

Mounted Umbrella Holder Instructions

1. Unlatch stabilizer bar (see image 2)
2. Place Umbrella Holder over deck railing so the lower portion of the Umbrella Holder can rest on the decks spindles.

3. Secure the stabilizer bar over the bolt and tighten as necessary. **DO NOT OVER-TIGHTEN.** Over-tightening may damage the Umbrella Holder, your deck spindle or both.

4. Loosen the clamp handles before inserting the umbrella. Umbrella slides through both clamps.
5. Select the desired height of umbrella and tighten the handles. **DO NOT OVER-TIGHTEN.** Over-tightening may damage the Umbrella Holder, your umbrella or both.
6. Make sure the cranking handle for the umbrella is high enough above deck railing to operate without causing injury.

Do not leave you umbrella attached to the Umbrella Holder during inclement weather for extended periods of time. Doing so may cause damage to the Umbrella Holder, your umbrella and your deck.
