

Dining Table Installation Instruction

Important Preparation Notes

1. Carefully read through this entire instruction manual before starting assembly.
2. This product is shipped in 2 separate packages. Please count the packages upon receipt.
3. Check the outer boxes for damage.
If no visible damage, open and verify all parts are included and undamaged (refer to the parts list).

Safety Installation Precautions

1. Two people are strongly recommended for assembly.
2. When installing multiple screws: first insert all screws loosely, then tighten them gradually and evenly. Never fully tighten one screw at a time.
3. Do not over-tighten screws to avoid damaging threads or wood.

⑦ screws

Step 1: Mount the Tabletop

**With two people, carefully lift the tabletop.
Gently place the tabletop onto the assembled base.
Slightly rotate the tabletop if needed to align the pre-drilled
holes on the underside with the holes on the base.
Insert all tabletop fixing screws loosely.
When all holes are perfectly aligned, tighten all screws
gradually and evenly.**

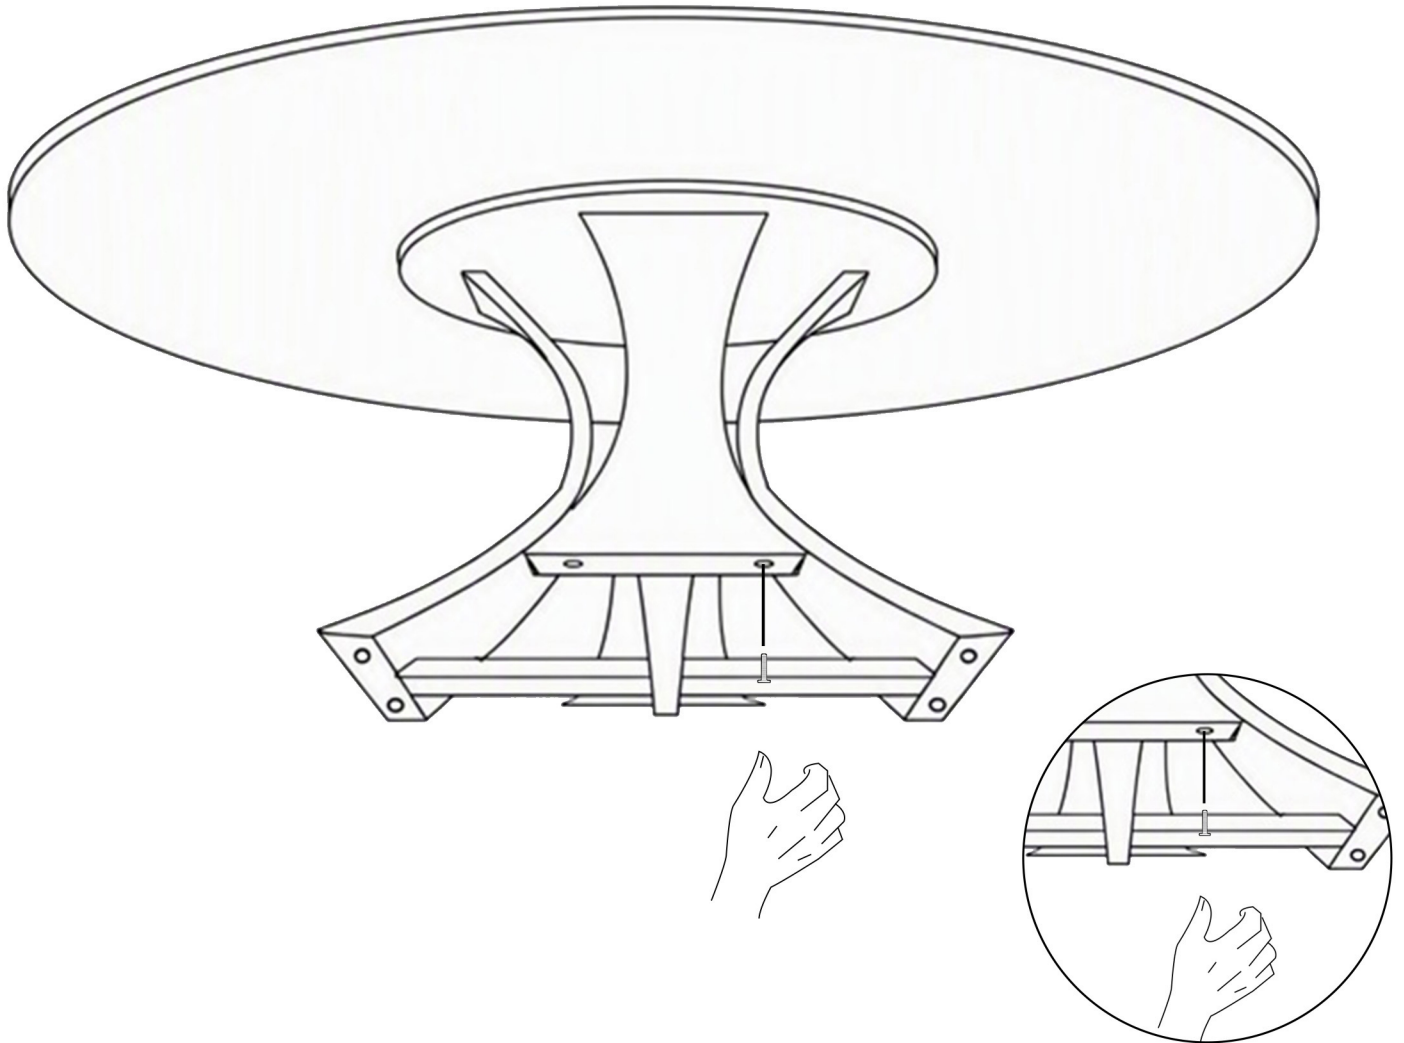

Step 2: Final Check

**Double-check that every screw is properly tightened.
Gently shake the table to ensure stability-no wobbling or
unusual noise.**

Assembly complete!

Height adjustment screws usage instructions

This component is a height adjustment screw that can be installed at the bottom of the base to adjust for uneven surfaces.

This screw can be optionally installed. Even if it is not installed, it will not affect the functionality of the product.
