Step 1: 3 bases are placed side by side, and 2 protruding cylinders on one side of base are correspondingly inserted into the corresponding notches on the sliding rail on base.

Step 2: Insert the recliner backrests into the seat bases slide rail, make sure to align and push the top part in until you hear "click".

Step 3: Insert the 2 ear backrests slides into the slides on each of the 2 sides of the backrests and push down on the ear backrests slightly to ensure full insertion.
