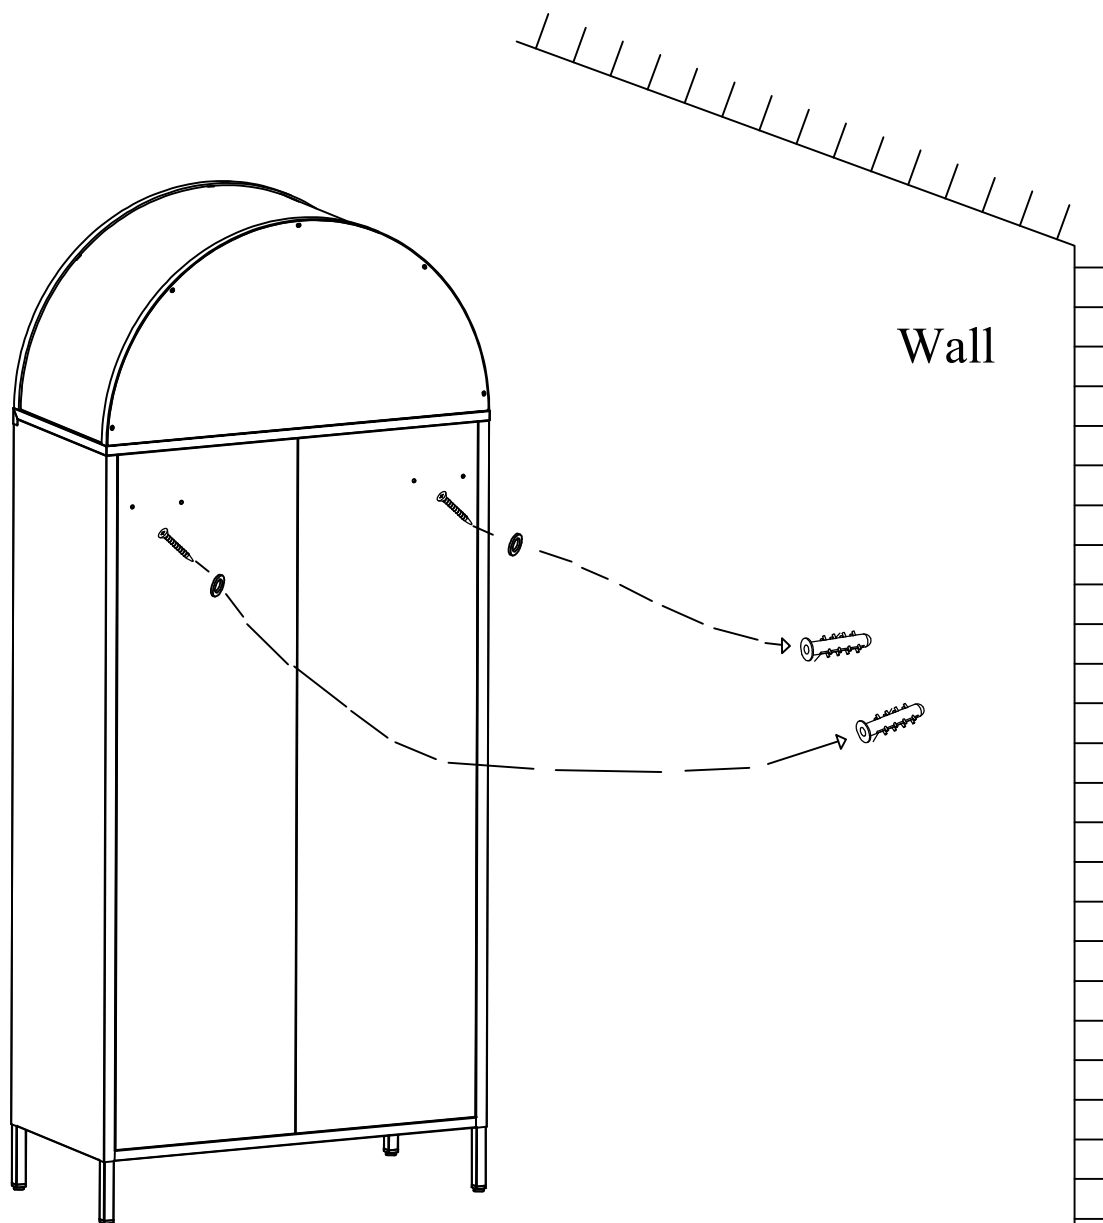

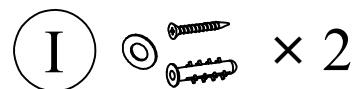

(A)  × 7

Tips: If the ground is uneven, you can rotate the feet to adjust, which will solve the problem of the door not being easy to open or close.

# Step 21

Fix the cabinet to the wall with screws  
I to prevent tipping

**Always secure this furniture with an anchor device.**

Unsecured furniture can cause serious injury or death to children.

Never allow children to stand, climb or hang on drawers, doors or shelves.

Never open more than one drawer or door at a time.

Place the heavy items on the lower position.

Never place a television on this furniture.
