ASSEMBLY AND INSTALLATION INSTRUCTIONS

WARNING: TO AVOID RISK OF ELECTRICAL SHOCK, BE SURE TO SHUT OFF POWER BEFORE INSTALLING OR SERVICING THIS FIXTURE.

Before You Begin:

- Ensure power is turned off at the circuit breaker before installation.
- Read all instructions carefully.
- Installation should be performed by a qualified electrician if you are unfamiliar with wiring.

Step-by-Step Installation:

A. Ensure the socket (16) is vertical, then insert the pipe connector (17) onto the socket (16).
B. Thread the main wire (5) and ground wire (8) through the straight pipe (13), hanging loop (12), and chain (11). Then, tighten this assembly onto the threaded pipe (14) on the fixture.
C. Pull the main wire (5) and ground wire (8) out through the ceiling canopy assembly (9). Connect the hanging loop on the canopy (9) to the chain (11) using the quick link (10).
D. Secure the mounting bracket (1) to the junction box using the junction box screws (3).
E. Wiring Connections
·Use wire connectors (4) to connect the fixture's positive wire, negative wire to the corresponding wires from the junction box. Secure the fixture ground wire (8) and the house ground wire to the mounting bracket (1) using the green grounding screw (7).
·Ensure no exposed conductors remain outside wire connectors or outside the junction box.
F. Slide the ceiling canopy (9) over the threaded studs (2) on the mounting bracket, then secure the fixture by tightening the nuts (6).
G. Install the light source (15) into the socket (16) as indicated (bulb not included).
Restore power to test the fixture.

Safety Instructions:

To avoid fire, shock, and serious personal injury, follow all instructions carefully.
1. Do not install or use the light fixture if any part is missing or damaged.
2. To avoid possible electrical shock, be sure electricity is turned off at the main fuse or circuit breaker box before wiring.
3. Make certain no bare wires are exposed outside the wire connectors.
4. All wiring must conform to national and local electrical codes.
5. Follow the recommended instructions for the proper method of wiring your new light fixture. If you feel you do not have enough electrical wiring knowledge or experience, have your light fixture installed by a licensed electrician. Any electrical work not described in this manual should be performed by a licensed electrician.
