ASSEMBLY INSTRUCTIONS

friendly reminder

To avoid errors and confusion during the installation of accessories, use the type and quantity of hardware accessories according to the installation procedure described in the instructions. First, unroll the accessories bag and lay out the hardware accessories, cut holes in the side, and take out the hardware accessories

Please note that the large hole on part #5 must be in the same position as the large hole on the turntable (I), and the small hole on part #5 must be in the same position as the small hole on the turntable (I) in order to lock the accessory (G).

STEP 16

180°

INSTALLATION INSTRUCTION

STEP 17

Before installation, please first align the holes on the reverse turntable (indicated by the arrows) with the two large holes on part #5 by rotating them, and then tighten the screws.

First, align the two holes on part #5 and the turntable with the small holes on part #3, and then tighten the screws.

After completing the above operation, rotate the board by 90 degrees so that the large hole on part #5 aligns with the small hole on part #3. Then tighten the screws.
