

Chair Information Guide

Pneumatic Seat Height Adjustment

- Allows quick and easy adjustment
- Regulates height of the chair relative to the floor

2-to-1 Synchro Tilt

- Tilt lock out and adjustable tilt tensions
- Allows users to recline while keeping the seat cushion relatively level to the floor

Tilt Tension

- Controls rate and ease with which the chair reclines for different weights and strengths of users.

#1. Synchro Tilt Lever - to lock chair in upright position push the lever in, and to unlock pull the lever out

#2. Seat Height Adjustment - apply pressure to the seat and lift lever for height to decrease, remove pressure to the seat and lift lever for height to increase

#3. Tilt Tension - turn clock-wise to intense tension and reduce tilt, turn counter clock-wise to decrease tension and allow more tilt
