

ASSEMBLY AND INSTALLATION INSTRUCTIONS

WARNING: TO AVOID RISK OF ELECTRICAL SHOCK, BE SURE TO SHUT OFF POWER BEFORE INSTALLING OR SERVICING THIS FIXTURE.

Before You Begin:

- Ensure power is turned off at the circuit breaker before installation.
- Read all instructions carefully.
- Installation should be performed by a qualified electrician if you are unfamiliar with wiring.

Step-by-Step Installation:

1. Screw the connecting rod onto the threaded component on the fixture.
 2. Screw the connecting rod to the swivel connector.
 3. Insert the two screws from the metal ring into the bottom holes of the curved metal frame, and then secure with lock nuts.
 4. Place the glass panel onto the metal ring. Insert the threaded tubes of the curved frame into the metal box of the fixture. Align the studs on the metal ring with the holes in the curved frame, and secure with lock nuts.
 5. Slide a washer onto the threaded tube of the curved frame, and tighten the nut with a wrench.
 6. Attach the two iron sheets to the metal box of the fixture, and screw the suspension ring onto it.
 7. Loosen the adjustable clasp to set the desired length of the suspension chain and wires.
 8. Secure the mounting plate to the U.S.-standard junction box using provided screws.
 9. Wire Connections
 - Use wire connectors to connect the black (hot) wire to the black wire, the white (neutral) wire to the white wire, and the ground wire to the grounding terminal.
 - Ensure no exposed conductors remain outside wire connectors or outside the junction box.
 10. Secure the canopy to the mounting plate using the threaded metal ring.
 11. Slide the socket sleeve over the socket, and then install the bulbs. (Bulbs Not Included)
12. Restore power, and check if the bulbs work properly.
Installation Complete.

Safety Instructions:

To avoid fire, shock, and serious personal injury, follow all instructions carefully.

1. Do not install or use the light fixture if any part is missing or damaged.
2. To avoid possible electrical shock be sure electricity is turned off at the main fuse or circuit breaker box before wiring.
3. Make certain no bare wires are exposed outside the wire connectors.
4. All wiring must conform to national and local electrical codes.
5. Follow the recommended instructions for the proper method of wiring your new light fixture. If you feel you do not have enough electrical wiring knowledge or experience, have your light fixture installed by a licensed electrician. Any electrical work not described in this manual should be performed by a licensed electrician.
