PORTRES

Dear Customer,

Thank you for purchasing our products. As a reliable seller, we are always striving to provide customers with 100% satisfactory products and services, so we hope that you can get the same feeling in this shopping experience. To serve you well is all our pursuit. If you find any damage or dissatisfaction after receiving the product, you are welcome to contact us at the first time.

And if you would like to register for a 1-year warranty extension, contact us within one month please.

If you are satisfied with our products and services, I hope you can leave us a comment at your convenience. I think your comment will be a reference for other users in the future, and other customers will be very grateful to you.

CAUTION

This portable lamp has a polarized plug (one blade is wider than the other) as a safety feature to reduce the risk of electric shock. This plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Never use with an extension cord unless plug can be fully inserted. Do not alter the plug.

WARRANTY

All lamps promised 1 years warranty. No matter what kind of problem you might meet, you are free to contact us and get our support.

Shade Assembly Instructions

a:panel	b:Ring	c:Ring
1PC	1PC	1PC

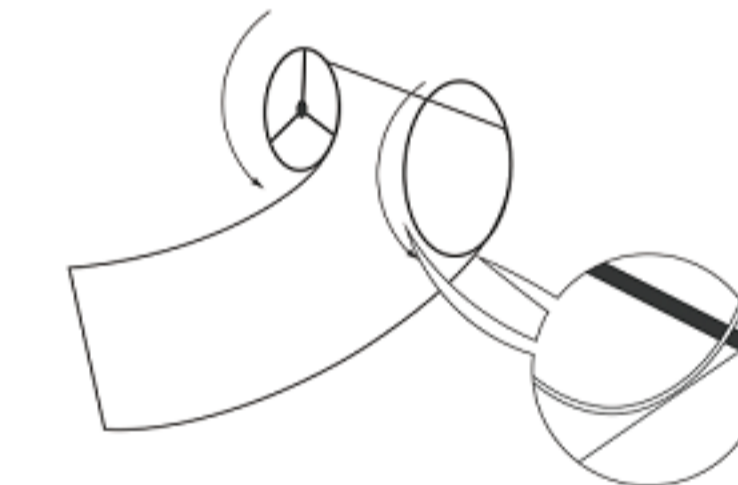

Step 1

Please note that the bottom of the shade is longer than the top. Align the shade's longer side with Ring C and the shorter side with Ring B. Stick the pieces on the bottom and top of the shade to both Rings.

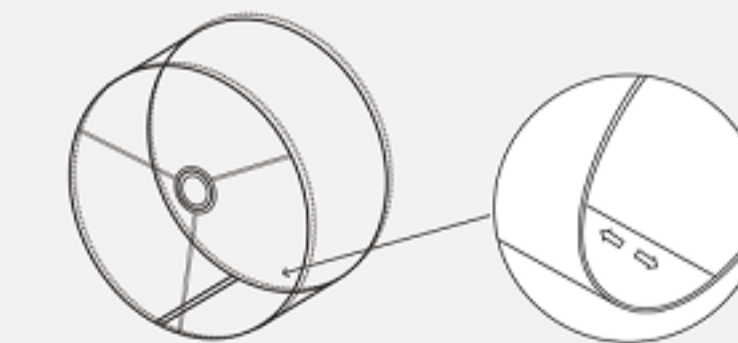

Step 2

Roll both rings all the way around and make sure all the velcro on the shade are secure onto both Rings.

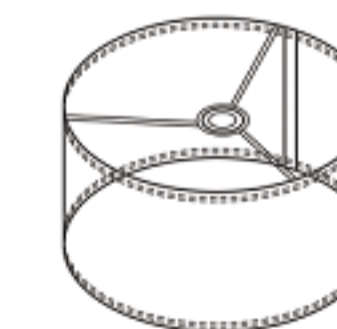

Step 3

Secure the shade by pressing along the velcro.

