

THEODORE ALEXANDER

Constant Shift 1

D1489S29779-2555

Constant Shift is an elegant piece that suggests the work of Cy Twombly in the mid-50s. In keeping with Twombly's work, this piece on canvas features scribbles, drawn objects, and thick dabs of bright white paint. These marks convey a sense of fluidity and abstract movement. The refined color scheme in pewter, faint lilac, and maize adds a sense of serenity to the work.

From light tones breaching a dark surface to glimpses of abstract shapes, a state of flux abounds in Constant Shift. An original addition to the exclusive ART by TA collection.
