

# Item#42

## Instructions:

### **Cabinet Pull Out Pot & Pan Holder**

**Includes: Part A & B and all screws (4 long, 4 short)**

**Part A: Sliding Rail**

**Part B: Rear Mounting Bracket**

#### **STEP 1**

Follow steps 1 through 6 and then center rear bracket and screw in with the 4 long included wood screws

#### **STEP 2**

Slide in the Pot & Pan Organizer into the rear bracket rail

#### **STEP 3**

Line up front of the bracket with the front of the cabinet and screw into place with the small included screws

#### **Detailed Instructions**

1. Measure the largest pot or pan you are going to hang and make sure it clears both sides of the cabinet walls from right to left.
2. Hold the front of sliding rail (Part A) at the top frame of cabinet and pull the extension back to meet the back wall.
3. Make sure the rail is level and mark the back wall at the top of the rail
4. Remove the sliding rail
5. Line up the top of the mounting bracket (Part B) with the marking on the back wall.
6. Make sure the mounting bracket is straight.
7. Screw in using 4 long screws
8. Once the mounting bracket (Part B) is installed, push the back of the sliding rail (Part A) into the mounting bracket (Part B)
9. Push all the way until secure and the front portion is flush with the front of the cabinet and make sure the cabinet door can close.
10. The front of the sliding rail (Part A) should line up with the front of the frame.
11. Double check to make sure everything is level
12. Screw in the front plate into the top frame of the cabinet using 2 short screws
13. Insert needed hooks for all your pots, pans and lids. Load them onto hooks by the handle and then push back into the cabinet.

\*Be careful as there may be possible sharp metal edges
