

4-in-1 Convertible Crib

THIS PRODUCT IS NOT INTENDED FOR INSTITUTIONAL OR COMMERCIAL USE.

If you have any questions or missing parts, please contact us.

WARNING:

Failure to follow these warnings and the assembly instructions could result in serious injury or death.

Read all instructions BEFORE assembly and USE of product. KEEP INSTRUCTIONS FOR FUTURE USE.

- First remove hardware from box and sort by size. Check to see that all hardware and wooden pieces are present before assembling.
- Follow instructions listed below in the proper sequence as numbered to assure fast, easy and correct assembly.
- DO NOT use this crib if the enclosed or attached instructions cannot be strictly adhered to.

WARNING:

- DO NOT attempt to repair or modify parts with cracks or defects. Please contact us for immediate replacement.
- This product is for home use and is not intended for use in schools, day care centers or other commercial establishments.
- Must be assembled by a capable adult.
- **CHOKING HAZARDS:** DO NOT put small / loose components on top of the unit where baby could reach.

Crib Warning

CAUTION: Any mattress used in this crib should be at least 27-1/4 by 51-5/8 in. with a thickness not exceeding 6 in.

WARNING:

Infants can suffocate on soft bedding. Never add a pillow or comforter. Never place additional padding under an infant.

- This crib conforms to applicable regulations promulgated by the Consumer Products Safety Commission.
- Never use plastic shipping bags or other plastic film as mattress covers.
- Infants can suffocate in gaps between crib sides and a mattress that is too small.
- To reduce the risk of SIDS, pediatricians recommend healthy infants be placed on their backs to sleep, unless otherwise advised by your physician.
- DO NOT use a water mattress with this crib.
- Do not remove any wood screws in the normal disassembly of the crib.
- Replace teething rail if damaged, cracked or loose.
- If refinishing, use a non-toxic finish specified for children's products.
- Follow warnings on all products in a crib.

Strangulation Hazard

- Strings can cause strangulation! Do not place items with a string around a child's neck, such as hood strings or pacifier cord. Do not suspend strings over a crib or attach strings to toys.
- To help prevent strangulation, tighten all fasteners. A child can trap parts of the body or clothing on loose fasteners.
- DO NOT place crib near windows where cords from blinds or drapes may strangle a child.

Fall Hazard

- When child is able to pull to a standing position, set mattress to lowest position and remove bumper pads, large toys and other objects that could serve as steps for climbing out.
- Stop using crib when child begins to climb out or reaches the height of 35 in. (89 cm).
- Check this product for damaged hardware, loose joints, loose bolts or other fasteners, missing parts, or sharp edges before and after assembly and frequently during use. Securely tighten loose bolts and other fasteners. DO NOT use crib if any parts are missing, damaged or broken. Contact us for replacement parts and instructional literature if needed. DO NOT substitute parts.

Storage: The crib must be kept in a dry and clean area. Solid wood tends to exchange moisture with the surrounding air and reacts to major changes in temperature and humidity. The ideal environment for the crib is at a temperature between 65 and 75 degrees and a relative humidity between 35 and 40 percent. If the room is too humid, the crib will absorb moisture and expand; in verse, the crib will lose moisture and shrink in a dry environment. It is best to place your furniture away from heating or air-conditioning vents. Also, direct exposure to sunlight can discolor the wood, so do not place your product where it will receive prolonged sunlight exposure.

Care and Cleaning: Do not scratch or chip the finish. Do not use abrasive chemicals for cleaning. Clean with mild soap on a soft rag. Rinse and dry thoroughly. If you choose to refinish this furniture, be sure to use only a non-toxic finish specified for children's products.

Toddler Bed Warnings

WARNING

INFANTS HAVE DIED IN TODDLER BEDS FROM ENTRAPMENT.

Openings in and between bed parts can entrap head and neck of a small child.

NEVER use bed with children younger than 15 months.

ALWAYS follow assembly instructions.

WARNING

STRANGULATION HAZARD

NEVER place bed near windows where cords from blinds or drapes may strangle a child.

NEVER suspend strings over bed.

NEVER place items with a string, cord, or ribbon, such as hood strings or pacifier cords, around a child's neck. These items may catch on bed parts.

