

Step-by-Step Installation Guide

Step 1: Remove Screws.

Unscrew and remove all screws around the base.

Step 2: Disassemble Rings

Take off the two black plastic rings (1, 2) and two rubber gaskets (a, b). Keep the top black plastic ring (3).

Step3: Install the Black Lamp Post

Secure the black lamp post (with the retained black plastic ring) onto the light body.

Step 4: Insert Innermost Lampshade

Place the innermost lampshade layer into position.

Step 5: Secure with Gasket & Ring

Add one rubber gasket and one black plastic ring. Rotate the ring downward to lock.

Step 6: Insert Middle Lampshade

Place the middle lampshade layer into position.

Step 7: Repeat Step 5

Install another rubber gasket and plastic ring, rotating to secure.

Step 8: Attach Outer Lampshade

Place the outermost lampshade layer. Add a final rubber gasket on top.

Step 9: Finalize Installation

Connect and tuck the wires neatly into the base. Tighten the base screws firmly.

Step10:
