

The Aeon CLR® 3 is an EDGE FREE® fixed frame screen that utilizes our CLR® 3 (Ceiling Light Rejecting®) material. Its serriform optical surface lens microstructure negates the washout effect of ambient light especially from overhead sources. This also enables the material to provide contrast levels that are 75 times greater than that of standard matte white projection screens. CLR® 3 is specifically designed for ultra-short-throw projectors to provide a large-screen performance in the close quarters of most residential or training room environments.

Screen Material

- CLR® 3 (Ceiling Light Rejecting) material absorbs 90% of overhead lighting
- Improves color saturation and black levels under ambient light conditions
- 75x contrast improvement over standard matte white screens in ambient light room environments
- Black backing eliminates light penetration
- Project from a short distance without shadowing the picture
- 170° viewing angle (85° L/R) – Allows viewers to spread out while maintaining brightness uniformity
- Micro-serriform optical structure filters out ceiling light for superior picture quality
- 4K/8K Ultra HD, HDR Ready

Design & Installation

- Sleek EDGE FREE® Fixed Frame resembles a flat panel TV
- Lightweight aluminum split-frame design
- Wraparound design maximizes viewing area and reduces overall footprint
- Ultra-thin black bezel trim
- LED Backlight kit included
- Project within a short distance without shadowing the picture
- Designed for table-top ultra-short throw projectors
- 2-Year / 3-Year ENR-G Manufacturer's Warranty by Elite Screens, an ISO9001 manufacturer since 2004
