The X Lacquer Bench Table blends refined materials with a bold architectural silhouette. Featuring a high-gloss lacquer top in a sophisticated Chelsea Gray finish, the design is anchored by a cerused quarter-sawn oak base that highlights the natural grain with subtle texture. The sculptural X-form base adds visual interest and stability, creating a modern yet timeless statement piece. Compact in scale and versatile in function, this table works beautifully as a bench, cocktail table, or accent piece in both contemporary and transitional interiors.
