

Assembly Instructions for **Model HL1747769**

Assembly Method

1. Remove the cross-shaped mounting bracket, and drill holes in the ceiling based on the bracket's hole positions.
2. Insert expansion bolts into the holes in the ceiling, then secure the mounting bracket to the ceiling using self-tapping screws.
3. Connect the fixture's cables to the power supply wires in the ceiling. (It is not necessary to distinguish between the neutral and live wires.)
4. Secure the entire light fixture to the mounting bracket using bolts.

The installation is complete.

Your fixture is now assembled and ready to use.
