Installation Instructions

1

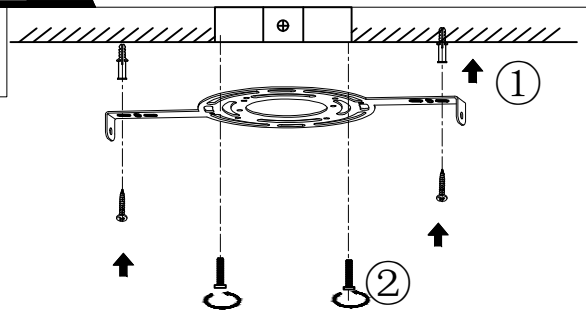

OFF

STEP1

Turn off the power supply before installation.

2

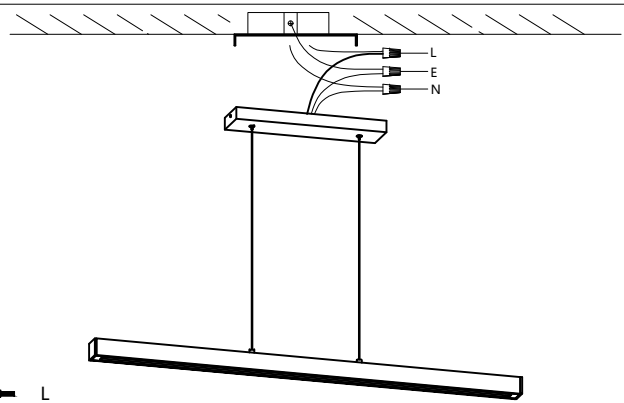

STEP2

1. Drill holes in the ceiling according to the hole spacing of the mounting plate, then insert the plastic expansion anchors into the holes until they are flush with the ceiling surface.
2. Secure the mounting plate to the junction box with screws, then fasten both sides of the mounting plate using the self-tapping screws.

3

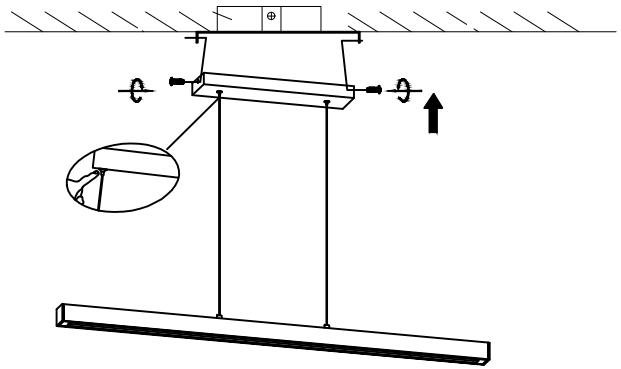

black L
white N
Earth E

STEP3

Connect the wires from the lamp fixture to the junction box using wire connectors.
Match the black wire to the black wire, the white wire to the white wire, and the ground wire to the ground wire (usually green or bare copper).

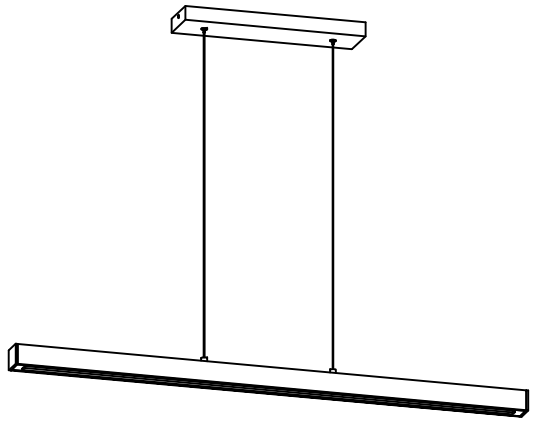

4

STEP4

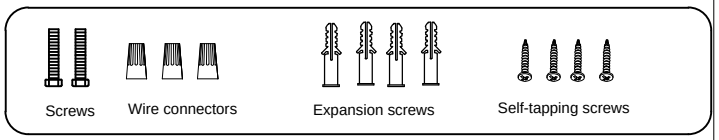

1. Secure the canopy to the mounting plate using the nuts.
2. Press the button on the canopy to adjust the hanging wire height as needed.

5

STEP5

Installation is complete.

Before installation, please check that all accessories are included.
If you have any questions, please contact our customer service team for assistance.

Note:

1. Voltage: 110 – 135V~60Hz
2. Light Source Type: LED
3. Please turn off the power supply before installation to prevent electric shock.
4. Please follow the installation instructions carefully during assembly.
