SAFETY AND CARE ADVICE

PLEASE READ THESE INSTRUCTIONS CAREFULLY AND KEEP FOR FUTURE REFERENCE

Warning: Please lift with care.

- Check you have all the components and tools listed on pages 2 and 3.
- Remove all fittings from the plastic bags and separate them into their groups.
- Keep children and animals away from the work area, small parts could choke if swallowed.
- Make sure you have enough space to layout the parts before starting.
- Do not stand or put weight on the product, this could cause damage.
- Assemble the item as close to its final position (in the same room) as possible.
- Assemble on a soft level surface to avoid damaging the unit or your floor (use opened out unit carton).

·We do not recommend the use of power drill/drivers **for inserting screws**, as this could damage the unit. Only use hand screwdrivers.

·**Safety note:** If there is any chance of this unit being pulled over by children etc. it is recommended that the unit is secured to a wall using suitable fixings.

·Dispose of all packaging carefully and responsibly.

CARE AND MAINTENANCE

- Only clean using a damp cloth and mild detergent, do not use bleach or abrasive cleaners.
- From time to time check that there are no loose screws on this unit.

·This product should not be discarded with household waste. Take to your local authority waste disposal center.

Note: *If required the next page can be cut out and used as reference throughout the assembly. Keep this page with these instructions for future reference*

ASSEMBLY INSTRUCTIONS

Congratulations! Now you have finished assembling the product.

DOOR ALIGNMENT

Customer Attention:

To align doors and control gap in between doors. Product doors may need adjusting during and after assembly. This can be done by adjusting appropriate screws. See below illustration.

Vertical Door Adjustment:

Loosen both screws on all hinges and lift the door to the desired height. This allows an even space at the top and bottom between the door and frame.

Lateral Door Adjustment:

If door is hinge bound, (rubbing on frame as you close or open door) loosening screw shown and move the door in appropriate direction. (In or out)

Horizontal Door Adjustment:

Rotate Screw clockwise or anticlockwise. This will produce an even gap between doors and frame.
