

'Echoes' Bird Bath

The Echoes Bird Bath is one of our top selling designs. Made from frost-resistant glazed terracotta, it has a subtle green mottled colour. The Bird Bath features a ripple step design that is both visually attractive and functional by providing extra footing/grip for wild birds.

A quote by poet William Blake is imprinted around the rim.

***'To see a world in a grain of sand and heaven
in a wild flower, hold infinity in the palm of
your hand and eternity in an hour'***

The bird bath comes complete with 3 glazed mounting feet. Raising the Bath slightly above ground. This will help to prevent frost damage in the same way as your garden pots.

If you want to raise the Echoes Bird Bath higher off the ground you may separately purchase the matching Echoes Bird Bath Stand. A specially designed pedestal for this Bird Bath.
