

ASSEMBLY TIPS :

1. Remove hardware from box and sort by size.
2. Please check to see that all hardware and parts are present prior to start of assembly.
3. Please follow attached instructions in the same sequence as numbered to assure fast & easy assembly.

▲ Warning !

1. Do not attempt to repair or modify parts that are broken or defectives. Please contact the store immediately.
2. This product is for home use only and not intended for commercial establishments.

Step 1

- 1) Rest the back frame on the arms of the chair. This will give you a good view of the male and female KD brackets.
- 2) Insert male KD bracket into female KD bracket on one side to a depth of 5-10mm.
- 3) While keeping the back leaning forward locate the other side to a depth of 5-10mm.
- 4) As you straighten the back to a vertical position allow the back to drop down evenly on both sides.

* The female KD bracket is bolted to the back frame and is black in colour.

Step 2

- 1) The back should be resting evenly on the KD brackets.
- 2) Push on the top of the back frame to lock into position.
- 3) It may be necessary to hit the top of the back frame directly in line with the support rails with an open hand to securely lock the back into position.
- 4) When back is secured you should be able to lift the chair by the back frame. (be careful)

Step 3

- 1) Secure the outside back cover to the base of the Recliner along the Velcro tabs.

Step 4

- 1) The connecting system comprises a metal bracket fitted on the bottom of the left-side component, which must fit inside the support mounted on the right-side component.

Step 5

- 1) Rotate the connecting lever towards the outside of the component (3). Align the pieces (4), taking care to insert the levers inside the connecting elements of the right-side component and position these components together until they are firmly connected.

Step 6 (Disassembly)

- 1) Lift (5) and separate the left-side component until it is completely free (6)

RECLINING INSTRUCTION

Do not recline by pushing the arm-rest with your hands.

Sit backward to release the trigger. Use the strength of the shoulders to recline.
