Many People, One Thought

Providing quality solid wood furniture at an affordable price has been a group effort.

From concept to product designer, manufacturing and retailing, each area focuses on the details that will assure you a low price. But, never at the expense of function, styling or good sense.

A "ready-to-assemble" item reduces transportation and warehousing cost which helps your retailer keep their prices reasonable. Now, you are joining "Team Jela" with the final step, assembly.

● You assemble, you save ●

WELCOME TO JELA-USA!

This is a SOLID WOOD product:

We inspect all wood, and follow guidelines to pass quality inspections.

Solid wood furniture has knots, small cracks, and what may look like blemishes.

These characteristics are a natural by product of producing furniture from natural material.

IMPORTANT

Perform the entire assembly on a clean, hard surface using the flattened box or a towel to protect the surface and the unit's finish.
DO NOT assemble on carpet.
Carpet creates too much bounce making assembly difficult and could lead to damage of the parts.
