PURCHASE INFO

Power:

Turn on power to the hood by pressing the power button, on the left side of the control panel

Speeds:

There are 6 speeds on your hood. Press the plus or minus button(s) to increase or decrease the speed. The lowest speed is the quietest, and the highest speed is the most powerful. Section (A) of the display will indicate if the fan is on. Section (C) of the display will indicate your fan speed.

Automatic Fan Shutoff -

TO SET: First, hold down the minus(-) button for 3 seconds. The bottom set of numbers will flash. Press the (+) or (-) button(s) to adjust to your desired number of minutes. It is programmable up to 15 minutes

TO ACTIVATE: Hold down the power button for 3 seconds. The bottom set of numbers will begin to countdown based on the number of minutes set above. Section (B) of the display will show a timer icon, indicating that the fan will turn off after the specified number of minutes.

Lights:

Lights can be turned on by pressing the light button on the right side of the control panel.
