

# How to install the cushions

Step 1. Open the plastic bag and remove the cushions foam.

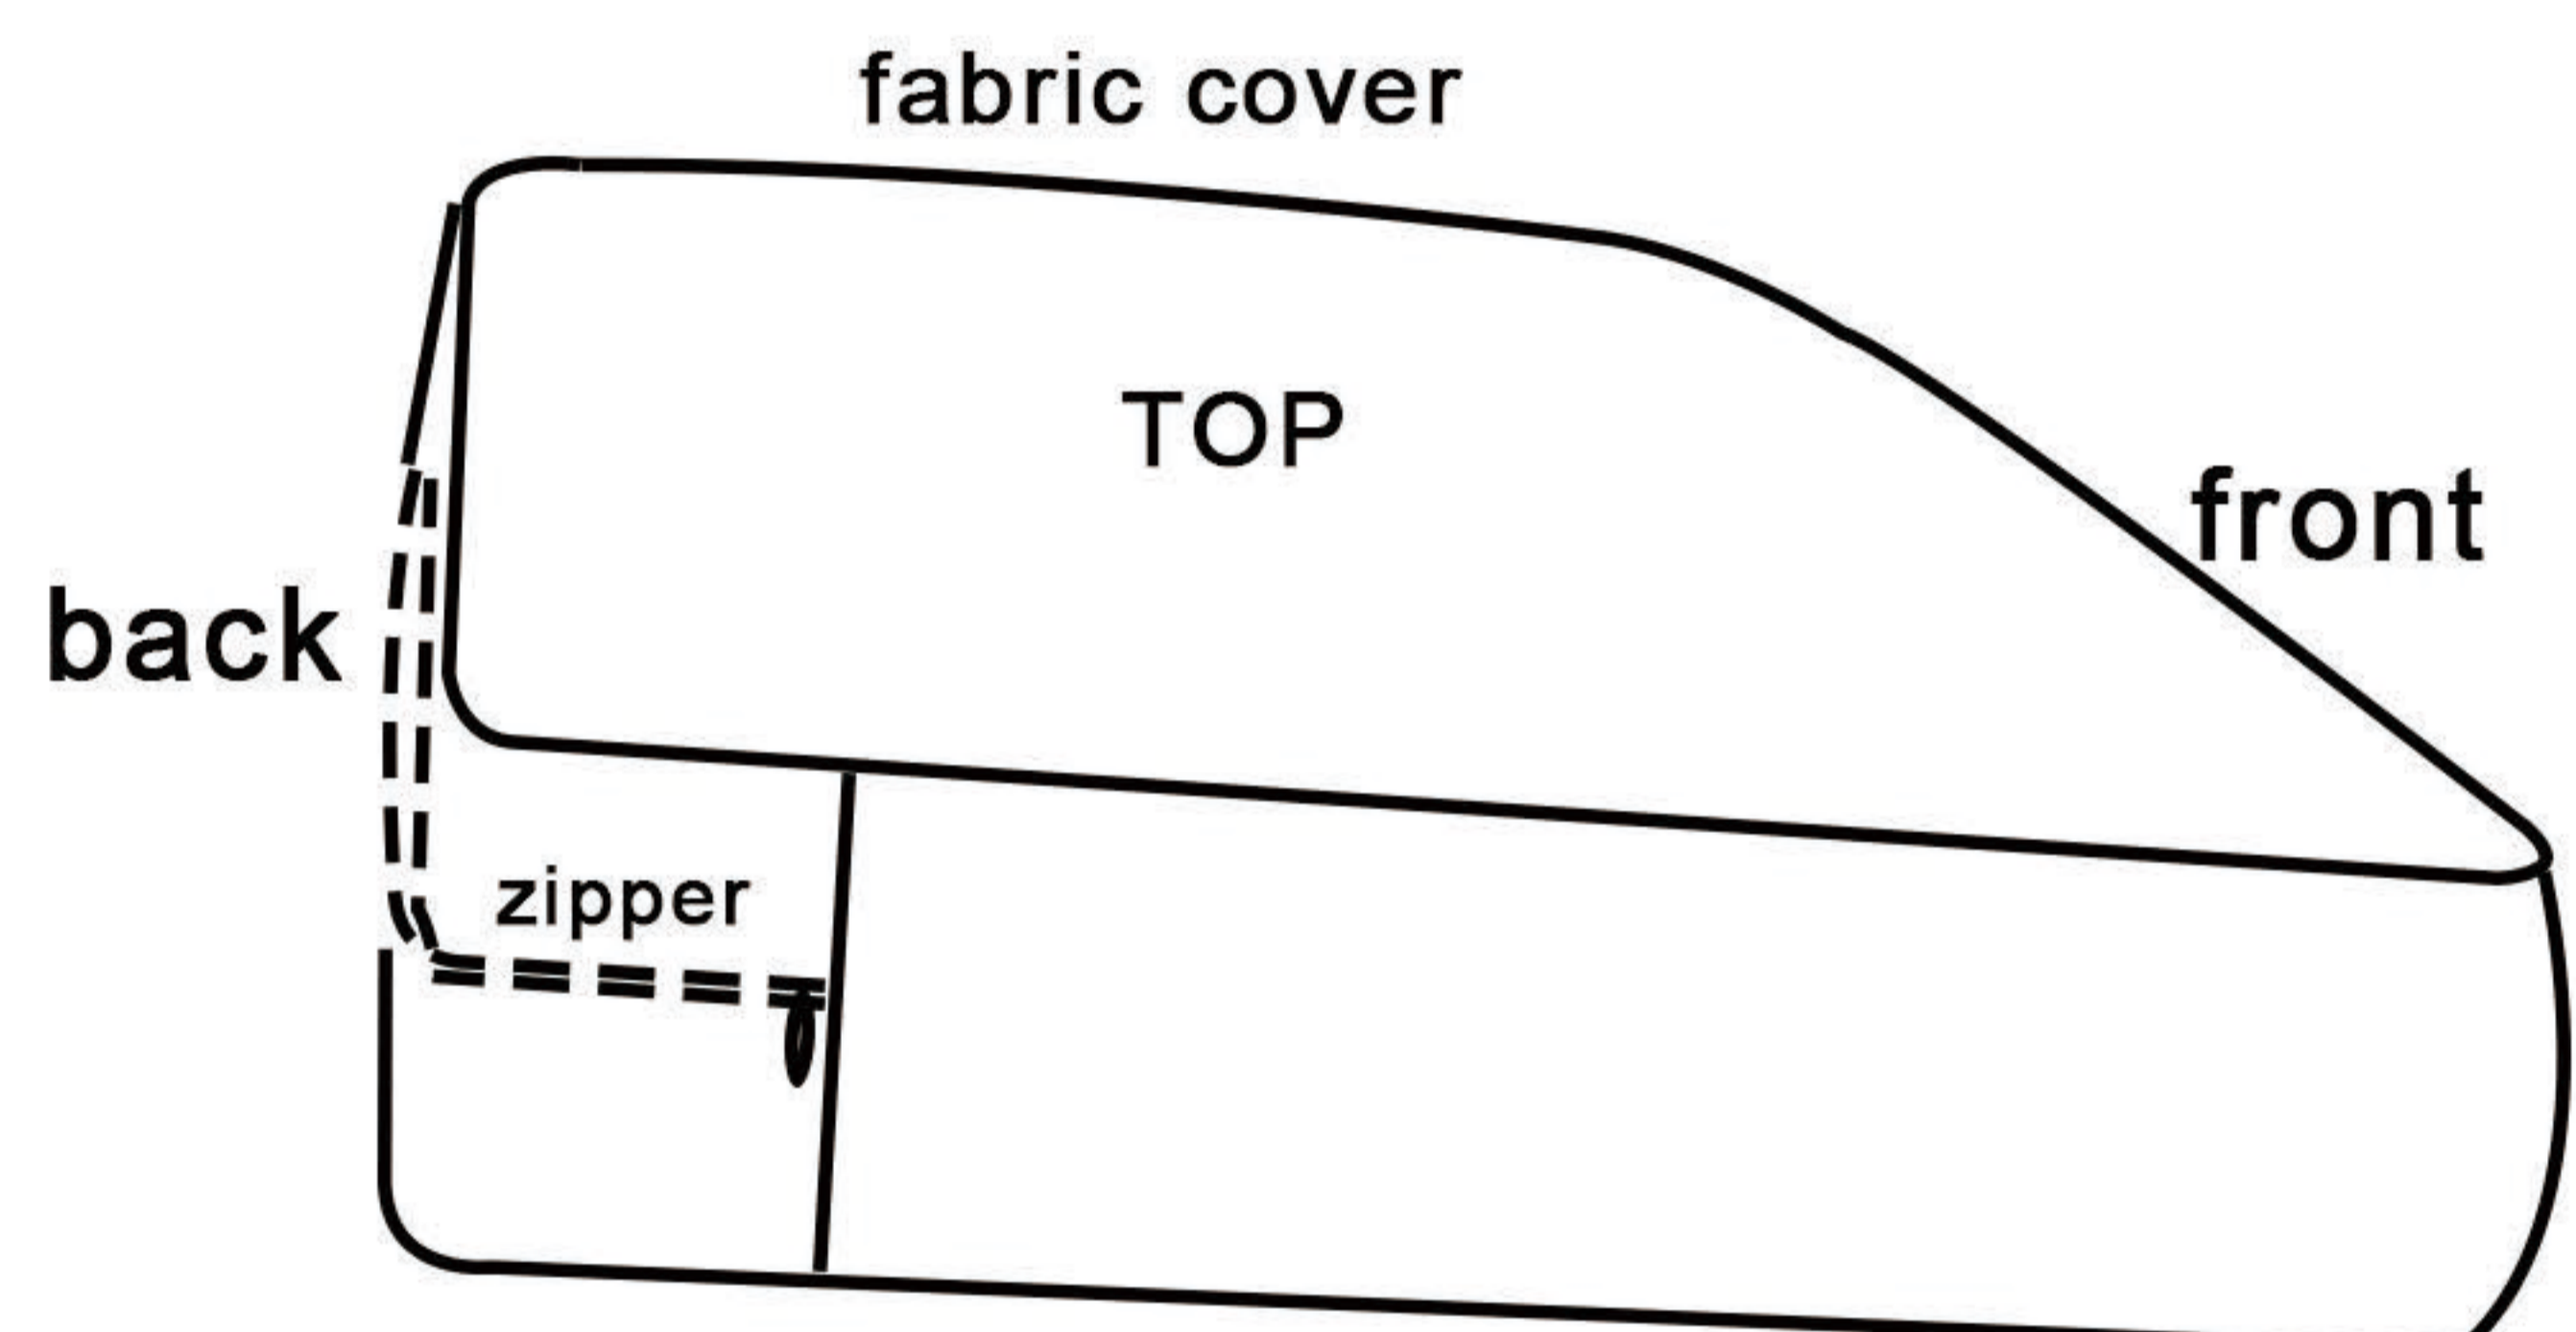