CAUTION:

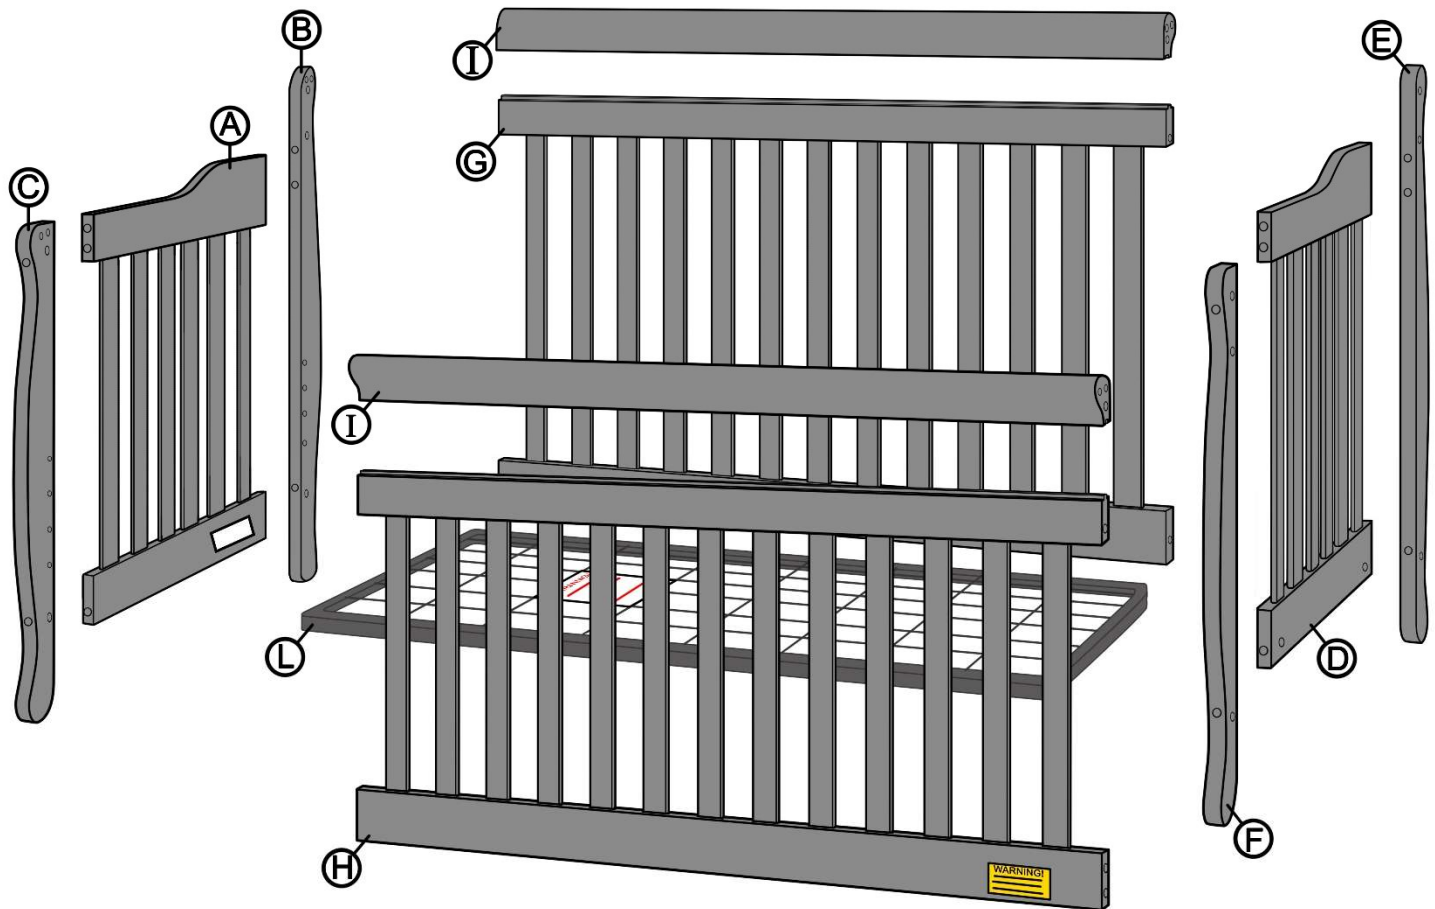

ENTRAPMENT HAZARD

To avoid dangerous gaps, any mattress used in the bed shall be a full-size crib mattress at least 51-5/8 in. (1310 mm) in length, 27-1/4 in. (690 mm) in width., and a max thickness of 5 in. (130 mm).

- The maximum weight shall not be greater than 50 lbs (22.7kg).
- Do not use with less than 12 inches of space between toddler bed and solid objects such as a wall or dresser. Child could slide into smaller spaces and suffocate.
- DO NOT use a water mattress.
- DO NOT use casters on toddler bed.
- Guardrails if provided must be used to avoid the formation of a gap between the mattress and the bed that could cause an entrapment. If mattress retention clips are provided they must be used to restrict mattress movement.

