Each Snapfence® fencing system is customizable and can be a freestanding fence with up to 4 turns or turned into an enclosure with parts supplied.

BUILD YOUR FENCE IN A SNAP!

1

- If fence includes gate insert in application– build gate first following instructions below.
- Corner install always recommended for extra support.

2

- Install posts 4ft. apart attaching to anchor stakes or base mounts as application dictates.

3

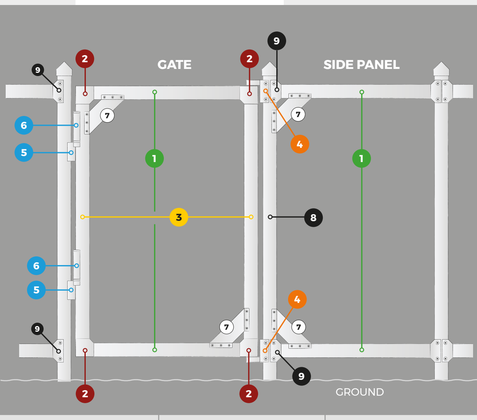
- Attach rails to posts with rail connectors- substitute corner rail connectors where a turn or corner is needed.

4

- Attach wire/lattice to panels with panel clips/ screws provided.

  *wire will need to be cut and trimmed

GATE INSERT
INLINE



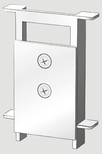
1	19" 7/8 Rail	x 4
3	31" Rail	x 2
8	39" Post	x 1

2 Hinge Elbow x 4

4 Hinge Bracket x 2

5 Gate Stop x 2

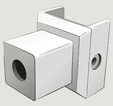
6 Gate Latch x 2



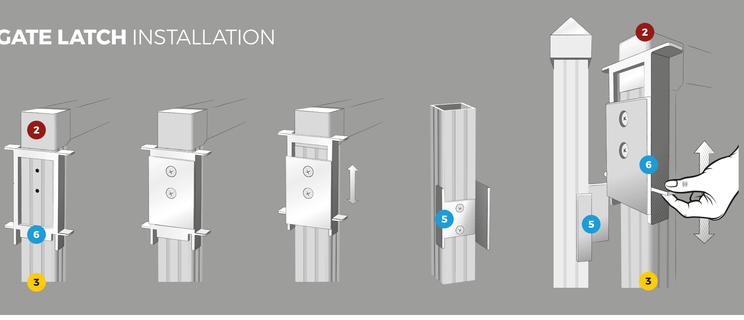
7 Support Bracket x 6

Recommendation for extra support

9 Rail Connector x 4



GATE LATCH INSTALLATION



CORNER GATE INSTALLATION
RECOMMENDED

Install 2 Support Brackets flat across existing fence for added support

7 Support Bracket x 2