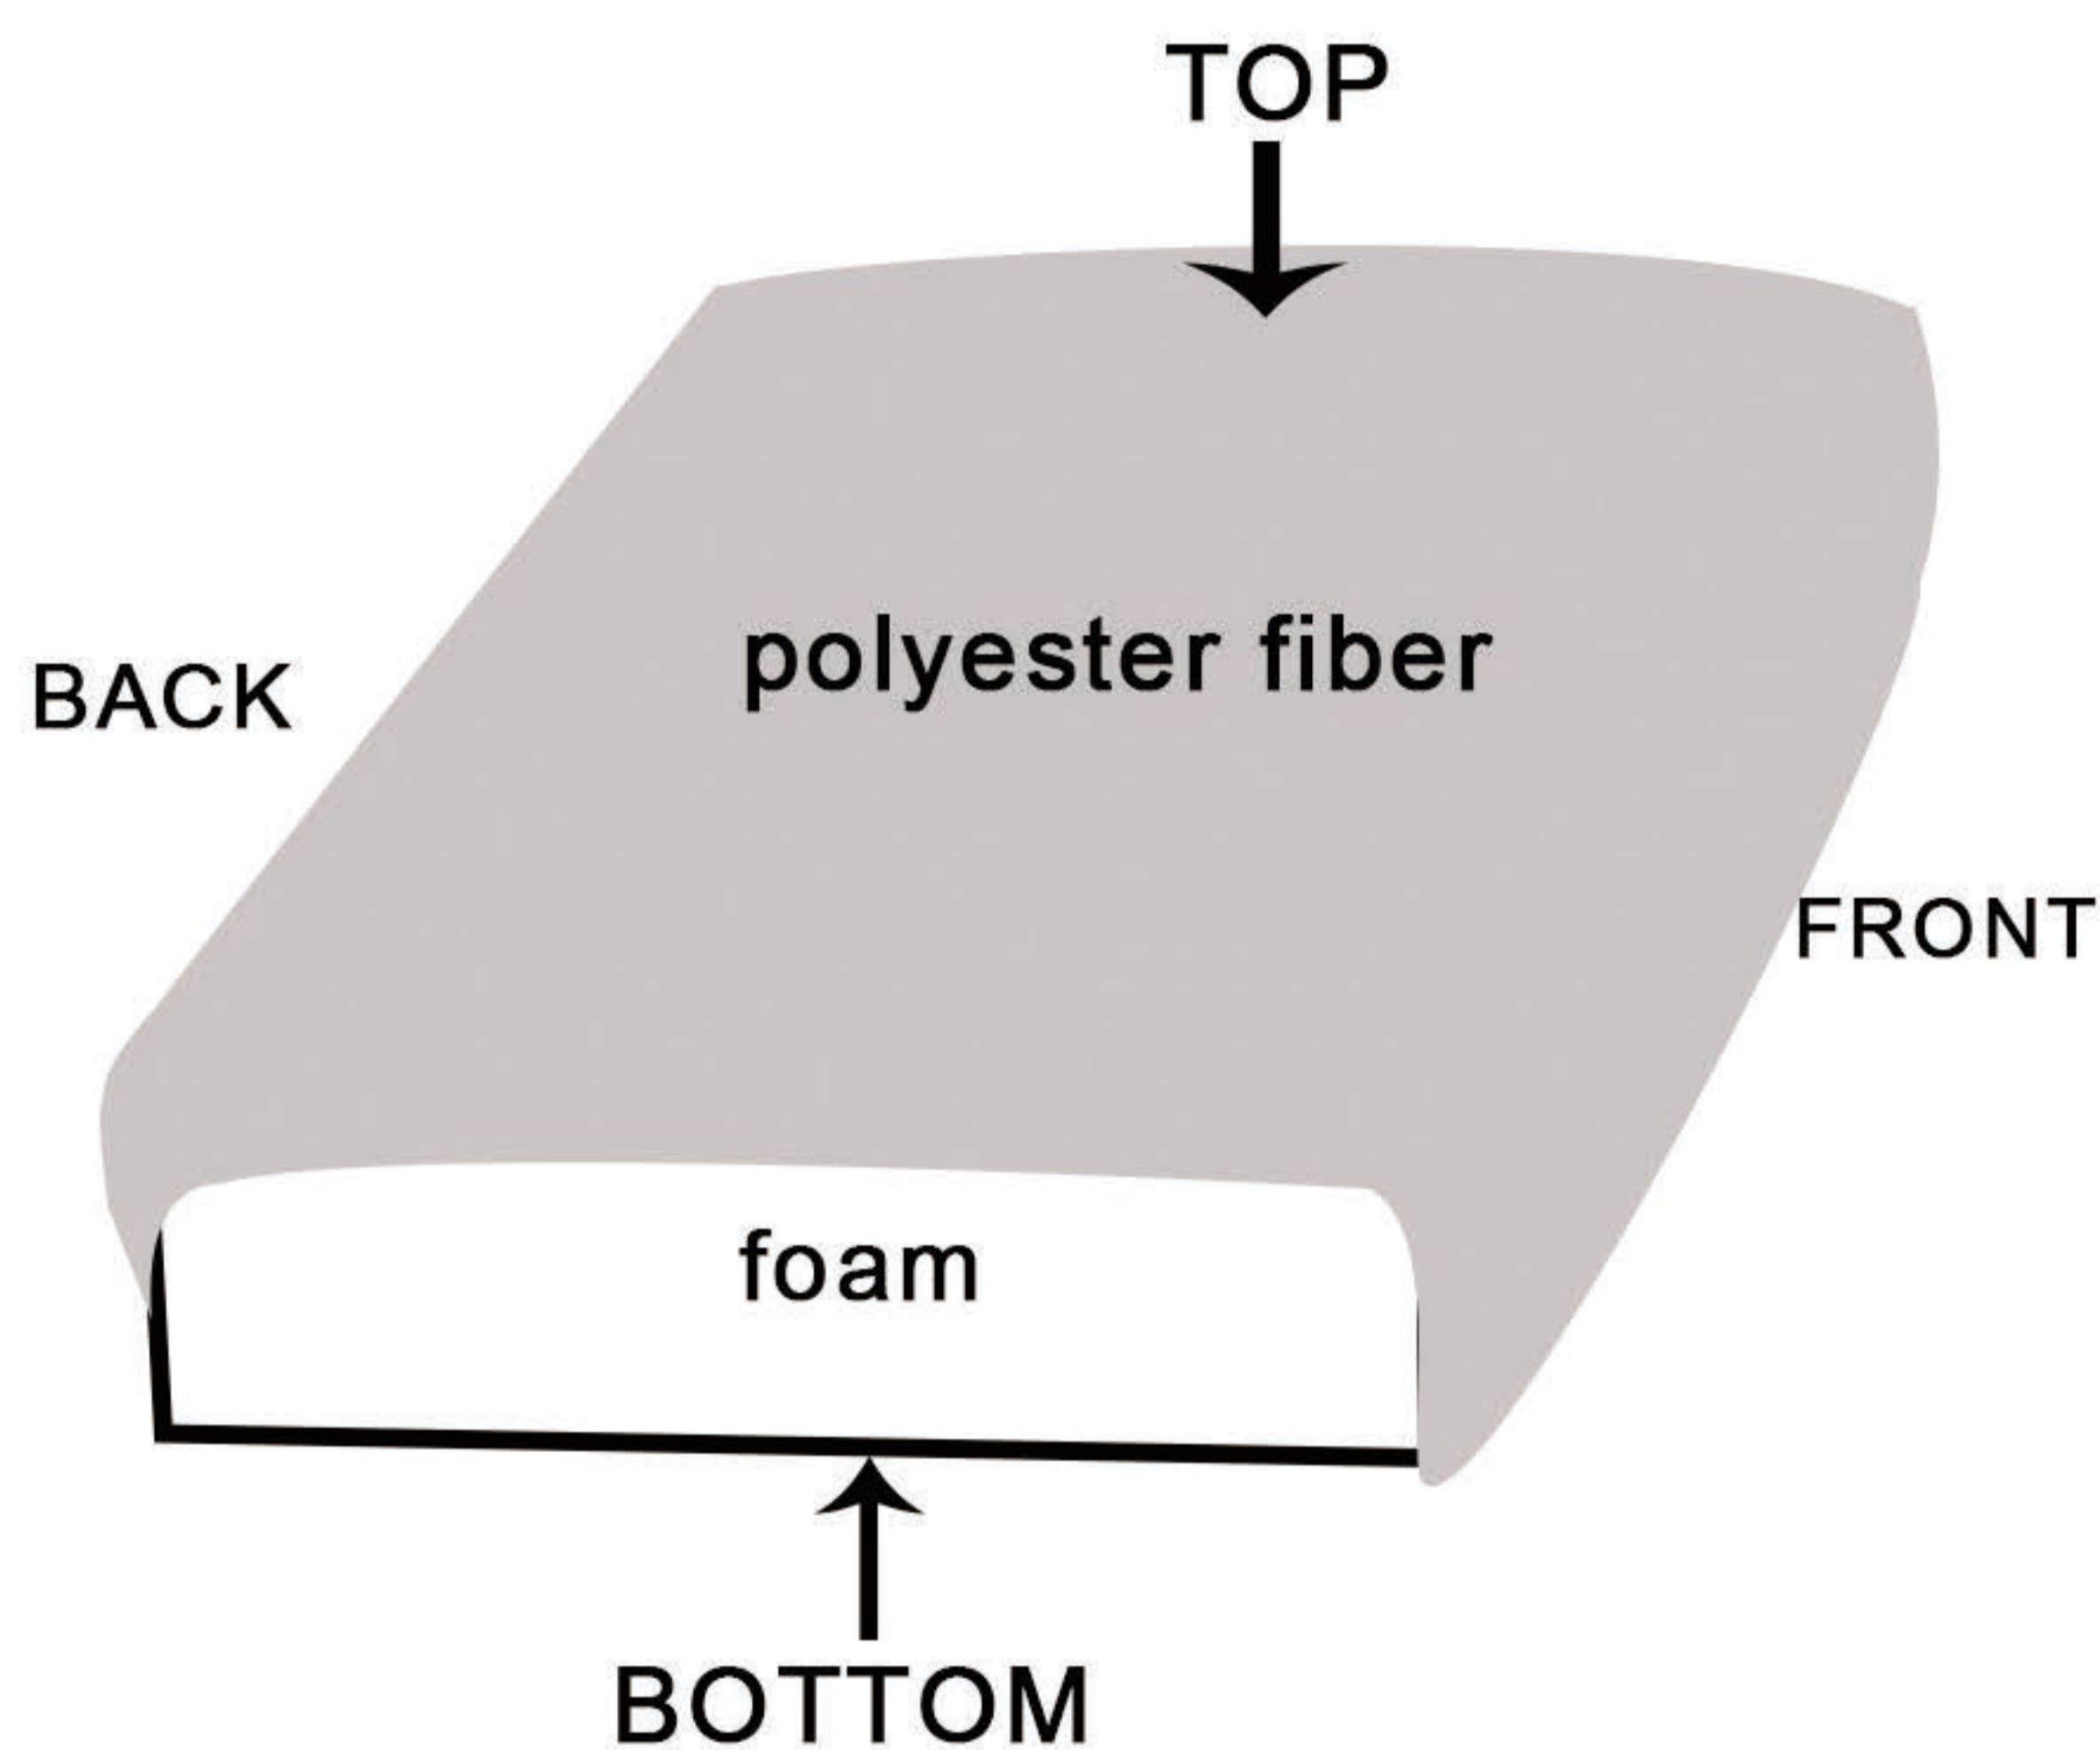

Step 2. Cover the fabric covers to the seat cushions foam. When you get the foam, 1) you need to identify which side is the top and the bottom. The surface is with polyester fiber which will be the top of seat cushion, another side will be the bottom of seat cushion.

2) How to identify the front side and back side?

