## Note:

- (1) The number after "+" sign indicates the extra piece(s).
- (2) How to use the 2-in-1 screwdriver with interchangeable Phillips and flat head bits:
  - (a) Insert the desired bit end (Phillips or flat head) into the handle and push firmly until it clicks into place. To remove the bit, push and hold the spring-loaded ring on the handle towards the base. This will release the bit from the handle.
  - (b) While still depressing the ring, pull the bit out of the handle. To replace with the opposite bit end, insert it into the handle until it clicks into the locking position. Make sure the bit is fully inserted before use.
