MOUNT-IT!

Monitor Mount Reinforcement Plate

Protect, Stabilize, Reinforce: Improve your monitor mount experience with this reinforcement plate accessory that safeguards your tabletop from potential damage caused by concentrated stress on a small area. The large steel mounting plates effectively distribute the weight load and protect delicate surfaces.

- Recommended for glass desks, thin tabletops (<1"), and other fragile surfaces

- Offers increased installation stability especially for desk mounts holding two or more screens

- Anti-skid EVA pads ensure stability and protect desktop from scratches or scuffs

- 2-piece design with pre-drilled holes can be used with c-clamp and grommet mounts
