Mount the reading light onto the reading light holder.

Step 81

As shown, When installing the drawer, pull the guide rail out first, Slide beads are also pulled out.

Step 82

If there is a large gap after installing the extendable shelf, you can adjust the gap by moving the slide rails up and down.

Step 83

As shown, When installing the drawer,
pull the guide rail out first, Slide beads are also pulled out.

Step 84

If a large gap is found after installing the drawer the slide rail can be moved up and down to adjust the gap

Step 85

As shown, When installing the drawer,
pull the guide rail out first, Slide beads are also pulled out.

Step 86

If a large gap is found after installing the drawer the slide rail can be moved up and down to adjust the gap

Step 87

Repeat the drawer installation steps

Step 88

M

x26

Step 89

Long wire: O interface

Short wire: Board 39 interface

Step 90

N

x2

Step 91

Install as required

3.5x14mm

Install the anti fall hardware on the cabinet as shown in the picture first

Then mark the wall with a pen through the holes in the anti-fall hardware

Step 92

Drill the hole with an electric drill and punch in the colloidal particles

4x45mm

Fix the dressing table to the wall

User's Guide

A27

Thank you for purchasing this product.

To use this product, please connect it to a power source.

Please use if the product works normally after connecting to power.

Introduction

The box is an intelligent controller. It has 1 USB output port 1 Type-c port and can distribute the current output up to 5V DC-2A. With 2 touch buttons, it can turn. ON/OFF the light, change light colors, and adjust the light luminance.

Operation

This touch button controls the on/off of the light
Short touch -> lighting on -> short touch -> lighting off.

This touch button controls the color switching and brightness adjustment of the light
1. It can only be used when the light is on
2. Offering 3 different colors to choose from. Simply tap to cycle through the options.
3. Long touch -> adjust the luminance.

ATTENTION PLEASE

1. If there is no touch response suddenly, Re-plug the power to reset the touch static electricity.
2. If you have any questions when installing, please feel free to contact us. Thank you.
