

Installation Guide

A. Unscrew the decorative nut (18), connect the lamp arms (15) and lamp supporting (14) using nut washers (16). (NOTE: The socket should be upward.) Slide the flat cap (17) in position and secure it with decorative nut (18).

B. Thread main wire (5) and ground wire (7) through short tube (13), long tube (12), chain connector collar (11), chain (10) and canopy (8), then tighten them on chain connector collar (11) and lamp supporting (14) respectively.

C. Attach the mounting bracket (1) to the junction box using two screws (3).

D. Inside the junction box, connect the wires using wire connectors (4) as follow:

BLACK wire to home LIVE wire.

WHITE wire to home NEUTRAL wire.

NOTE: The bare wire can NOT be exposed to prevent leakage.

Fix the ground wire (7) and external ground wire to the mounting bracket (1) using green screws (6).

E. Attach the mounting bracket bolts (2) in position to the two holes of ceiling plate (8), then tighten the nuts (9) to secure the light fixture, then tighten the bulb (21) (NOT included) on the socket (22) according to the mark on the picture.

F. Tighten the glass shade (23) on the metal frame (20) with bolts (24). Connect one end of the hanging rod (19) with loop of metal frame (20) and the other end with the loop of chain connector collar (11).
