### ASSEMBLY TOOLS REQUIRED ( NOT INCLUDED )

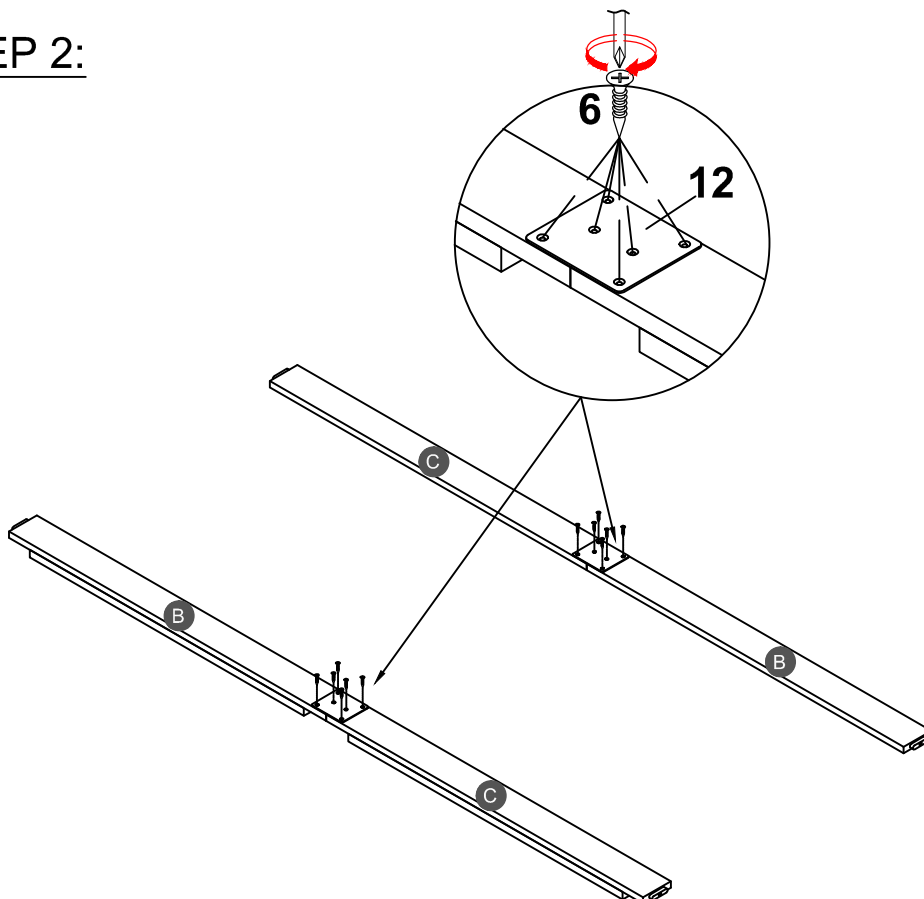

PLEASE BE CAREFUL DO NOT DAMAGE THE HOLE POSITION WHEN YOU USE POWER TOOLS !