Product Assistance Procedures

We strive to ensure that our customers are receiving a quality piece of furniture. We want our customers to be satisfied with using our products for years to come. In the event that you need assistance or have any inquiries regarding our products, please feel free to contact us with the information below.

To request replacement parts, please contact our customer service with the following information and we will do our best to assist you.

1. Proof of Purchase*
2. Item Number of the Product or Identification Sticker**
3. Part Letter or Number of the Replacement Part
4. Quantity
5. Your Shipping Address
6. Description of Your Problem

Please also provide pictures of the issue whenever possible. This will help us understand and assist you with your problem.

*Acceptable Proof of Purchase includes, but not limited to, your Online Purchase Confirmation Email, a screenshot of the purchase history of the online retailer, or a receipt from your local store.

Our warranty extends only to the original purchaser and is non transferable. Warranty is valid only when the proof of purchase can be provided.

Please retain a copy of your purchase records for future inquiries.

**All of our baby products come with an identification sticker. This is a white sticker that contains all the product information of the item.

For cribs, the identification sticker is generally located near the bottom of the crib's side rails, the toddler guardrail, or the stabilizer bar.

For changers, the identification sticker is located on the top panel of the changing unit.

Under no circumstances should you remove any warning labels from the product. These labels are meant to be permanent and removing them may damage the wood and void your warranty.

Safety Tips for Assembling and Re-assembling Cribs

- Parents should not use any crib with missing, broken or loose hardware parts. Crib slats or spindles should be spaced no more than 2-3/8" apart, and none should be loose or missing. NEVER use a crib with corner posts over 1/16" of an inch above the end panels (unless they are over 16" high for a canopy).
- Check this product for damaged hardware, loose joints, and loose bolts or other fasteners, missing parts, or sharp edges before and after assembly and frequently during use. Securely tighten loose bolts and other fasteners. DO NOT use crib if any parts are missing, damaged or broken. Contact us for replacement parts and instructional literature if needed. DO NOT substitute parts.
- Never place infants to sleep on pillows, sofa cushions, adult beds, waterbeds, beanbags, or any other surface not specifically designed for infant sleep.
- Always check all sides and corners of the crib to assure proper assembly with no openings that may entrap a child. The crib mattress should fit snugly with no more than two fingers width, one-inch, between the edge of the mattress and the crib side. Otherwise, the baby can get trapped between the mattress and the side of the crib.
- Do not try to repair any side of the crib without manufacturer-approved hardware.
- Putting a broken side up against the wall is not a solution and can often make the situation worse.
- When re-assembling the crib for your second child, please keep in mind that the screw holes will need to be filled in order for the screws to grip to the wood. Talk to your local hardware store or lumberyard about how to do it properly.

One year limited warranty

We want you to be satisfied with any product that bears our name or logo. We will provide promptly, at the request of the retailer, and without charge, any missing parts that have been reported, with proper description, within 7 days of the purchase of the products. Our warranty guarantees optimal workmanship and lack of significant defects. The product warranty lasts a year from the date of your purchase. Please keep the original receipt so that we may process your one year limited warranty request. This warranty only covers new units with original packaging. Ownership of the warranty is non-transferable. The warranty does not cover any used, second-hand, or demo models. Our obligation under this warranty is to replace or repair the merchandise, at our option, free of charge. This warranty does not cover any damaged or defective parts that result from normal wear and tear, abuse, negligence, improper use or alteration to the finish design, and hardware. Specific rights issued by this warranty may vary from state to state. Some states do not allow limitations on how long implied warranties last. DO NOT return products to the store once a product is used, it cannot be resold and the materials and energy invested in the product would go to waste. In the event that we determine that a defect that may result from customer abuse or misuse, we will contact you with information about services and methods to prevent occurrences. We strongly recommend you register your product with our company by filling out registration and mailing it back to us. This ensures you are up-to-date with our products' maintenance and information.

This warranty does not cover damage caused by accident, misuse or any use other than as intended and described in this assembly sheet or damage resulting from failure to maintain and clean this product as specified in this assembly sheet. This warranty applies only to the original purchaser of our product.

⚠️ CAUTION! Safety Tips for Use of Cribs

Many older cribs, including secondhand or second use cribs, may not meet all current safety standards. For baby's safety, even if you are on a tight budget, you should not purchase a used crib at a garage sale or accept a hand-me-down that does not meet the most recent Federal and ASTM standards.