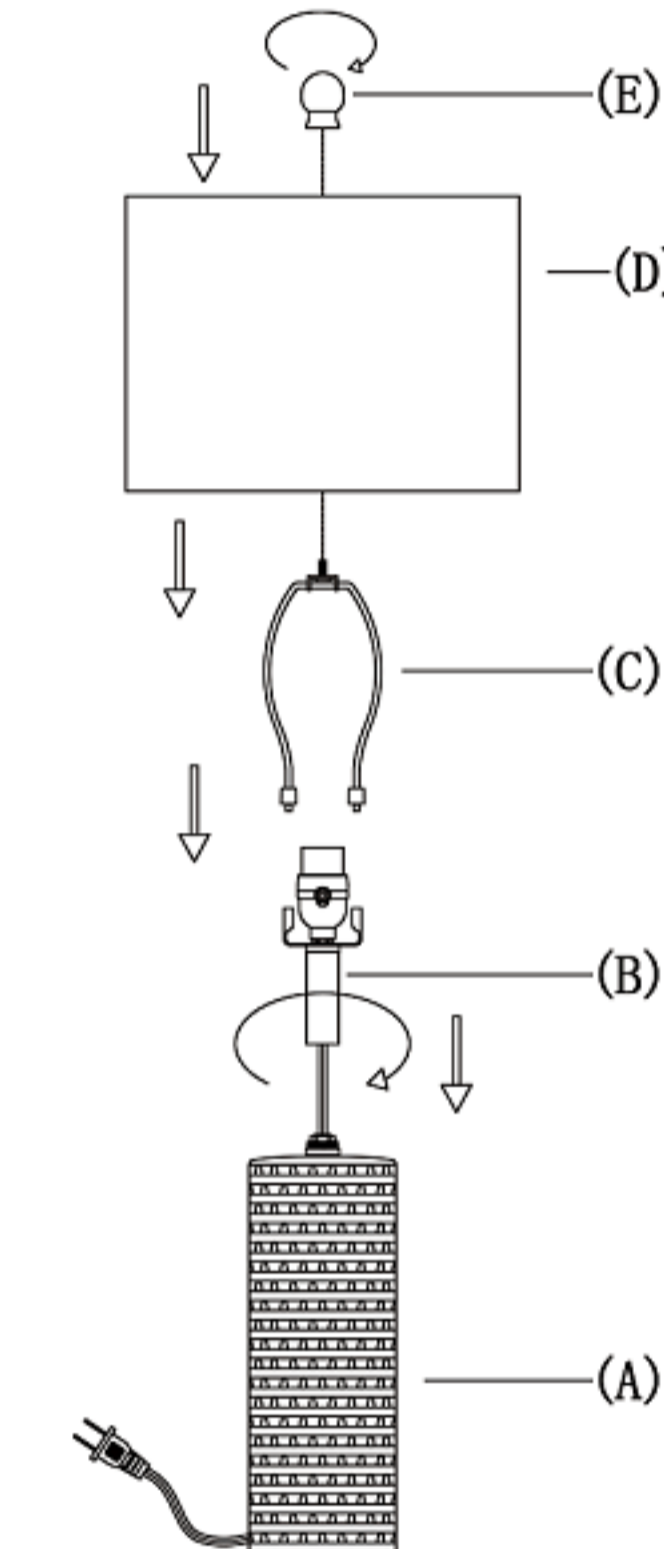

Step 4

Finished as above picture.

#2
Assembly Instructions

1. Please take out all of the lamp parts from the package, carefully lay all parts out in a line on a flat surface.
2. Screw the Saddle(B) into the lamp body(A) clockwise.
3. Insert the Harp(C) into the saddle(B).
4. Take down the Finial(E), Put the Shade (D) into Harp(C), then tighten Shade (D) by Finial (E).
5. Install BULB see relamping label at socket area or packaging for maximum allowed wattage.
6. Your lamp is now completely assembled.
