The Mini Gardens 1

D2532S50625-4114

The Mini Gardens 1 is part of a series of four breathtaking prints reminiscent of the work of the distinguished American artist Joan Mitchell who is renowned for her contributions to painting, printmaking, and other paper-based media. The Mini Gardens 1 is an abstract print that brings together a striking array of contrasting hues that elicit feelings of beauty and passion while strong and vivid brushstrokes convey a sensation of motion. A bold color palette in coral pink, dove grey, charcoal, and vanilla unite to form a captivating artistic creation.

A concentrated section taken from the larger work, The Garden 1, The Mini Gardens 1 uses abstract forms and a lively color palette to encourage a quiet reflection of one's relationship with the natural world. An original addition to the carefully curated ART by TA Collection.
