

Assembly Instructions

Step 1. Carefully unpack fixture and all components.

Step 2. Follow enclosed Wall Mount Fixture Installation and Wiring Instruction.

Figure A. Insert **glass shade(s)** into **socket cup(s)**. Use **wrench** (if included) to thread **screw collar** onto **lamp socket** until **glass shade** is firmly secured.

Note: This fixture can be mounted with glass up or glass down.

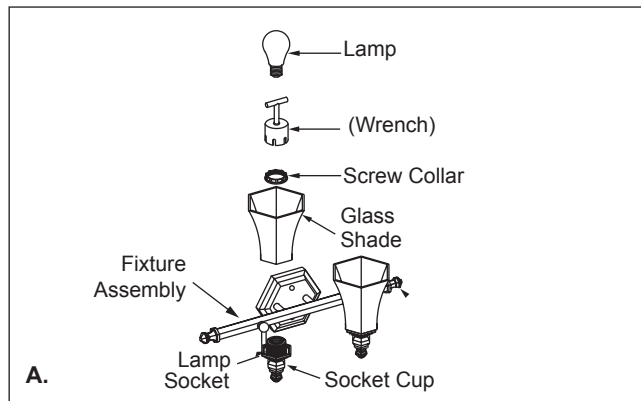

Figure B. Carefully insert **decorative trim(s)** (if included) and **glass shade(s)** into **socket cup(s)**. Thread **halogen lamp(s)** (included) into **lamp socket(s)**. Slide **lamp shield(s)** into **lamp shield bracket(s)**.

Warning: Do not touch **Halogen lamp(s)** with bare hand.

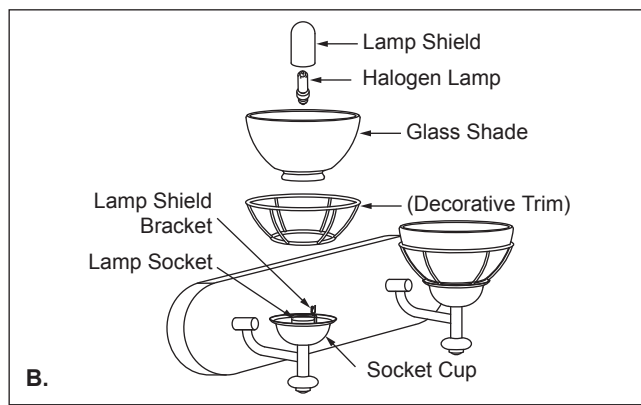

Figure C. Install **halogen lamp(s)** (included) into **lamp sockets**. Slide **lamp shield(s)** into **lamp shield bracket(s)**. Carefully place **glass shade** into **fixture assembly**. Make sure **glass shade** rests securely and evenly in **fixture assembly** and **shade cradle**. Warning: Do not touch **Halogen lamp(s)** with bare hand.

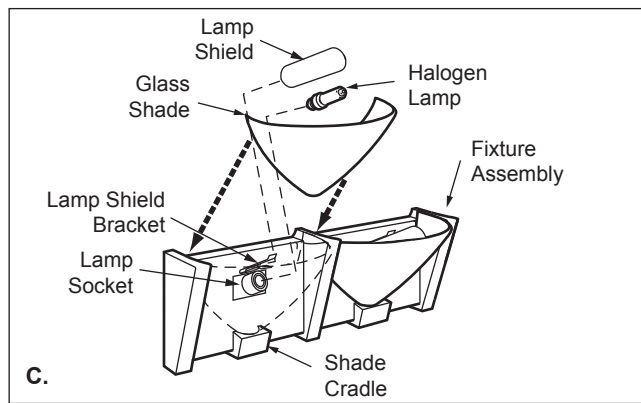

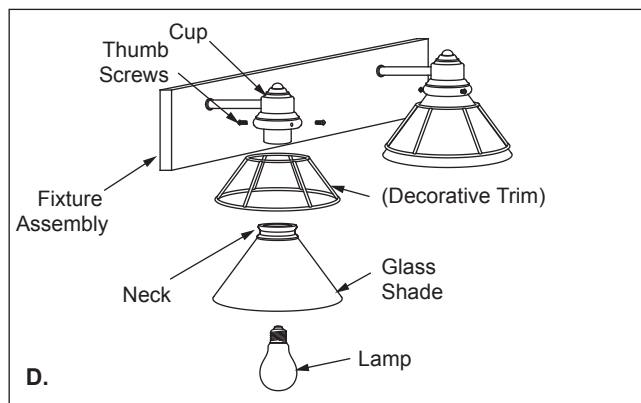

Figure D. Carefully place **decorative trim(s)** (if included) on **glass shade(s)**. Carefully lift **glass shade** and **decorative trim** into position, inserting **neck** into **cup** on **fixture assembly**. Thread **thumb screws** evenly into **cup**, securing **glass shade**.

NOTE: Make sure threads of **thumb screws** make contact with **neck** of **glass shade** (finger tighten only). Be careful not to over tighten. Over tightening could damage the **glass shade**.

NOTE:

1. When installing **lamp(s)**,
DO NOT EXCEED MAXIMUM WATTAGE RATING.
DO NOT TOUCH HALOGEN BULB WITH BARE HANDS.
2. Illustrations on this page are only for reference.
