

SOLAR STAR LIGHTS

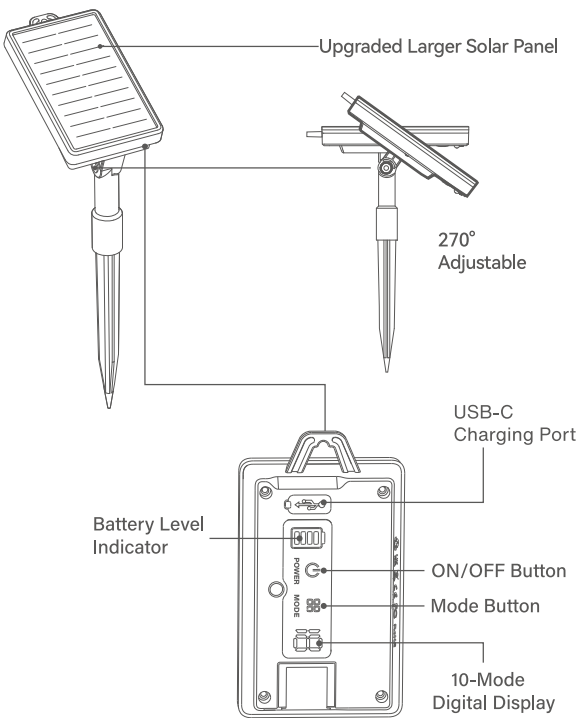

Thank you for choosing our product. If you have any questions or need help, please feel free to contact us. We are here to help.

USER MANUAL

INSTALLATION STEPS

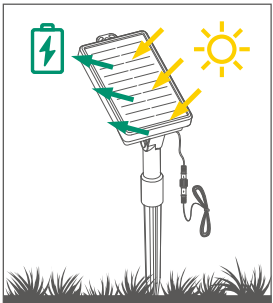

PRODUCT STRUCTURE

1. Please remove the protective film from the solar panel before use. Otherwise, it may impact the charging efficiency of the product.
2. The solar panel has a memory function. When the lights turn on the next night, they will remain in the previously selected mode.

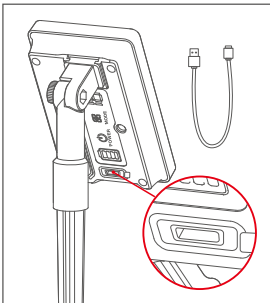

TWO CHARGING OPTIONS

Option 1: Solar Charging

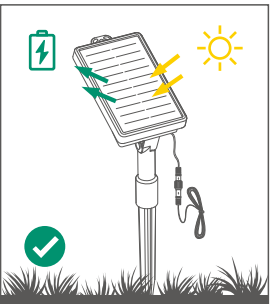

Expose the solar panel to sunlight for charging.

Option 2: USB Charging

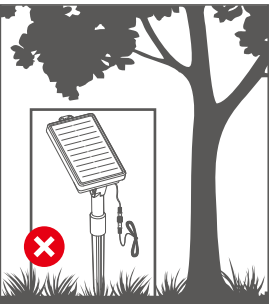

On rainy days or during winter, you can bring the solar panel inside and charge it via USB.

NOTE

Place the solar panel in direct sunlight.

SPECIFICATION

Modes	10 Lighting Modes
Material	ABS+PC
Solar Panel	Monocrystalline Silicon
Solar Charging Time	4-6 Hours
USB Charging Time	2-3 Hours
Working Time	12-15 Hours
Waterproof Rating	IP65

WARNING

- Do not dispose of the product in fire.
- Do not soak the product in water.
- Do not pull the wires connecting each light, as this may cause poor contact.
- Do not disassemble the solar panel, as this may prevent it from charging properly.
- If the product will not be used for a long time, turn it off and store it in a cool, dry place.

IMPORTANT NOTES

- Please make sure the solar panel is turned on before use, otherwise the solar lights will not charge or work automatically.
- The solar lights are not fully charged when the product arrives. Before first use, please make sure the solar panel is charged for at least 12 hours by placing it directly under the sunlight or fully charged by using the USB socket.
- To prevent tripping hazards and product damage, we recommend installing each light with the wire parallel to the ground.
- During cloudy weather or in winter, the charging time may be longer, and the working time may be shorter. This is normal and should not be regarded as a quality issue.
- When installing the Solar Star Lights, use a trowel for assistance to avoid excessive force that may break the ground stake.
- If the product remains idle for an extended period, please turn off the solar panel, and store it properly. Please kindly turn the solar panel on and charge it under direct sunlight before the next use.
