

# Steam Punk Electric Pendant Clear Glass Shade

## Before You Begin .....

- Unpack all components onto a flat surface that will not damage them or allow them to become dirty
- Take extra care when handling glass
- Check that all components are correct and present
- Familiarise yourself with the product, its component parts and how it is assembled.
- Keep all packaging until after a successful installation and retain the instructions for future reference

## Suggested tools required for installation process as follows:

- Screwdriver - with insulated handle.
- Pliers - for twisting wire and cutting cable
- Drill – choose appropriate drill bits for your chosen location and mounting surface
- Wire strippers

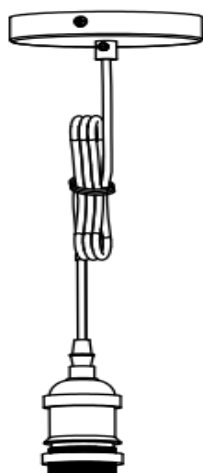

### WARNING:

Before proceeding, make sure the ceiling light is switched OFF and the electricity is switched OFF at the mains supply board

## COMPONENT PARTS AND FITTINGS

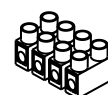

Light Fitting  
(Pre-wired)

Glass Shade  
(For illustration purpose only)

Decorative Ring

Terminal Block x 1  
(Fitted in ceiling plate)

Bracket & Screw & Plugs  
(Included in pack)

### SAFETY:

- Please choose screws and fixings that are suitable for the material that your ceiling is made of.
- This is a Class I product and requires an Earth connection 220-240V~ ;50Hz
- This fitting must be permanently wired into the electric system. Always shut off power to the circuit before starting installation work
- Do not modify or alter any product before or after installation. This will invalidate your warranty and may render the product un-safe
- Before inserting and replacing bulb(s) make sure that the power is switched off and the bulb(s) have cooled down
- All connections should be covered by suitable insulation tape
- The terminal block should be housed with in the mounting plate or a suitable recess behind the fitting.
- All wiring must conform to current I.E.E regulations
- This product must be installed in accordance with the national building regulations. If in doubt consult a competent electrician.

### POSITION:

- Do not mount the fitting in a damp atmosphere
- Be aware of any sunken pipes or wiring before choosing a location
- Ensure there is a sufficient power supply
- Ensure sufficient access to the fitting to enable safe maintenance

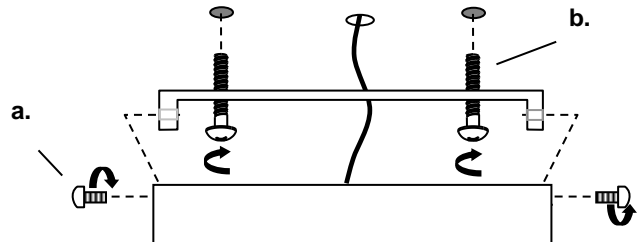

### ASSEMBLY AND SET-UP:

- Unscrew the two side screws to remove bracket from the ceiling plate (**Dia.1 a**)
- Drill suitable holes into the ceiling, ensuring that they align with the holes in the bracket. Screw the bracket onto the ceiling using suitable screws (**Dia. 1.b**).
- Connect the supply wires to the terminal block, opposite the corresponding wires from the fitting. (Ensure that connections are tight and no loose strands of wire are left out of the connector block (**DIA 2**). This image is for general guidance only and your supply wiring may be different. If at all unsure, stop and seek professional assistance.
- Ensure the electrical connections are covered with suitable insulation tape.
- **IF AT ALL UNSURE, STOP NOW AND SEEK PROFESSIONAL GUIDANCE**
- Fit the glass shade and decorative ring, secure with the shade ring and fit the bulb, do not exceed the wattage stated on the wattage label. (**DIA.3**)
- The cable length can be adjusted by loosening the grub screw and pulling the cable upwards (**DIA.5**)

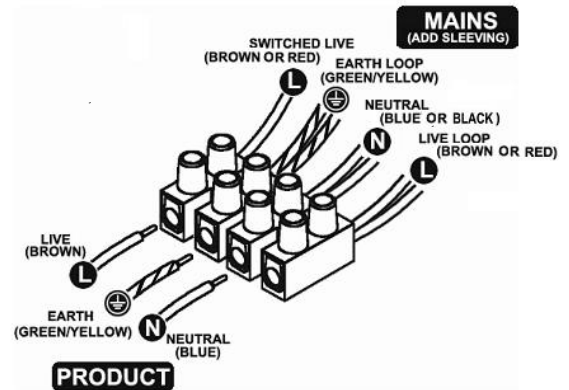

### CLEANING / AFTER CARE

- Only clean with a clean dry cloth, to prevent damage to the plated / painted finish.