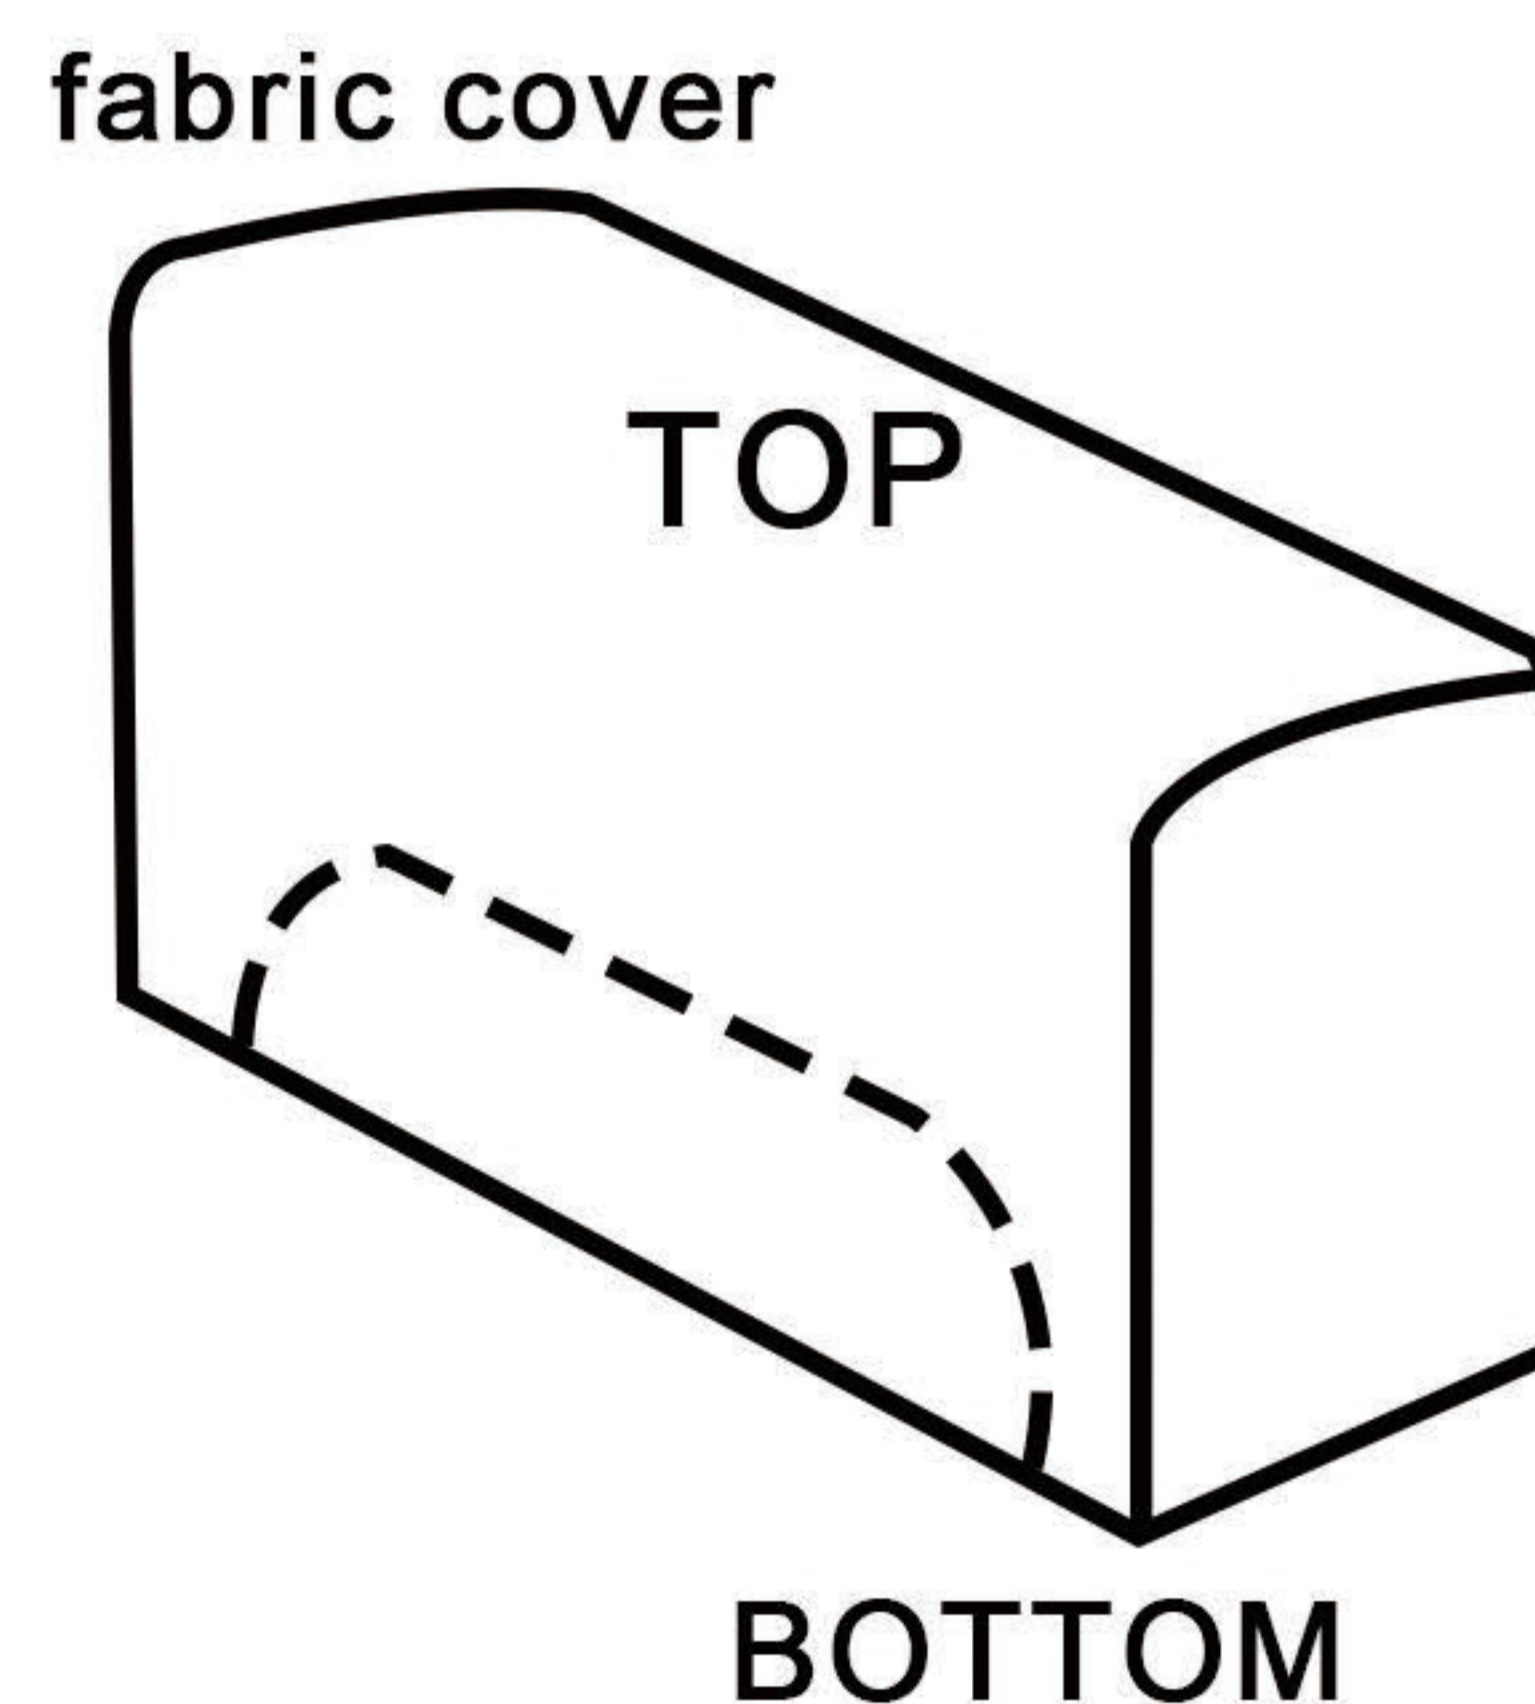

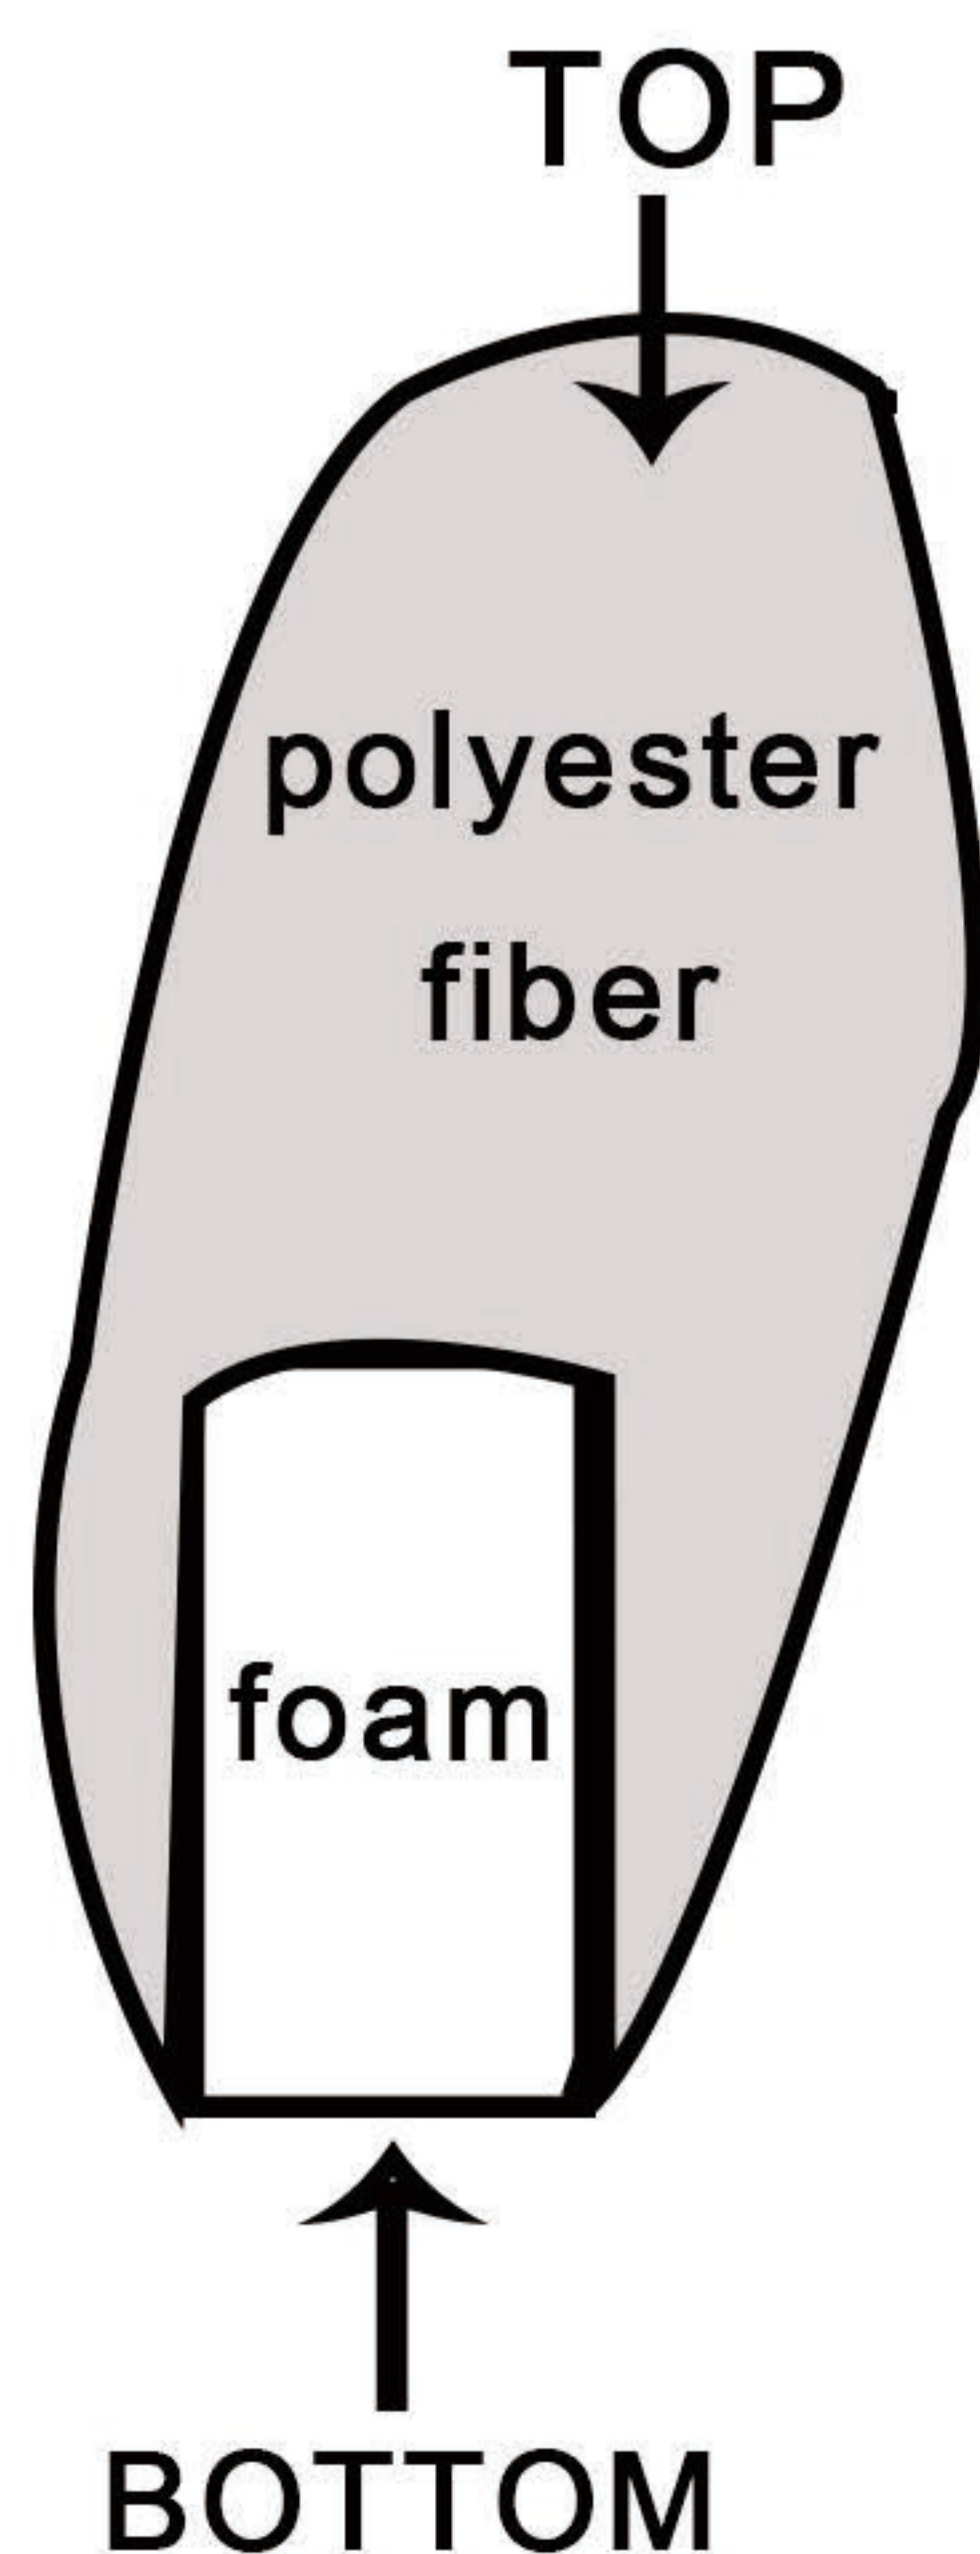

The polyester fiber is fully cover the front side which will be the FRONT side of seat cushion, another is BACK side of seat cushion.

3) Finally, how to identify the back side of the fabric cover?

