

1 Take out the mirror and the accessories

Adapter *1

Phillips screwdriver *1

Base *2

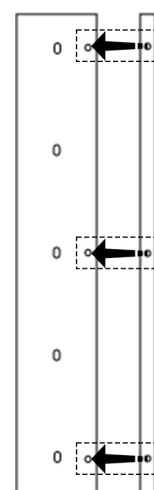

Screw *12

Expansion tube *2

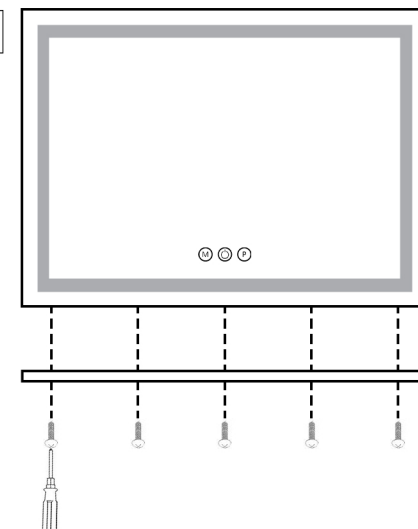

2 Adjust the base and lock it with screws

1

Please align the 6 small holes inside the dotted line and fasten them with screws

2

Align the base with the hole in the bottom of the mirror body and secure with screws.

3 Wall mounting instructions

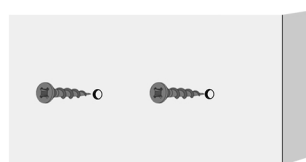

Step1

Measure and mark the desired location on the wall where you want to hang the mirror. Ensure that it is level and at the right height for your preference. Make sure the wall is strong and firm enough to hold the mirror.

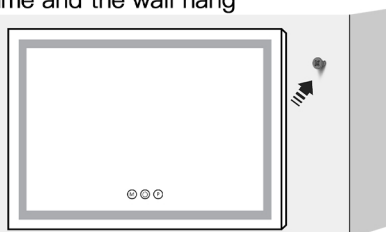

Step2

Attach the two long screws to the wall. Make sure it is securely fastened to the wall studs or use appropriate wall anchors for added stability. Use a level to make sure it is level.

Step3

Slide the mirror downward, allowing the frame and the wall hang

4 Click the button to switch the color, long press the button to adjust the brightness

Press and Hold to Adjust the Brightness.

Turn On/Off.

Change Lighting Mode.