## STEP 1:

## STEP 2:

6

12PCS

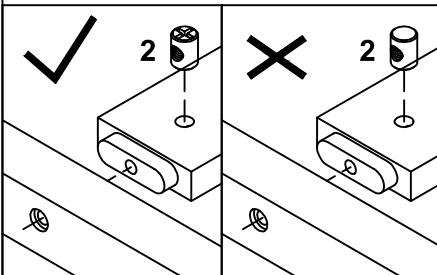

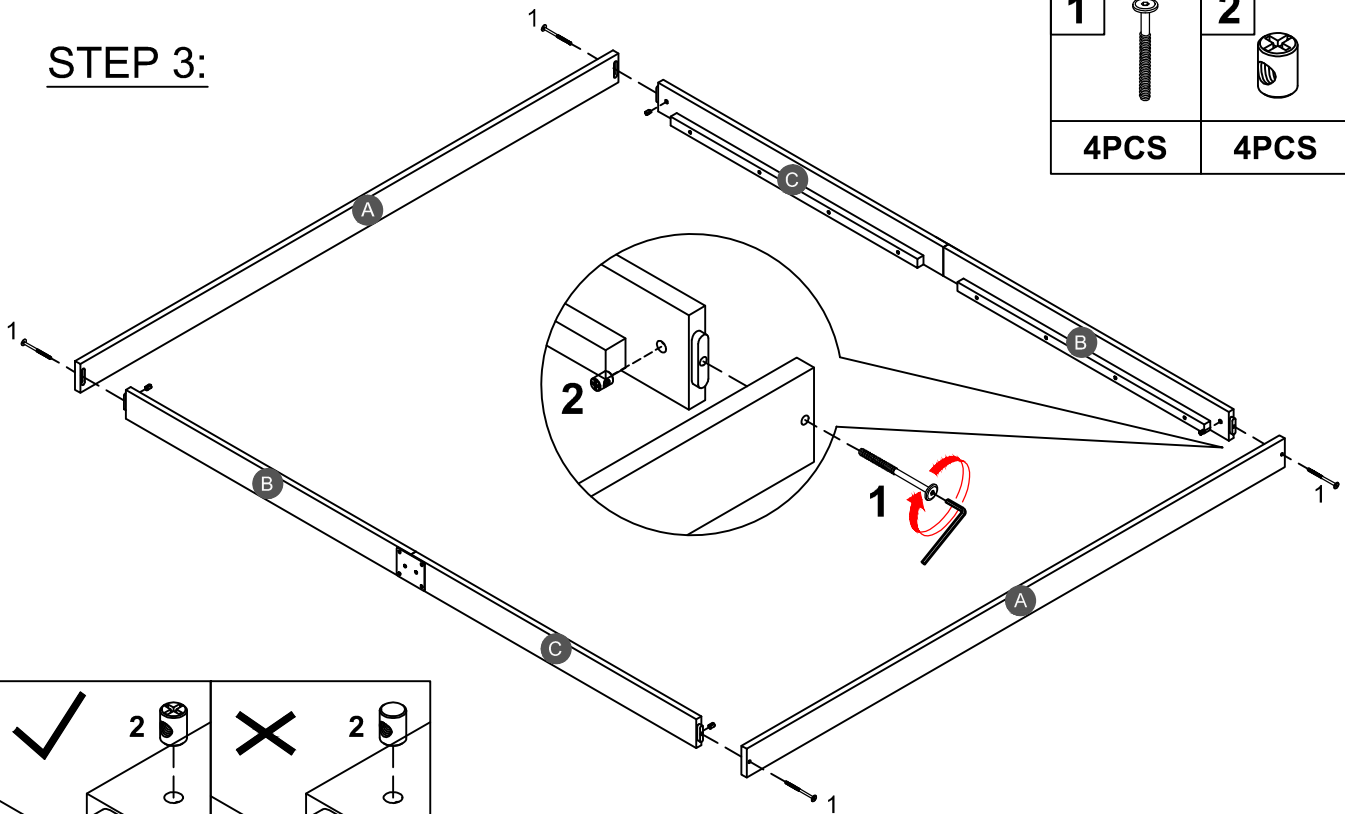

12

2PCS

### STEP 3:

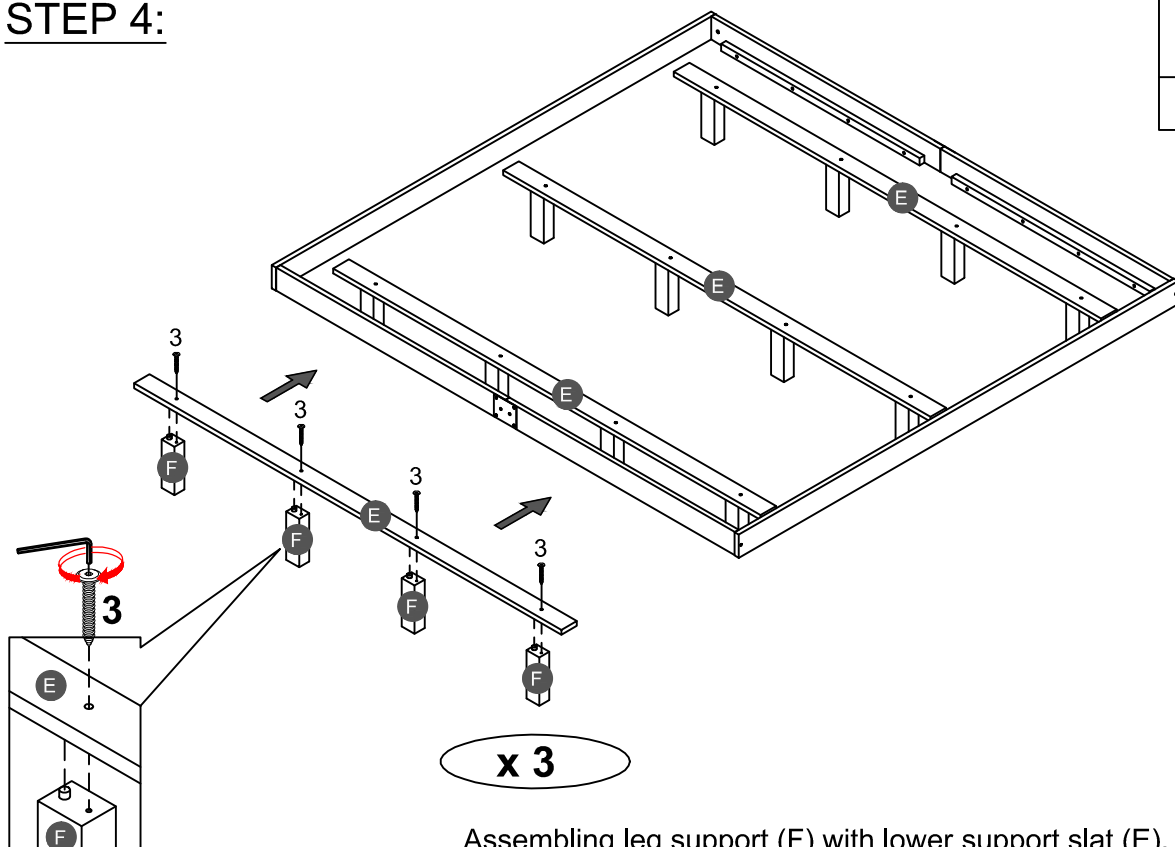

|      |                                                                                     |      |                                                                                     |
|------|-------------------------------------------------------------------------------------|------|-------------------------------------------------------------------------------------|
| 1    |  | 2    |  |
| 4PCS |                                                                                     | 4PCS |                                                                                     |

Note: Part 2 will face up with the "x" mark on it, otherwise it cannot be tightened

