Product Description: A bold and artistic marriage of Mango Wood, brass and agate stone, the Tara Credenza has a honeycomb-pattern metal overlay and an antique bronze colored starburst on the doors. The case is finished in a black with rub-through, and the dramatic hardware has a turquoise and brown agate center and metal frame. One adjustable shelf behind each door.

Collection Features: Come closer to Melange, and you will discover something unexpected, an eclectic blending of colors, textures and materials in a vibrant collection of one-of-a-kind artistic pieces.

Status: New

Finish: Black finish with rub-through. Honeycomb pattern metal overlay is antique bronze with antique bronze starburst. Large rectangular hardware in metal and agate.

Features: Two doors with honeycomb metal overlay
One adjustable shelf behind each door
Levelers

Material: Mango Wood with Brass Sheet, Agate and Brass

Finish Construction: Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in

quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture