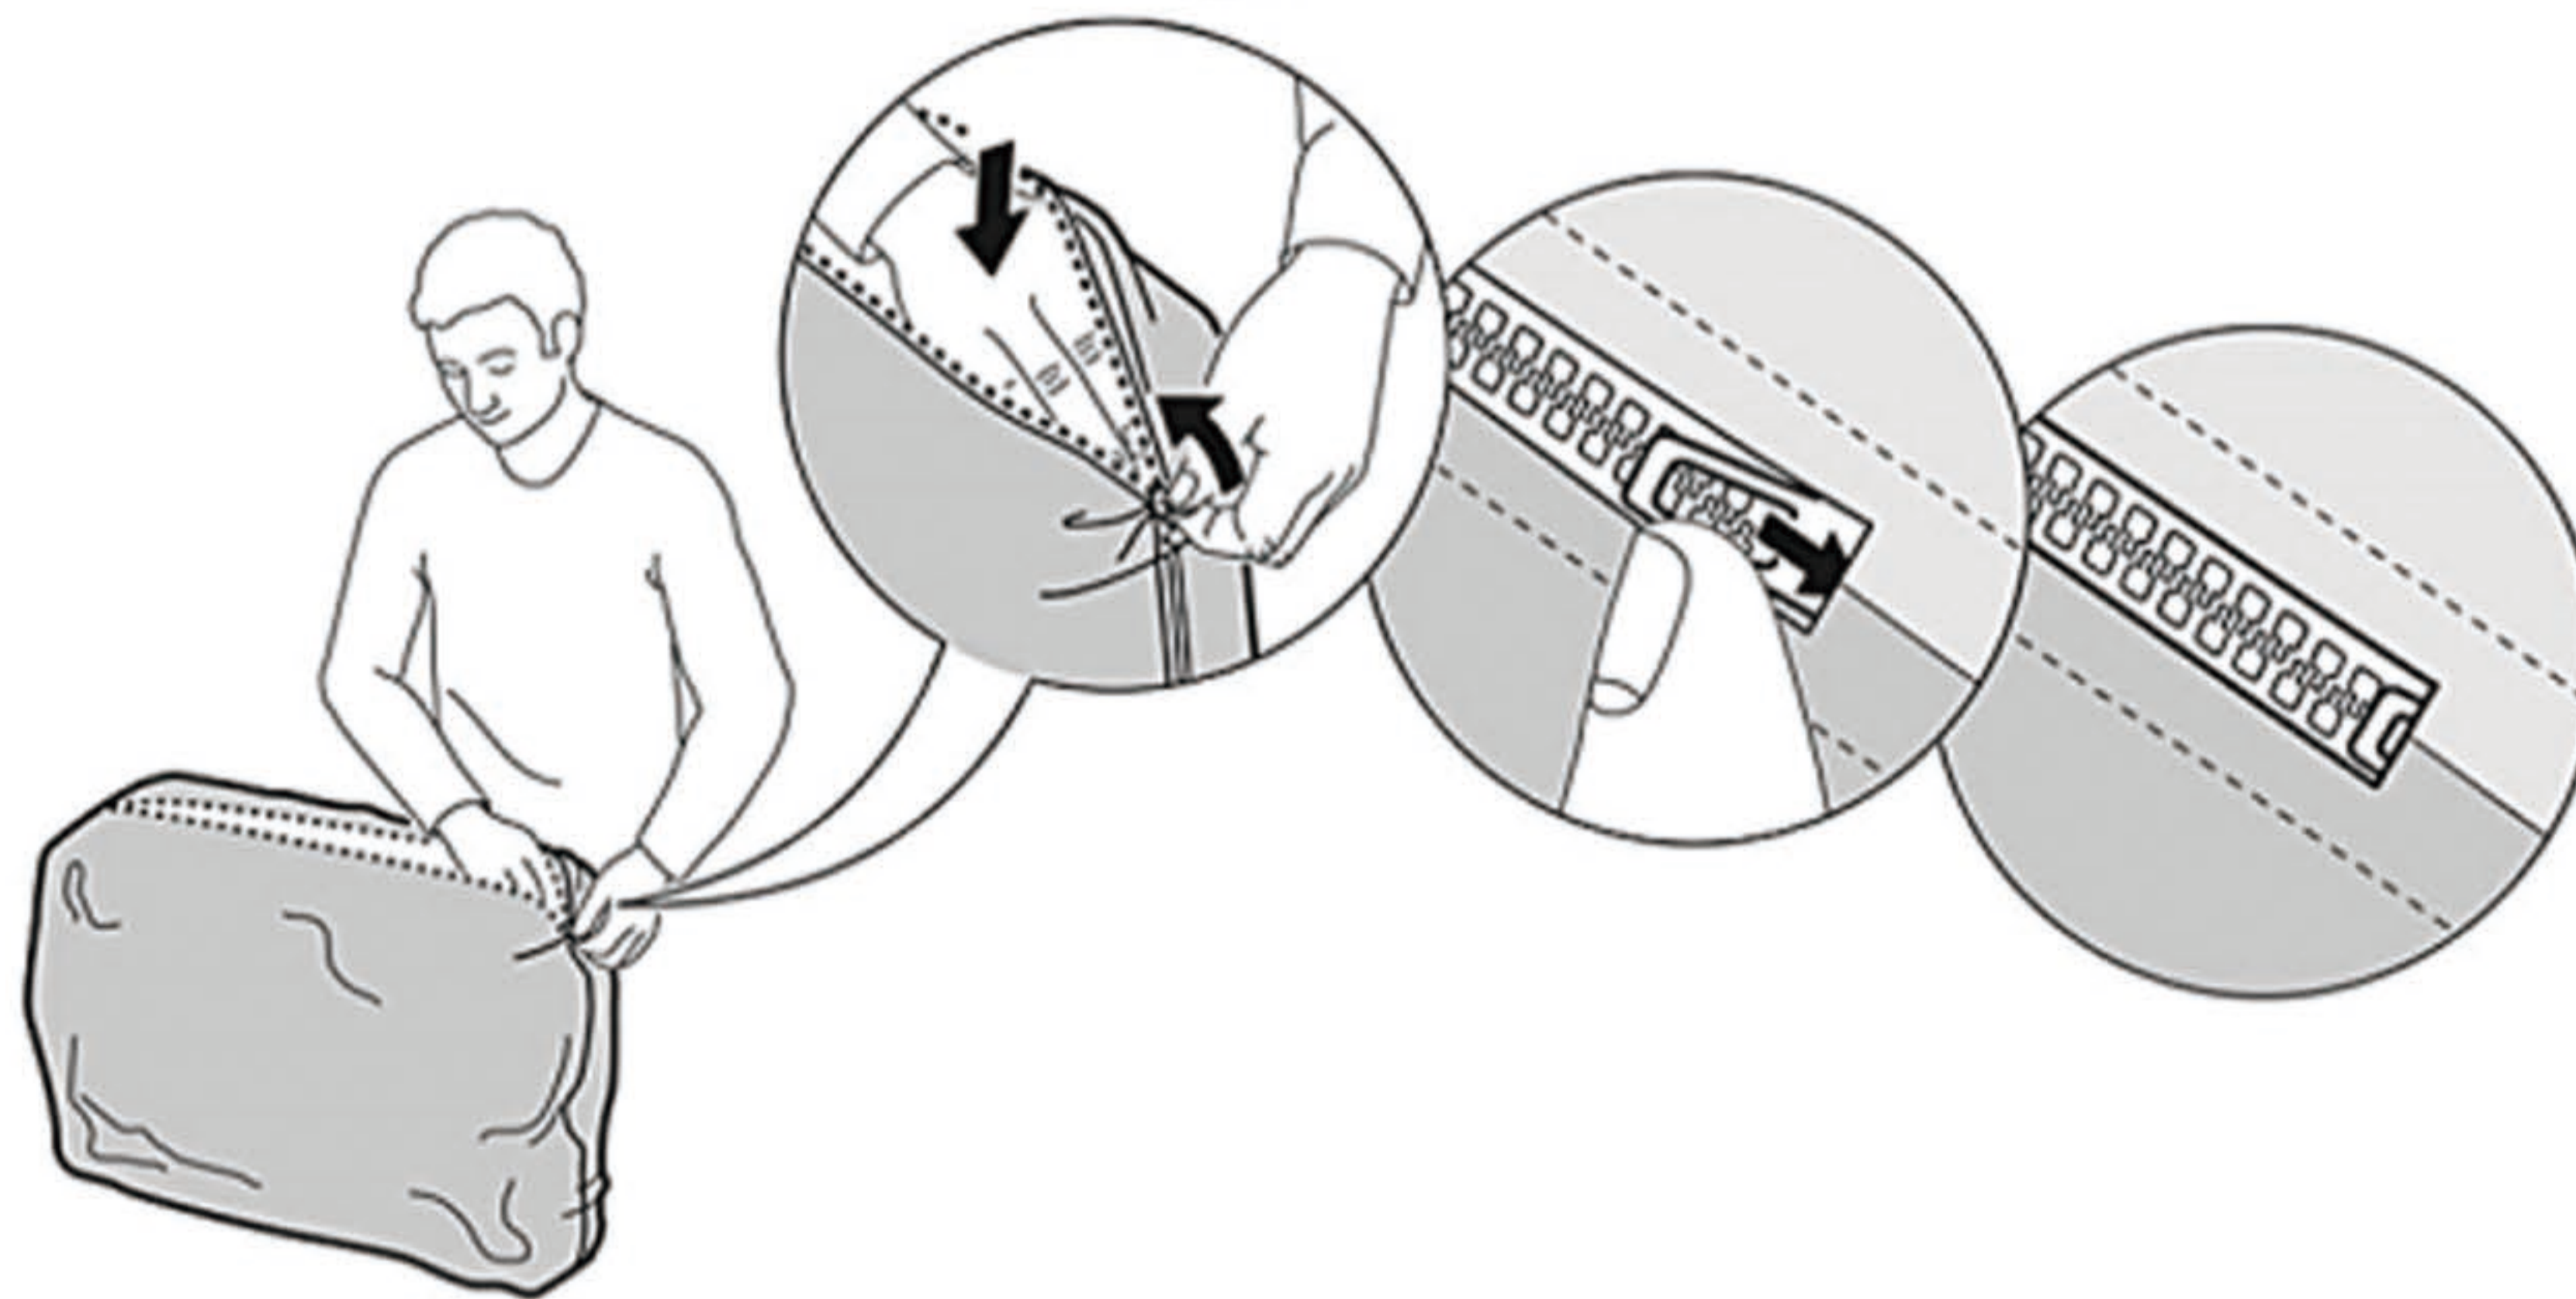

The fabric with zipper which will be the back side of seat cushion.

Step 3. Cover the fabric covers to the armrest cushions foam. The surface is fully covered by the polyester fiber which will be the top of the armrest. When you see the zipper of the fabric cover which will be the bottom side of armrest.

## How to tidy sofa cushion?

### TIPS

At the beginning the cushions are a little loose which is normal. Please allow at least 72 hours for the cushions foam to recover to its natural state after covering the fabric covers.