### STEP 4:

|       |                                                                                       |
|-------|---------------------------------------------------------------------------------------|
| 3     |  |
| 12PCS |                                                                                       |

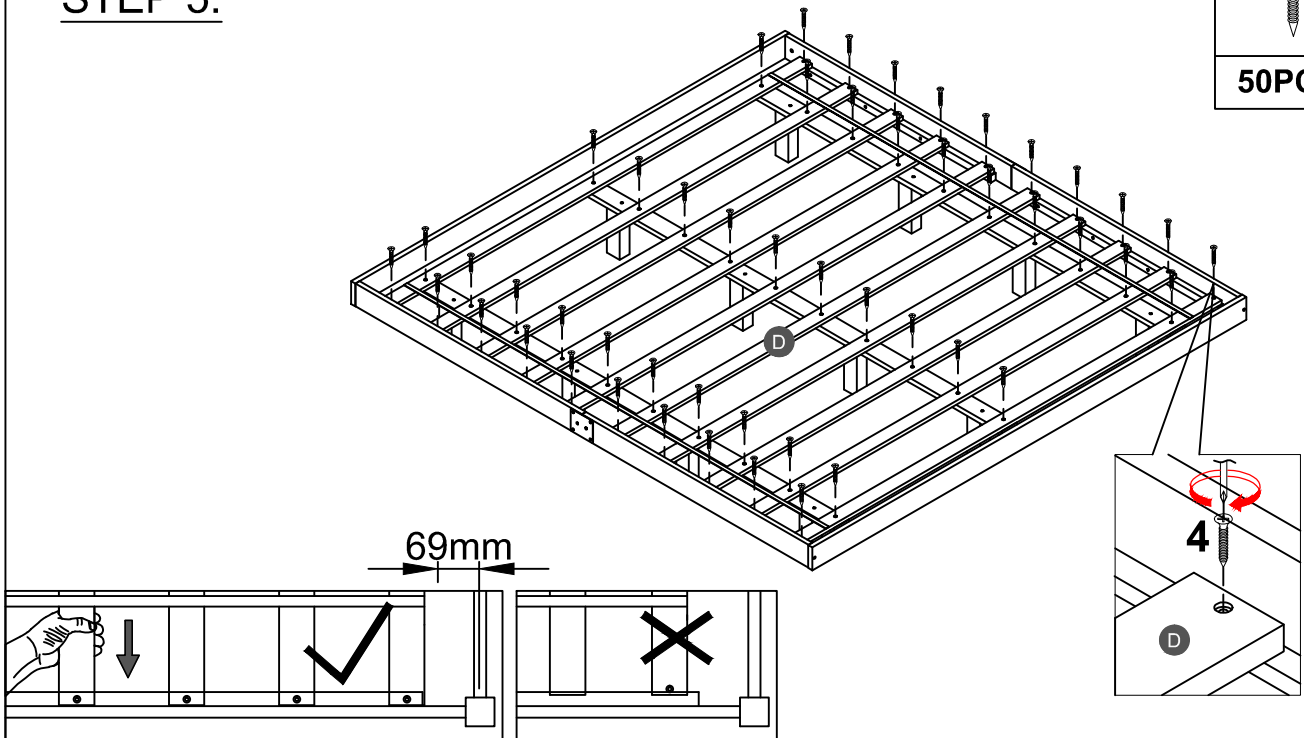

Assembling leg support (F) with lower support slat (E), Move support slat inside King Floor bed.

## STEP 5:

4

50PCS

Note: Do not lock the screws of the bed slats to the outermost edge of the bed slats, you need to leave a certain space at the edges, otherwise it will cause the board to break.  
Do not lock the bed slats on the edge of the wood, please hold firmly before screwing , hold it in place with one hand, then lock the screw.

## STEP 6:

6
