

1 OPEN THE PACKAGE!

Open the package and take out the compressed bean bag chair with a protective cover!

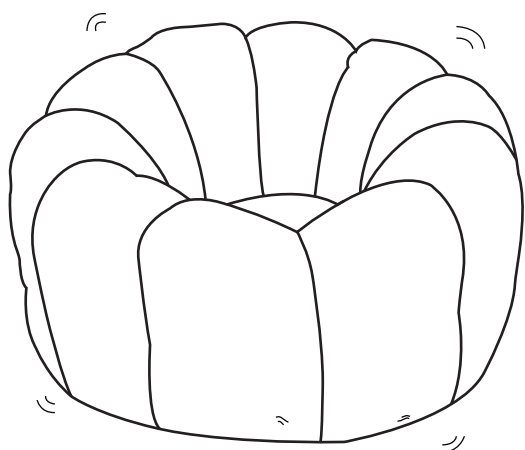

2 OPEN THE FIRST LAYER OF PACKAGING!

Cut the outer strap and cut the first layer of packaging!

3 OPEN THE VACUUM PACKAGE!

You can use tools such as scissors to cut the vacuum package and take out the bean bag chair. Please note: the package may fit the product. When cutting the vacuum package, be careful not to cut the bean bag chair!

4 SHAKE OR PAT!

Waiting for 36 hours or shaking or patting the bean bag chair vigorously after taking it out can speed up the memory foam to absorb air and restore it to its original state faster!

NOTES:

1. Due to material and structural limitations, the bean bag chair cannot be disassembled for cleaning. If it is dirty, please dry clean it or wipe it with a wet tissue.
2. Due to the vacuum packaging, there may be some odor. Please wait for a while for it to dissipate.
